

## INIU WI-211

# INIU 15W Fast Qi Certified Wireless Charging Station

**Model:** WI-211 | **Brand:** INIU

Instruction Manual

## 1. INTRODUCTION

Thank you for choosing the INIU 15W Fast Qi Certified Wireless Charging Station. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your device to ensure optimal performance and longevity. Please read this manual thoroughly before use.

The INIU 15W Fast Qi Certified Wireless Charging Station, shown with a smartphone actively charging on its stand.

## 2. PACKAGE CONTENTS & SETUP

### 2.1 What's in the Box

- INIU Wireless Charging Stand (x1)
- USB C Cable (x1)
- Welcome Guide (x1)

## Share A Power of Love

Contents included in the INIU wireless charging station package.

### 2.2 Connection Instructions

1. Connect the provided USB-C cable to the USB-C port on the back of the INIU Wireless Charging Stand.
2. Connect the other end of the USB-C cable to a compatible power adapter (not included). For optimal fast charging performance, a power adapter of **18W or higher** is recommended.
3. Place the charging stand on a stable, flat surface, away from direct sunlight, heat sources, and liquids.

The USB-C port on the INIU wireless charging stand for power input.

## 3. OPERATING INSTRUCTIONS

### 3.1 How to Charge Your Device

Simply place your Qi-compatible smartphone vertically or horizontally onto the charging stand. The device will automatically begin charging. Ensure your phone is centered on the charging pad for optimal performance.

## Portrait Mode

FaceTime and facial  
recognition while charging

## Landscape Mode

Watch videos while  
charging

The INIU wireless charger supports both portrait and landscape charging orientations.

### 3.2 Charging Modes and Compatibility

The INIU Wireless Charging Station supports various charging speeds depending on your device:

- **15W Fast Charge:** For LG and Google Pixel devices.
- **10W Fast Charge:** For Samsung Galaxy series.
- **7.5W Fast Charge:** For iPhone models.
- **5W Standard Charge:** For all other Qi-enabled devices.

# Universal Compatibility

**15W** Max

Fast Charge  
for LG and Google

Pixel 9 -3XL  
Series

LG V60 V50  
V40+/V30+

LG G7  
G8/G8X

**10W**

Fast Charge  
for Samsung

Samsung S24-S8  
Series

Samsung Z Flip  
5/4

Samsung Note 10  
Note 9/Note 8

**7.5W**

Fast Charge  
for iPhone

iPhone 16-11 Series

iPhone SE  
XR/XS

iPhone 8/  
8 Plus

**5W**

For Standard  
Charge

Other Qi phones

Universal compatibility of the INIU wireless charger with different smartphone brands and charging speeds.

**Up to 45mins Saved via  
15W Max Speed**

**15 W**

**iPhone 15**

**INIU 15W**  **3.4H**

**Other 10W**  **4.2H**

The 15W max speed charging capability of the INIU wireless charger.

### **3.3 Adaptive LED Indicator**

The charging station features a self-adaptive LED indicator. It brightens during the day for clear visibility and dims in the dark to avoid disturbing your sleep, providing a sleep-friendly charging experience.

# First-Seen Auto-Adaptive LED Indicator

The auto-adaptive LED indicator adjusts its brightness based on ambient light.

## 3.4 Case Compatibility

The charger is designed to work with phone cases up to 4mm in thickness. However, certain materials and attachments can interfere with wireless charging:

- Avoid cases with magnets, metal, or grips/stands.
- Remove credit cards or other foreign objects from between your phone and the charger.

# Case Friendly

Case Thickness  
 $\leq 4\text{mm}$

Magnets

Grips + Stands

Metal Cases

Credit Cards

Note: Foreign objects like magnets or metal can disrupt charging.

Guidelines for case compatibility and items to avoid when using the wireless charger.

## 3.5 Safety Features

The INIU Wireless Charging Station incorporates advanced safety technologies:

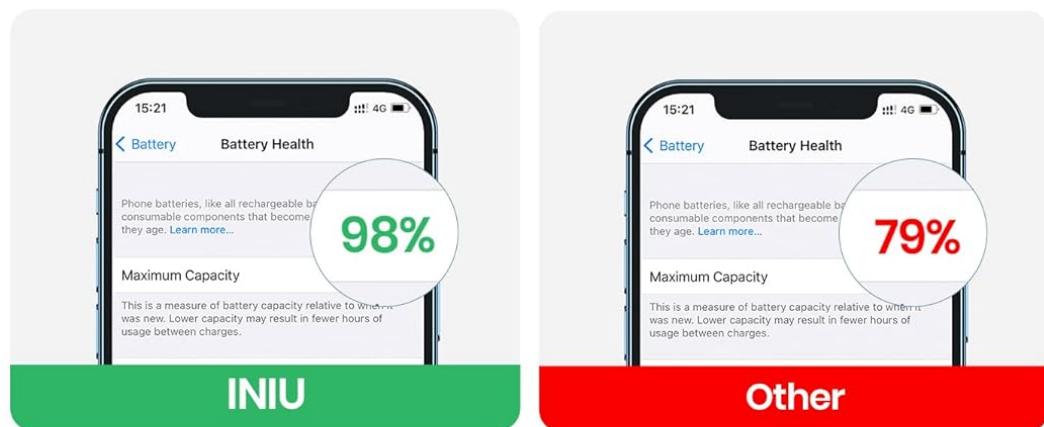

- **NTC Temp°Guard Battery Protection:** Controls temperature in real-time to prevent overheating and protect your phone's battery.
- **Over-Charge Protection:** Prevents overcharging of your device, ensuring battery longevity.
- **24-Hour Protection:** Provides continuous safety monitoring during charging.

## Exclusive Temp°Guard

### Eliminate Battery Overheating Damage

After 6 months of use

The NTC Temp°Guard feature helps eliminate battery overheating damage.

## 4. MAINTENANCE

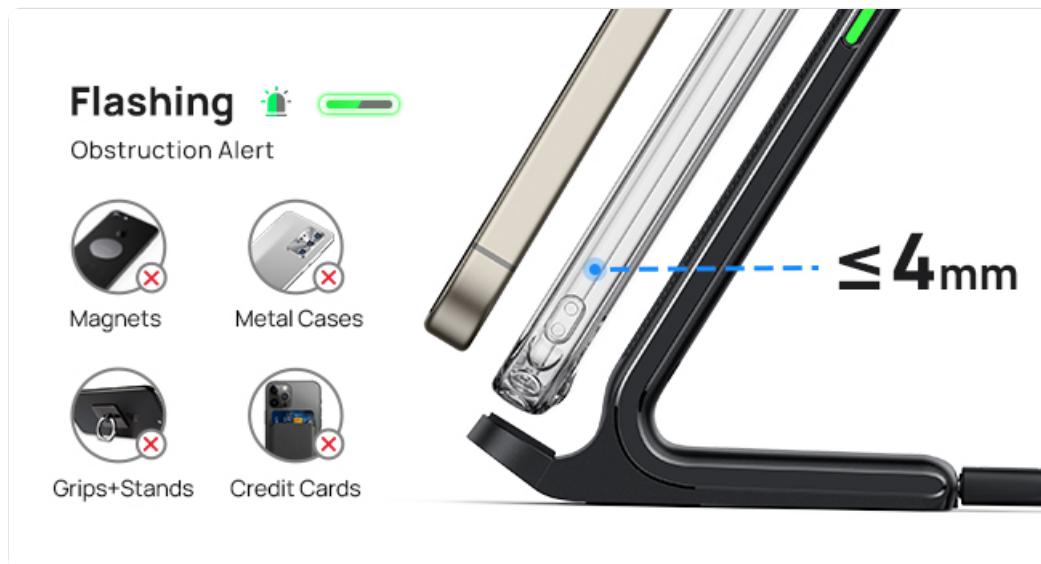

To ensure the longevity and proper functioning of your INIU Wireless Charging Station, follow these maintenance guidelines:

- Cleaning:** Use a soft, dry cloth to wipe the surface of the charging stand. Do not use abrasive cleaners, solvents, or harsh chemicals.
- Storage:** Store the charger in a cool, dry place when not in use.
- Avoidance:** Keep the device away from water, moisture, and extreme temperatures (both hot and cold).

## 5. TROUBLESHOOTING

If you encounter issues with your INIU Wireless Charging Station, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging or charging slowly.	<ul style="list-style-type: none"><li>Phone not properly aligned on the charging pad.</li><li>Phone case is too thick or contains metal/magnets.</li><li>Foreign objects between phone and charger.</li><li>Power adapter is not sufficient (less than 18W).</li><li>Charging cable is damaged or not properly connected.</li></ul>	<ul style="list-style-type: none"><li>Re-position your phone to ensure it is centered on the charging pad.</li><li>Remove your phone case or use a case less than 4mm thick without metal/magnets.</li><li>Remove any foreign objects (e.g., credit cards, keys) from the charging area.</li><li>Use an 18W or higher power adapter.</li><li>Check the USB-C cable for damage and ensure it is securely connected to both the charger and the power adapter.</li></ul>
LED indicator is flashing.	Foreign object detection (FOD) activated.	Remove any metal objects, credit cards, or other foreign materials from the charging surface and try again.
Device or charger feels warm during charging.	Normal operation, but excessive heat can indicate an issue.	Ensure proper ventilation. If overheating persists, discontinue use and contact support. The NTC Temp°Guard feature is designed to prevent excessive heat.

The charger's obstruction alert system, indicating incompatible items.

## 6. SPECIFICATIONS

Feature	Detail
<b>Model Number</b>	WI-211
<b>Product Dimensions</b>	2.88 x 3.4 x 4.2 inches
<b>Item Weight</b>	5.9 ounces
<b>Connectivity Technology</b>	Wireless
<b>Connector Type</b>	USB Type C
<b>Compatible Devices</b>	Cellular Phones (iPhone, Samsung, Google Pixel, LG, HUAWEI)
<b>Input Voltage</b>	5 Volts
<b>Special Features</b>	Wireless Charger, Fast Charging, Adaptive LED, NTC Temp°Guard
