SETUP AND ASSEMBLY

The Tribesigns L-Shaped Desk is designed for straightforward assembly. It is recommended that two people assemble the desk to ensure stability and ease of construction.

Before You Begin:

- Unpack all components and verify against the included parts list.
- Ensure you have all necessary tools (usually included, or basic household tools like a screwdriver).
- Clear a spacious area for assembly.

Assembly Steps:

1. Attach the metal pipe legs to the desktop sections using the provided hardware. Ensure all screws are finger-tight

initially.

2. Connect the two desktop sections to form the L-shape. The design allows for reversible configuration, meaning you can set up the longer section on either the left or right side to suit your space.
3. Secure all connections, tightening screws evenly until firm. Do not overtighten.
4. Adjust the foot pads on the bottom of the legs to ensure the desk is level and stable on your floor. This also helps protect your flooring from scratches.
