Rear Panel Connections

Image: Rear view of the Albrecht DR 865 Senior Radio, showing the antenna, power input, and auxiliary ports.

- **ON/OFF Switch:** Main power switch.
- **DC IN:** Power adapter connection (12V, 1.5A).
- **AUX IN:** 3.5mm audio input for external devices.
- **Headphone Jack:** 3.5mm output for private listening.
- **Telescopic Antenna:** For optimal DAB+ and FM reception.

SETUP

Initial Setup

1. **Connect Power:** Plug the power supply unit into the **DC IN** port on the back of the radio, then connect it to a wall outlet.
2. **Extend Antenna:** Fully extend the telescopic antenna for best reception.
3. **Power On:** Flip the **ON/OFF** switch on the rear panel to **ON**. Press the **Power** button on the front panel or remote control.
4. **Automatic Station Scan:** Upon first power-on, the radio will automatically perform a scan for available DAB+ and FM stations. This process may take a few minutes.

Senior Mode Activation

The DR 865 offers a simplified "Senior Mode" for ease of use. To activate:

1. Ensure the radio has completed its initial station scan.
2. Tune to your desired favorite stations and save them to the preset buttons (1-6). Refer to the "Saving Presets" section for detailed instructions.
3. Access the system settings via the **MENU** button. Navigate to the "Senior Mode" option and enable it.

In Senior Mode, only power on/off, volume adjustment, and recalling favorite stations (1-6) are available, preventing accidental setting changes.

OPERATING MODES

Standard Mode

This is the default operating mode, providing full access to all radio functions, including station search, station lists, settings, alarms, and more. Use the **MENU** button to navigate through various options.

Senior Mode

Designed for simplicity, Senior Mode restricts functionality to essential operations: power on/off, volume control, and direct access to the 6 preset favorite stations. This mode prevents unintended changes to settings.

BASIC OPERATION

Power On/Off

To turn the radio on or off, press the **Power** button on the front panel or the remote control. Ensure the main **ON/OFF** switch on the rear is in the **ON** position.

Volume Adjustment

Rotate the **Volume** knob on the front panel clockwise to increase volume and counter-clockwise to decrease it. Alternatively, use the volume buttons on the remote control.

Selecting DAB+ Stations

1. Press the **MODE** button (or navigate via **MENU**) to select DAB+ mode.
2. Rotate the **SCAN/TUNE** knob to browse through the available DAB+ stations.
3. Press the **OK** button to select a station.

Selecting FM Stations

1. Press the **MODE** button (or navigate via **MENU**) to select FM mode.
2. Rotate the **SCAN/TUNE** knob to manually tune to a frequency, or press and hold it to auto-scan for the next available station.
3. Press the **OK** button to confirm.

ADVANCED FEATURES

Saving and Recalling Presets

The radio allows you to save up to 60 favorite stations (30 DAB+, 30 FM).

To Save a Preset:

1. Tune to the desired station.
2. Press and hold the **PRESET** button until "Preset Store" appears on the display.
3. Use the **SCAN/TUNE** knob to select a preset number (1-60).
4. Press **OK** to confirm.

To Recall a Preset:

Briefly press the **PRESET** button. Use the **SCAN/TUNE** knob to select the desired preset number, then press **OK**. For presets 1-6, you can also press the corresponding numbered button on the front panel or remote control directly.

Music Streaming (Auxiliary Input)

The DR 865 supports music playback from external devices via its 3.5mm Auxiliary Input.

1. Connect your external audio device (e.g., smartphone, tablet) to the **AUX IN** port on the rear of the radio using a 3.5mm audio cable (not included).
2. Select "AUX In" mode on the radio (usually via the **MODE** button or **MENU**).
3. Play audio from your connected device. The radio will output the sound.

MAINTENANCE

Cleaning

To clean the radio, gently wipe the surfaces with a soft, dry, or slightly damp cloth. Do not use abrasive cleaners, solvents, or chemical sprays, as these can damage the finish.

Antenna Care

Handle the telescopic antenna with care. Avoid bending or forcing it, as this can impair reception.

Storage

When not in use for extended periods, disconnect the power supply and store the radio in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Albrecht DR 865 radio, please refer to the following common solutions:

- **No Power:** Ensure the power supply is securely connected to both the radio and a working wall outlet. Check that the main **ON/OFF** switch on the rear is in the **ON** position.
- **No Sound:** Check the volume level. Ensure the radio is not muted. If using AUX IN, verify the external device's volume and connection.
- **Poor Reception (DAB+/FM):** Fully extend and adjust the telescopic antenna. Try repositioning the radio to a location with better signal strength, away from other electronic devices that may cause interference.
- **Display Not Working:** Try turning the radio off and on again. If the issue persists, contact customer support.
- **Remote Control Not Responding:** Check and replace the batteries in the remote control. Ensure there are no obstructions between the remote and the radio's sensor.

If the problem persists after trying these steps, please contact Albrecht customer support.
