# SteelSeries Aerox 3 Wireless Gaming Mouse User Manual

**MODEL: 62604**

**Brand: SteelSeries**

This manual provides comprehensive instructions for setting up, operating, and maintaining your SteelSeries Aerox 3 Wireless Gaming Mouse. Designed for ultra-lightweight performance and pixel-perfect tracking, this mouse offers dual wireless connectivity and a durable, water-resistant design.

## PRODUCT OVERVIEW

The SteelSeries Aerox 3 Wireless mouse is engineered for speed and durability. Its ultra-lightweight 66g design is optimized for fast mouse swipes, while the TrueMove Air optical sensor ensures precise tracking. With Quantum 2.0 Dual Wireless technology, you get a stable and reliable connection for uninterrupted gameplay. The mouse also features a long-lasting 200-hour battery life with fast charging capabilities via USB-C, and an IP54-rated AquaBarrier for water and dust resistance.

## SETUP GUIDE

---

Follow these steps to set up your SteelSeries Aerox 3 Wireless Gaming Mouse:

1. **Unboxing:** Carefully remove the mouse and all accessories from the packaging. You should find the Aerox 3 Wireless Mouse, a USB-C to USB Type-A Super Mesh Data/Charging Cable, a USB-C Wireless Dongle, and an Extension Adapter.

## AEROX 3 WIRELESS

ULTRA LIGHTWEIGHT GAMING MOUSE

Figure 2: Packaging of the SteelSeries Aerox 3 Wireless Gaming Mouse.

2. **Charging:** Before first use, it is recommended to fully charge the mouse. Connect the USB-C end of the charging cable to the mouse and the USB-A end to a powered USB port on your computer or a USB wall adapter. The mouse supports fast charging.

Figure 3: Side view showing the USB-C charging port.

3. **Connect Wireless Dongle:** For optimal wireless performance, plug the USB-C Wireless Dongle directly into an available USB-C port on your PC. If a USB-C port is not available, use the Extension Adapter with the USB-C to USB Type-A cable to connect the dongle to a USB-A port.

Figure 4: Bottom view of the mouse showing the wireless dongle storage and power switch.

4. **Power On:** Locate the power switch on the bottom of the mouse and slide it to the "2.4G" position for wireless mode or "Bluetooth" position for Bluetooth mode.
5. **Install SteelSeries Engine Software:** For full customization of RGB lighting, button remapping, and CPI settings, download and install the SteelSeries Engine software from the official SteelSeries website. This

software is compatible with Windows, macOS, and Linux.

Your browser does not support the video tag.

## OPERATING INSTRUCTIONS

### Connectivity Modes:

- **2.4 GHz Wireless:** For gaming-grade, low-latency performance, use the included USB-C Wireless Dongle. Ensure the switch on the bottom of the mouse is set to "2.4G".
- **Bluetooth 5.0:** For general use and multi-device connectivity, switch the mouse to "Bluetooth" mode. Pair it with your device through your operating system's Bluetooth settings.

### Basic Functions:

- **Left/Right Click:** Standard mouse buttons for primary and secondary actions.
- **Scroll Wheel:** Used for scrolling through documents and web pages. It also functions as a clickable middle button.
- **DPI Button:** Located behind the scroll wheel, this button cycles through pre-set CPI (Counts Per Inch) sensitivity levels. Customize these levels using the SteelSeries Engine software.
- **Side Buttons:** Two programmable buttons on the left side of the mouse, typically used for forward/back navigation or in-game actions.

### Battery Management:

The Aerox 3 Wireless boasts up to 200 hours of battery life. The RGB lighting can indicate battery status. When the battery is low, the lighting may flash or change color. Connect the USB-C cable to charge. The mouse can be used while charging.

## MAINTENANCE

### Cleaning:

The Aerox 3 Wireless features an AquaBarrier (IP54 rated) for water and dust resistance. To clean the mouse, gently wipe it with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials. Ensure the USB-C port is dry before charging.

### Software Updates:

Regularly check for updates to the SteelSeries Engine software. Updates often include performance improvements, bug fixes, and new features for your mouse.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Mouse not responding/connecting.	Low battery, incorrect wireless mode, dongle not connected, interference.	Charge the mouse. Ensure the switch is in the correct mode (2.4G or Bluetooth). Re-insert the wireless dongle. Try a different USB port. Reduce interference from other wireless devices.
Inconsistent CPI/tracking.	Dirty sensor, software issue, surface not suitable.	Clean the optical sensor on the bottom of the mouse. Reinstall SteelSeries Engine software. Use a clean, uniform mouse pad.
RGB lighting not working.	Software settings, low battery.	Check RGB settings in SteelSeries Engine. Ensure mouse is charged.
Mouse not charging.	Faulty cable/port, mouse issue.	Try a different USB-C cable and/or USB port. Ensure the cable is fully inserted.

For more detailed troubleshooting or advanced issues, please refer to the official SteelSeries support resources.
