After inserting the batteries, securely close the battery compartment. Power on your device to confirm proper installation and functionality.

OPERATING INSTRUCTIONS

Duracell CR123A batteries are designed for optimal performance in high-powered devices. These include, but are not limited to, wireless security systems, home automation devices, high-intensity flashlights, and smoke detectors. Always refer to your device's user manual for specific battery requirements and operating procedures.

For best results, ensure that all batteries in a device are of the same type and age. Avoid mixing new and used batteries, or different battery brands, as this can lead to reduced performance or leakage.

MAINTENANCE AND SAFETY

Storage

Store Duracell CR123A batteries in a cool, dry place at room temperature. Avoid extreme temperatures and direct sunlight. These batteries are guaranteed for 10 years in storage.

Safety Warnings

- **CAUTION:** Keep batteries away from children.
- If swallowed, consult a physician at once.
- May explode or leak, and cause burn injury, if recharged, disposed of in fire, mixed with a different battery type, inserted backwards or disassembled.
- Replace all used batteries at the same time.
- Keep in original package until ready to use.
- Do not carry batteries loose in your pocket or purse.
- Do not remove the battery label.

Disposal

Dispose of used batteries responsibly according to local regulations. Do not dispose of batteries in household waste or by incineration.

TROUBLESHOOTING

If your device is not functioning after installing new batteries, consider the following:

- **Check Polarity:** Ensure batteries are inserted with the correct positive (+) and negative (-) orientation.
- **Clean Contacts:** Inspect battery contacts in the device and on the batteries for any dirt or corrosion. Gently clean with a dry cloth if necessary.
- **Verify Battery Freshness:** Although Duracell batteries have a long shelf life, confirm they are new and not expired.
- **Test with Another Device:** If possible, test the batteries in another compatible device to rule out a device malfunction.
- **Replace All Batteries:** If using multiple batteries, replace all of them simultaneously with new ones.
