Coleman 3000006494

Coleman Classic Series 100-Quart Wheeled Cooler User Manual

Model: 3000006494

Introduction

This manual provides essential information for the proper use, care, and maintenance of your Coleman Classic Series 100-Quart Wheeled Cooler. Designed for durability and performance, this cooler is ideal for various outdoor activities, ensuring your contents remain cold for extended periods.

The Coleman 316 Series 100-Quart Wheeled Cooler is built with a fully insulated lid and body, capable of keeping ice for up to 5 days in temperatures as high as 90°F. Its heavy-duty 6-inch wheels and durable tow & swing-up handles facilitate easy transport. The lid features molded cup holders to prevent spills and can support up to 250 lbs, serving as an extra seat. With a large capacity for up to 160 cans, this cooler is a reliable companion for tailgating, camping, picnics, and more.

Product Features

- **Fully Insulated:** Lid and body keep ice for up to 5 days in temperatures as high as 90°F.
- **Easy Transport:** Features heavy-duty 6-inch wheels and durable tow & swing-up handles for convenient mobility.
- **Built-in Cup Holders:** Molded into the lid to prevent drinks from spilling; fits up to a 30-oz. tumbler.
- **Have-A-Seat Lid:** Closed lid supports up to 250 lbs, providing an additional seating option.
- **Stain-Resistant Liner:** Designed for easy cleanup, featuring a leakproof channel drain plug.
- **Easy to Open:** Recessed lip allows for easier access to contents.
- **Large Capacity:** Capable of holding up to 160 cans.
- **Leakproof:** Equipped with a channel drain plug to prevent leaks.

Image: A hand operating the cooler's drain plug, highlighting the 'No-Tilt Draining' system with a rustproof, leak-resistant channel drain.

Setup

1. **Unpacking:** Carefully remove the cooler from its packaging. Inspect for any shipping damage.
2. **Initial Cleaning:** Before first use, clean the interior and exterior of the cooler with mild soap and water. Rinse thoroughly and allow to dry completely.
3. **Pre-Chill (Optional but Recommended):** For optimal performance, pre-chill the cooler by placing a bag of ice or ice packs inside for a few hours before loading with contents.

Operating Instructions

Loading Contents

- Place items that need to stay coldest at the bottom.
- Use block ice for longer cooling duration, or cubed ice for faster cooling.
- Fill the cooler as much as possible to minimize air space, which helps maintain cold temperatures.
- Utilize the built-in cup holders on the lid for beverages to prevent spills.

Transporting the Cooler

- Extend the durable tow handle for easy pulling on its heavy-duty 6-inch wheels.
- For lifting, use the swing-up handles located on the sides of the cooler. Ensure a firm grip, especially when the cooler is full.

Using the Have-A-Seat Lid

- When the lid is closed, it can support up to 250 lbs, providing a convenient seating option.
- Ensure the lid is securely closed before using it as a seat.

Maintenance

- **Cleaning:** Clean the cooler with mild soap and water after each use.
- **Draining:** Use the leakproof channel drain plug to easily drain melted ice and water.
- **Drying:** Let the cooler dry completely before storing to prevent mold and mildew.
- **Storage:** Store in a dry, cool place away from direct sunlight.
- **Sticker Removal:** If applicable, remove stickers carefully to avoid damaging the surface.

Troubleshooting

- **Ice Melts Too Quickly:** Ensure the lid is securely latched. Pre-chill the cooler before use. Minimize opening the lid. Use a higher ice-to-content ratio.
- **Lid Not Sealing Properly:** Check for any debris around the lid gasket. Ensure the cooler is not overfilled, which could prevent proper lid closure.
- **Difficulty Draining:** Ensure the drain plug is fully open and clear of any obstructions.
- **Wheels Not Rolling Smoothly:** Check for debris or obstructions around the wheels. Clean the wheel area if necessary.
