5. MAINTENANCE

Cleaning Your Laptop

- Use a soft, lint-free cloth slightly dampened with water or a screen cleaner to clean the display.
- For the keyboard and chassis, use a soft cloth. Avoid harsh chemicals or abrasive materials.
- Ensure the laptop is powered off and unplugged before cleaning.

Battery Care

- Avoid extreme temperatures.

- Do not fully discharge the battery frequently.
- For long-term storage, charge the battery to about 50-60%.

Software Updates

Regularly check for and install operating system updates (Windows Update) and Dell driver updates to ensure optimal performance and security.

6. TROUBLESHOOTING

Common Issues and Solutions

- **Laptop Not Powering On:** Ensure the power adapter is securely connected and the outlet is functional. Try holding the power button for 15-20 seconds for a hard reset.
- **Blue Screen Errors:** These can indicate software conflicts or hardware issues. Try restarting the system. If persistent, check for recent software installations or hardware changes. Consult Dell support if the issue continues.
- **Short Battery Life:** Adjust power settings in Windows to optimize battery usage. Close unnecessary applications running in the background. Ensure the battery is fully charged.
- **Touchscreen Unresponsive:** Restart the laptop. Ensure display drivers are up to date.
- **Stylus/Pen Incompatibility:** Note that not all styluses are compatible with this model. Verify compatibility before purchasing a stylus.
