Concord Heritage

Concord Heritage LED Ceiling Fan

Model: Heritage (52HES5WH-MB-LED)

Brand: Concord

INTRODUCTION

The Concord Heritage LED Ceiling Fan is designed to provide efficient air circulation and ambient lighting for indoor spaces such as bedrooms, living rooms, and offices. This 52-inch fan features a traditional 5-blade design, an integrated LED light kit, and convenient pull chain control. Its dual-mount system allows for both flush and downrod installation, accommodating various ceiling heights.

Key features include reversible blades for year-round comfort, a powerful motor with three speed settings, and a durable steel housing with a white finish.

SAFETY INFORMATION

Please read and understand all instructions before beginning installation. Failure to follow these instructions could result in electric shock, fire, or personal injury.

- Always disconnect power at the main circuit breaker before installing, cleaning, or servicing the fan.
- All electrical connections must be in accordance with local codes, ordinances, and the National Electric Code. If you are unfamiliar with proper electrical wiring, seek the services of a qualified electrician.
- Ensure the installation site allows the fan blades to rotate without obstruction. Maintain a minimum clearance of 7 feet from the floor to the bottom of the blades.
- The mounting structure must be capable of supporting the weight of the fan (approximately 17.6 pounds).
- Do not bend the blade holders during installation or cleaning.
- Do not insert objects into the path of the fan blades while the fan is operating.
- This fan is rated for indoor, dry locations only. Do not install in damp or wet environments.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Fan Motor Housing Assembly
- 5 Fan Blades
- Blade Arms (pre-attached to blades or separate)
- Light Kit Assembly (Glass Shade, Light Fitter)
- 3 x 6.5W A15 LED Bulbs
- Mounting Bracket
- 4.5-inch Downrod
- Canopy
- Pull Chains (for fan speed and light)
- Hardware Pack (screws, washers, wire nuts, etc.)

SETUP & INSTALLATION

This ceiling fan features a dual-mount system, allowing for either a flush mount installation (ideal for low ceilings) or a standard downrod installation. Professional installation is recommended if you are not experienced with electrical wiring.

General Installation Steps:

1. **Turn Off Power:** Before starting, ensure power is disconnected at the circuit breaker to prevent electrical shock.
2. **Mounting Bracket Installation:** Secure the mounting bracket to the ceiling junction box. Ensure the junction box is securely fastened to the building structure and can support the fan's weight.
3. **Assembly:** Assemble the fan blades to the motor housing. Attach the light kit assembly to the bottom of the fan motor. Install the included LED bulbs into the light kit.
4. **Wiring:** Connect the fan's electrical wires to the household wiring according to the wiring diagram provided in the full installation guide (not included here). Ensure all connections are secure using wire nuts.
5. **Fan Mounting:** Carefully lift the fan assembly and hang it from the mounting bracket. For downrod installation, feed the wires through the downrod and secure the downrod to the motor housing and mounting bracket. For flush mount, attach the fan directly to the mounting bracket.
6. **Canopy Installation:** Slide the canopy up to the ceiling and secure it to the mounting bracket, covering the wiring connections.
7. **Final Checks:** Double-check all connections and ensure no wires are pinched. Restore power at the circuit breaker.

Figure 1: Overall view of the Concord Heritage LED Ceiling Fan.

Figure 2: Example of the fan installed using the flush mount option, suitable for lower ceilings.

Figure 3: Example of the fan installed using the standard downrod option, providing more clearance.

OPERATING INSTRUCTIONS

The Concord Heritage LED Ceiling Fan is operated using two pull chains located on the fan's motor housing.

- **Fan Speed Control:** One pull chain controls the fan speed. Pull the chain repeatedly to cycle through the three available speeds: High, Medium, Low, and Off.
- **Light Control:** The second pull chain controls the integrated LED light kit. Pull the chain to turn the light On or Off.
- **Reversible Blades:** The fan features reversible blades, allowing you to change the direction of airflow. During warmer months, set the fan to rotate counter-clockwise to create a cooling breeze. In cooler months, set the fan to rotate clockwise at a low speed to circulate warm air trapped near the ceiling. The direction switch is typically located on the fan motor housing.

MAINTENANCE

Regular maintenance will ensure the longevity and optimal performance of your ceiling fan.

- **Cleaning:** To clean the fan, wipe the blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these may damage the finish. Ensure power is off before cleaning.
- **Light Bulb Replacement:** The fan uses three 6.5W A15 LED bulbs with a medium base. To replace bulbs, ensure power is off, allow bulbs to cool, then carefully unscrew the old bulbs and screw in the new ones.
- **Blade Balance:** If the fan wobbles, check that all blade screws are tightened. A balancing kit (not included) can be used to correct any imbalance.
- **Tighten Fasteners:** Periodically check and tighten all screws and fasteners on the fan assembly to ensure secure operation.

TROUBLESHOOTING

If you experience issues with your fan, consult the following table for common problems and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan Loose wire connections Motor issue	Check circuit breaker and wall switch. Verify all wire connections are secure (ensure power is off first). Contact customer support if motor is unresponsive.
Fan wobbles	Loose blade screws Unbalanced blades Loose mounting bracket	Tighten all blade screws. Use a blade balancing kit (sold separately) or swap blades to find balance. Ensure mounting bracket is securely fastened to the ceiling.
Light does not work	Bulbs are faulty or loose Loose wire connections Light kit issue	Check if bulbs are screwed in tightly; replace if necessary. Verify light kit wiring connections (ensure power is off first). Contact customer support if light kit is unresponsive.
Noisy operation	Loose screws Motor hum Blade rubbing	Tighten all screws on the fan. Some motor hum is normal; if excessive, contact support. Check for any obstructions or misaligned blades.

SPECIFICATIONS

Brand	Concord
Model Name	Heritage
Part Number	52HES5WH-MB-LED
Size	52 Inch
Color	White
Electric Fan Design	Ceiling Fan
Power Source	Corded Electric
Product Dimensions	52"D x 52"W x 18.13"H
Room Type	Bedroom, Living Room
Special Feature	Dual Mount
Recommended Uses	Air Circulation
Light Kit Wattage	6.5 watts (per bulb)
Number of Blades	5
Air Flow Capacity	4500 Cubic Feet Per Minute
Voltage	120 Volts
Switch Type	Pull Chain
Item Weight	17.6 Pounds
Indoor/Outdoor Usage	Indoor
Certification	UL Listed
Number of Power Levels	3
Type of Bulb	LED (A15, Medium Base)
UPC	098197967923

WARRANTY & SUPPORT

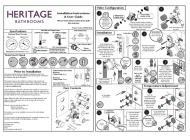

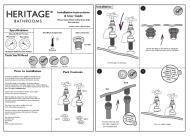

This Concord Heritage LED Ceiling Fan is backed by a **Limited Lifetime Motor Warranty**. This warranty covers defects in materials and workmanship of the fan motor under normal use and service.

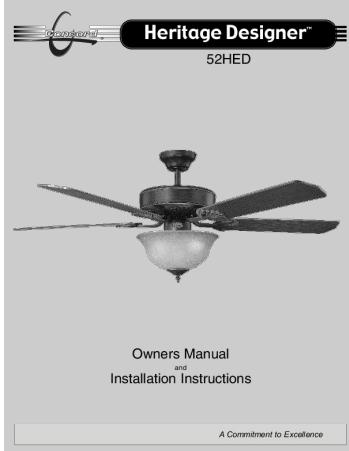

For detailed warranty terms and conditions, please refer to the documentation included with your purchase or visit the manufacturer's official website.

If you require technical assistance, have questions about installation, or need to claim warranty service, please contact Concord customer support. Contact information can typically be found on the product packaging or the manufacturer's website.

The image shows the interior of a traditional English church. The architecture features high ceilings with exposed wooden beams, tall arched windows, and a central chancel. The lighting is warm and focused on the altar area, creating a dramatic play of light and shadow. The church is mostly empty, with a few pews visible in the foreground and a small group of people in the background near the altar. The overall atmosphere is one of reverence and historical beauty.

Snap-on Masters of Metal Tour Heads to Concord N.H.

KENOSHA, Wis. – June 6, 2012 – With custom semi-trailers full of the latest and greatest Snap-on[®] tools and equipment, the Snap-on Masters of Metal Tour is on the road and heading to a city near you. This innovative tour is designed to showcase the latest Snap-on products and services to professionals and give these "masters" a hands-on experience with the newest and most exciting products Snap-on has to offer. The first stop on the tour is Concord, N.H., where Snap-on will be showcasing its latest products and services for Tuesday, June 12 from 3:00 p.m. to 7:30 p.m. at Heritage Harley Davidson, 142 Manchester St., Concord, N.H.

"The Snap-on Masters of Metal Tour is the perfect chance to see firsthand the latest innovations and hottest tool offerings from Snap-on," said Yvette Morrison, vice president of marketing, Snap-on Tools Group. "Our custom semi-trailers are packed with the latest Snap-on products and diagnostic solutions, as well as power tools and hand tools that our customers can see and try for themselves."

The Snap-on Masters of Metal Tour features state-of-the-art touch screen technology that will let Snap-on customers experience the latest in mobile technology. Snap-on's latest diagnostic software, which is used on Snap-on tools are designed and manufactured. There will also be multiple displays that provide hands-on activities for visitors to learn more about Snap-on's latest products and services. Snap-on will be available to connect with Snap-on representatives and learn about the tools and equipment that can help improve their productivity and efficiency.

About Snap-on Tools
Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and distributor of professional power tools, hand tools, diagnostic software, information and management systems, shop equipment and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions which are used by technicians and professionals in the development of the latest repair, maintenance and diagnostic technologies. Snap-on Tools is a division of the world's largest non-tool franchise companies in the world, selling its products and services through franchises, temporary direct distribution, and its own sales force. Snap-on Incorporated has 22,000 employees and 1,200+ Snap-on[®] 500 company located in Kenosha, Wis. with operations throughout the world. For additional information, visit www.snapon.com.
