GOAOFOEOI GO-WIFICAM01

GOAOFOEOI 1080P WiFi Home Security Camera User Manual

Brand: GOAOFOEOI | **Model:** GO-WIFICAM01

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your GOAOFOEOI 1080P WiFi Full Metal Case Wired Home Security Camera. Please read this manual thoroughly before using the product to ensure proper functionality and safety. This camera system is designed for outdoor use, offering robust surveillance with advanced features like two-way audio, motion detection, and night vision.

- **Smart Motion Detection & Real-time Alerts:** Customize monitoring areas to reduce false alarms. Receive real-time alerts and immediate notifications on your device. Snapshots and 10-second video clips are automatically saved to an SD card or cloud storage. The camera utilizes a US-based server for quick response and low latency.

Motion Detection & Real-time Alerts

Image: A smartphone screen showing a motion detection alert from the GOAOFOEOI security camera, with a person highlighted in a red box indicating the monitored area.

- **Secure Storage Options & Alexa Compatibility:** Supports micro SD cards up to 128GB (not included) for local storage. A 30-day free cloud service is available upon initial connection. Data and privacy are protected by robust financial encryption technology. Seamlessly integrate with Amazon Alexa to display the live camera feed on compatible Echo Show devices.

Compatible With Alexa

Connect your devices to Amazon Alexa for show your front door, garage, or anywhere else.

Image: The GOAOFOEOI security camera positioned next to an Amazon Echo Show, demonstrating its compatibility with Alexa for viewing live feeds.

- **High-Definition Clarity & Night Vision:** Experience crystal-clear 1080P Full HD visuals with a 120° wide-angle view and a powerful 2MP lens. Advanced infrared LED lights provide night vision up to 40 feet in darkness. Note: Compatible with 2.4GHz Wi-Fi networks only (not 5.0GHz).

SETUP GUIDE

- 1. Prepare for Installation:** Choose a suitable outdoor location for your camera, ensuring it is within range of your 2.4GHz Wi-Fi network. The camera requires a plug-in power source.
- 2. Download the App:** Search for the recommended control app (e.g., 'meShare' as indicated in some product reviews) on your smartphone's app store (iOS or Android) and install it.
- 3. Power On the Camera:** Connect the camera to the power supply using the provided adapter. The camera will power on and enter pairing mode.
- 4. Add Device in App:** Open the app and follow the on-screen instructions to add a new device. This typically involves scanning a QR code on the camera or its packaging, and then connecting the camera to your 2.4GHz Wi-Fi network by entering your Wi-Fi password.
- 5. Mount the Camera:** Once the camera is successfully connected and functioning, use the provided mounting kit to securely attach the camera to your chosen wall or surface. Adjust the camera angle for optimal viewing coverage (120° wide-angle).
- 6. Install Micro SD Card (Optional):** If you wish to use local storage, insert a micro SD card (up to 128GB, not included) into the designated slot on the camera. Refer to the app for formatting the SD card if necessary.

OPERATING INSTRUCTIONS

- Live View:** Open the app on your smartphone to access the live video feed from your camera. You can view the 1080P Full HD stream in real-time.
- Two-Way Audio:** Use the microphone and speaker icons within the app to engage in two-way communication. Press and hold the microphone button to speak, and release to listen.
- Motion Detection Alerts:** Configure motion detection zones and sensitivity settings within the app. When motion is detected, you will receive instant notifications on your smartphone, along with snapshots and short video clips.
- Reviewing Recordings:** Access recorded video clips and snapshots through the app. Recordings are stored on your installed micro SD card or in the cloud (if subscribed to cloud service).
- Alexa Integration:** Enable the camera's skill in the Alexa app. You can then use voice commands (e.g., "Alexa, show me the front door camera") to view the live feed on compatible Amazon Echo Show

devices.

- **Family Sharing:** The app supports sharing camera access with multiple accounts, allowing family members to view the live feed simultaneously.

MAINTENANCE

- **Cleaning:** Periodically clean the camera lens with a soft, dry cloth to ensure clear image quality. Avoid using harsh chemicals or abrasive materials.
- **Weather Protection:** While the camera is IP65 weatherproof, ensure its mounting location provides adequate protection from extreme weather conditions to prolong its lifespan.
- **Firmware Updates:** Regularly check the app for available firmware updates. Keeping your camera's firmware up-to-date ensures optimal performance, security, and access to new features.
- **Power Supply:** Ensure the power connection is secure and protected from water exposure.

TROUBLESHOOTING

- **Camera Offline:** Check the power connection and ensure your Wi-Fi network is active and stable. Verify the camera is within range of your 2.4GHz Wi-Fi router. Restart the camera and your router if necessary.
- **Poor Image Quality:** Ensure the camera lens is clean. Check your Wi-Fi signal strength in the app; a weak signal can affect video quality.
- **Motion Detection Not Working:** Verify that motion detection is enabled in the app and that the detection zones are correctly configured. Adjust sensitivity settings if needed. Ensure there are no obstructions blocking the camera's view.
- **Two-Way Audio Issues:** Check the volume settings on your smartphone and within the app. Ensure there is no excessive background noise interfering with the audio.
- **SD Card Not Recording/Recognized:** Ensure the SD card is inserted correctly and is not full. Try formatting the SD card through the app or on a computer. Use a compatible micro SD card (up to 128GB).
- **Alexa Integration Problems:** Ensure the camera's skill is enabled in the Alexa app and that your Alexa device is properly linked to your camera account.

SPECIFICATIONS

Feature	Specification
Model Name	GO-WIFICAM01
Video Resolution	1080P Full HD (2MP)
Viewing Angle	120 Degrees
Night Vision Range	Up to 40 Feet (Infrared LEDs)
