## KEY FEATURES

---

- **AI Powered Wash:** A neural network-based algorithm detects fabric type and weight, optimizing wash duration, water level, wash actions, and gentleness.
- **5 Star Energy Rating:** Ensures best-in-class energy efficiency.
- **TRISHIELD PROTECTION:** Includes 4 Years Comprehensive Warranty, 10 years Motor Warranty, and 10 years Spares Support.
- **1400 RPM Spin Speed:** Higher spin speeds for faster drying.
- **14 Wash Programmes:** Including Hygiene/Anti Allergen, Cradlewash for Delicates, Baby Wear, Mixed/Daily/Soiled, Cotton Normal, Synthetic, Bulky/Bedding/Curtains/Duvet, Sports Wear/Fitness Wear, Uniform, Express Wash, Cotton Eco Plus, Woollens, Rinse+Spin, Spin Dry/Drain.
- **Crescent Moon Drum:** Innovative stainless steel drum design creates a gentle water cushion, preventing fabric damage.
- **Aqua Energie Device:** For water softening, better detergent action, and color protection.
- **Dual Steam Cycle:** Provides power cleaning for germ and wrinkle-free clothes.
- **Inbuilt Heater:** Offers Hot, Warm, and Cold temperature options.
- **Safety Features:** Child Lock, High-Low Voltage Protection, Auto Imbalance Control, Foam Detection, Auto Restart, Auto Tub Clean, Protective Rat Mesh.

## SETUP AND INSTALLATION

---

Proper installation is crucial for the optimal performance and longevity of your washing machine. It is recommended to have the appliance installed by a qualified technician.

### Unpacking

Carefully remove all packaging materials. Ensure that all included components are present:

- Washing Machine
- Drain Hose
- Inlet Pipe
- User Manual + Warranty Card
- Clip Ring
- Screw Fitting
- Protective Rat Mesh Cover

### Location Requirements

- Place the machine on a firm, level surface to minimize vibration and noise.
- Ensure adequate space around the machine for ventilation and maintenance.
- Avoid direct sunlight or heat sources.

### Water and Power Connection

- Connect the inlet pipe to a cold water tap with sufficient water pressure.
- Ensure the drain hose is properly secured to a drain outlet.
- Connect the power cord to a grounded 220 Volt AC power outlet.

## Selecting a Wash Program

1. Turn the program selection knob to choose the desired wash program (e.g., Cotton Normal, Synthetic, Express Wash).
2. Adjust additional options like temperature (Hot, Warm, Cold) or spin speed if available for the selected program.
3. Add appropriate detergent to the dispenser.
4. Press the Start/Pause button to begin the cycle.

## Special Features Usage

- **Aqua Energie:** This feature softens water, improving detergent action and protecting fabric colors.
- **Steam Refresh:** For quick refreshing of clothes and wrinkle removal. This cycle typically takes 30 minutes.

**IFB**

## 2x Steam Cycle

- **Laundry Add:** Allows you to add forgotten laundry items during the initial stages of a wash cycle.

## MAINTENANCE AND CARE

Regular maintenance ensures the longevity and efficient operation of your washing machine.

### Cleaning the Detergent Dispenser

Periodically remove and clean the detergent dispenser drawer to prevent residue buildup.

### Cleaning the Drum

Utilize the Auto Tub Clean program to maintain drum hygiene and prevent odors.

### Filter Cleaning

Regularly check and clean the drain pump filter to remove lint and small objects.

Exterior Cleaning

Wipe the exterior with a soft, damp cloth. Avoid abrasive cleaners.

Winterization (if applicable)

If the machine is in an unheated area, drain all water from the hoses and pump to prevent freezing damage.

TROUBLESHOOTING

This section provides solutions for common issues you might encounter.

Problem	Possible Cause	Solution
Machine does not start	Power cord not plugged in; Door not closed properly; Program not selected; Start/Pause button not pressed.	Check power connection; Ensure door is securely latched; Select a program; Press Start/Pause.
Excessive vibration/noise	Machine not level; Transit bolts not removed; Uneven load.	Adjust leveling feet; Ensure transit bolts are removed (if new installation); Redistribute laundry inside the drum.
Water not draining	Drain hose kinked or blocked; Drain pump filter clogged.	Check drain hose for obstructions; Clean the drain pump filter.
Water leakage	Inlet/drain hose connections loose; Detergent overdose causing excessive foam.	Tighten hose connections; Use recommended amount of detergent.
Clothes not clean	Overloading; Incorrect program selection; Insufficient detergent; Hard water.	Reduce load size; Select appropriate program; Use correct detergent amount; Utilize Aqua Energie feature for hard water.

For issues not listed here, or if solutions do not resolve the problem, please contact customer support.
