Model: 103006575

Brand: ZAGG

PRODUCT OVERVIEW

The ZAGG Messenger Folio 2 is a versatile tablet keyboard and case designed to enhance productivity and protect your device. It features a durable construction, comfortable laptop-style keys, and smart functionalities for seamless integration with your iPad.

Key Features:

- Space Efficient, Standing Design:** The Messenger Folio 2 case holds your iPad securely upright so you don't need extra surface space to accommodate a kickstand. Your iPad locks into a slot on the keyboard and fits neatly into the top of the case, making it easy to use in tight spaces, like an airplane tray.
- Laptop-style Keys:** No more cramped typing and misspelled words. Spacious laptop-style keys with clean precise keystrokes make typing fast and easy.
- Detachable Keyboard and Holder for Apple Pencil:** The keyboard and case detach to accommodate different uses and environments. The tab for Apple Pencil keeps it, or any other stylus, close-at-hand for when inspiration strikes.
- Highlighted Function Keys:** The row of highlighted function keys at the top of the keyboard increases your speed and efficiency. Shortcut keys like Apps Running, Keyboard Hide/Show, Search, Pairing, Play, Next Play, Volume Control and more means you don't have to hunt and scroll for options.
- On-the-Go Efficiency:** Messenger Folio 2 is easy to use when you're on-the-go with instant pairing and type-C charging—the latest, most convenient way to charge. The magnetic closure holds the case securely closed while it's in your bag. The Messenger Folio 2 case also has the polished look and comfortable feel of more expensively priced, luxury tablet accessories.
