Swiss Military Hanowa 06-42922402407IAPF

Swiss Military Hanowa Bermuda Men's Analogue Quartz Watch

Model: 06-42922402407IAPF

PRODUCT OVERVIEW

The Swiss Military Hanowa Bermuda Men's Watch is a robust and stylish timepiece designed for reliability and precision. It features a clear mineral dial glass, a durable stainless steel case, and a precise quartz movement with 3 hands and a date function. This watch is water-resistant up to 100 meters, making it suitable for various activities.

Key Features:

- Khaki Dial and Black Silicone Strap for a distinctive look.
- Stylish design suitable for everyday wear and outdoor activities.
- Excellent craftsmanship ensuring durability and longevity.
- Premium finish reflecting the quality of Swiss Military Hanowa.

PRODUCT ILLUSTRATION

Image Description: An overhead view of the Swiss Military Hanowa Bermuda watch. It features a khaki-colored dial with bold Arabic numerals at 10, 11, 1, 2, 4, 5, 7, 8, and 9, and stick markers for other hours. The hands are luminous, and there is a date window at the 3 o'clock position. The watch has a stainless steel case and a black silicone strap. The bezel is silver-toned with black markings for minutes/seconds.

SETUP

Setting the Time:

1. Pull the crown (the knob on the side of the watch) out to position **3**. You may feel two clicks if your watch has a date function. Pull it out to the furthest position.
2. Turn the crown clockwise or counter-clockwise to move the hands until the correct time is displayed.
3. Once the time is set, push the crown back into position **1** (normal operating position) to start the watch.

Setting the Date:

1. Pull the crown out to position **2** (the first click).
2. Turn the crown clockwise or counter-clockwise (depending on the movement) until the correct date is displayed in the date window. Avoid setting the date between 9 PM and 3 AM, as this can interfere with the date change mechanism. If the current time falls within this period, adjust the time outside this range first, set the date, and then reset the time.
3. Once the date is set, push the crown back into position **1**.

Note: Always ensure the crown is fully pushed in after setting to maintain water resistance.

OPERATING THE WATCH

Timekeeping:

Your Swiss Military Hanowa watch is powered by a precise quartz movement, ensuring accurate timekeeping. The hour, minute, and second hands continuously display the current time.

Date Display:

The date window at the 3 o'clock position automatically advances once every 24 hours. If the watch has been stopped or the date is incorrect, refer to the "Setting the Date" section under Setup.

Water Resistance:

This watch is water-resistant up to 100 meters (10 ATM). This rating means the watch is suitable for swimming and snorkeling, but not for high-impact water sports or diving. Do not operate the crown or pushers when the watch is wet or submerged in water.

MAINTENANCE

Cleaning:

To maintain the appearance of your watch, regularly wipe the case and strap with a soft, damp cloth. For the silicone strap, mild soap and water can be used. Ensure the watch is completely dry before wearing it again.

Battery Replacement:

As a quartz watch, it is powered by a battery. When the battery runs low, the second hand may start to jump every few seconds (End-of-Life indicator) or stop entirely. Battery replacement should only be performed by a qualified

watchmaker or authorized service center to ensure proper sealing and maintain water resistance.

Water Resistance Precautions:

- Always ensure the crown is fully pushed in before any contact with water.
- Avoid exposing the watch to extreme temperature changes, such as moving from a hot sauna directly into cold water, as this can compromise seals.
- Do not use chemical cleaners or solvents on the watch, as they can damage the case, strap, or seals.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Watch is not running.	Battery is depleted.	Have the battery replaced by an authorized service center.
Date does not change at midnight.	Time is set for AM instead of PM, or vice versa.	Advance the time by 12 hours.
Condensation under the crystal.	Moisture ingress due to compromised water resistance or extreme temperature changes.	Immediately take the watch to an authorized service center for inspection and repair to prevent further damage.

SPECIFICATIONS

Model Number: 06-42922402407IAPF (Manufacturer Reference: W S6-42922402407IAPF)

Brand: Swiss Military Hanowa

Movement: Quartz

Case Material: Stainless Steel

Case Diameter: 47 mm

Dial Glass: Mineral

Dial Color: Khaki

Strap Material: Black Silicone

Functions: 3 Hands, Date

Water Resistance: 100 meters (10 ATM)

First Available: 8 June 2022

WARRANTY AND SUPPORT

Your Swiss Military Hanowa Bermuda watch comes with a **2-Year International Manufacturer's Warranty**. This warranty covers manufacturing defects under normal use. Please retain your original packaging and the warranty card for any claims.

For warranty service, repairs, or technical support, please contact an authorized Swiss Military Hanowa service center. Using unauthorized service providers may void your warranty.
