Function101 F101-ATVRM

Function101 F101-ATVRM Replacement Button Remote for Apple TV

USER MANUAL

The Function101 F101-ATVRM Replacement Button Remote for Apple TV.

Introduction

The Function101 F101-ATVRM Replacement Button Remote is designed to provide a familiar and intuitive control experience for your Apple TV. This infrared (IR) remote offers dedicated buttons for essential functions, simplifying navigation and media playback. It also features programmable controls for your television and audio devices, enhancing your home entertainment setup.

Key Features

- **HASSLE-FREE SETUP WITH US-BASED SUPPORT:** Get help with setup and programming your TV/audio device volume with our friendly phone and email support team.
- **WORKS INSTANTLY WITH ALL APPLE TV MODELS:** Enjoy familiar button controls and effortless setup. **IMPORTANT:** Ensure a direct line of sight to your Apple TV. If you experience any issues, our support team is ready to assist!
- **CONTROL YOUR TV AND AUDIO:** Adjust volume, mute, and power on your TV, soundbar, or receiver. Control AirPods and HomePod volume through the tvOS Control Center (access by long-pressing the "P Up" button). Note: HomePod volume is adjusted through the Control Center, not the remote's volume

buttons. For seamless control, use your Apple TV's power commands to sleep your Apple TV. (Works with Sonos speakers via the Sonos app.)

- **EFFORTLESS CONTROL WITH INTUITIVE BUTTON LAYOUT:** Enjoy a user-friendly experience designed for simple navigation. Easily access essential Apple TV functions like tvOS Control Center and app switching.
- **INFRARED (IR) TECHNOLOGY - With up to 12m range:** The Infrared Edition uses Infrared (IR) and requires line of sight. If your Apple TV is in a cabinet, behind the TV, or otherwise out of sight, you'll need the Bluetooth Edition (search Amazon for B0C6S6L61P).
- **VOLUME, MUTE, POWER CONTROL FOR TV AND AUDIO DEVICES:** The Apple TV Button Remote can be programmed to control the volume, mute, and power functions of over 100+ brands of TVs, soundbars, or receivers using INFRARED technology. Line of sight to audio device required, NOTE: Navigation of Smart TV apps not compatible. Reach out to our support team for personalized assistance with your Apple TV setup and device control.

Setup

Battery Installation

Your Function101 remote requires 2 AAA batteries (included). To install:

1. Locate the battery compartment on the back of the remote.
2. Slide the battery cover downwards to open.
3. Insert two AAA batteries, ensuring the positive (+) and negative (-) terminals align correctly with the indicators inside the compartment.
4. Slide the battery cover back into place until it clicks securely.

Initial Connection (Apple TV)

The Function101 F101-ATVRM remote is designed to work instantly with all Apple TV models via infrared (IR) connectivity. No complex pairing is required. Simply point the remote directly at your Apple TV device.

IMPORTANT:

- Ensure a direct line of sight between the remote and your Apple TV. Obstructions like cabinet doors or other devices can block the IR signal.
- If your Apple TV is in a cabinet or out of sight, this IR Edition remote may not be suitable. Consider the Bluetooth Edition for such setups.

The Function101 remote is ready to use with your Apple TV right out of the box.

Programming for TV/Audio Device Volume and Power

The remote can be programmed to control the volume, mute, and power functions of over 100+ brands of TVs, soundbars, or receivers. Refer to the detailed programming instructions included in the remote's packaging or visit the Function101 support website for specific codes and steps. US-based phone and email support is available to assist with programming.

Operating Instructions

Remote Button Layout and Functions

Detailed view of the Function101 remote with numbered button functions.

1. **Power Button:** Quick press to power on TV, soundbar, or receiver. Long press to power off Apple TV.
2. **MENU Button:** Wakes up Apple TV and acts as a Back button.
3. **Navigation Arrows (Up, Down, Left, Right):** Used for navigating menus and content. Left/Right arrows also function as Fast Forward/Rewind in some apps.
4. **OK Button:** Confirms selections and also functions as Play/Pause.
5. **P Up/P Down Buttons:** Long press 'P Up' activates Apple TV Control Center. Long press 'P Down' launches Apple TV App Switching.
6. **VOL +/- Buttons:** Adjusts volume of programmed TV/audio device.
7. **Mute Button:** Mutes/unmutes audio of programmed TV/audio device.
8. **Skip Forward Button:** Skips forward in content.
9. **Skip Back Button:** Skips backward in content.
10. **Fast Rewind Button:** Rewinds content quickly.
11. **Fast Forward Button:** Fast forwards content quickly.
12. **Stop Button:** Stops playback.
13. **Play/Pause Button:** Toggles play and pause.

Apple TV Specific Functions

- **tvOS Control Center:** Long-press the "P Up" button to access the tvOS Control Center for quick settings and controls.
- **App Switching:** Long-press the "P Down" button to quickly switch between open applications on your Apple TV.
- **AirPods and HomePod Volume:** Volume for AirPods and HomePod is controlled through the tvOS Control Center, not directly via the remote's volume buttons.
- **Sleeping Apple TV:** Use your Apple TV's power commands (accessible via the remote) to put your Apple TV to sleep for seamless control.

App Function Matrix

The following table outlines specific button functionalities within popular streaming applications on Apple TV:

This matrix provides a quick reference for app-specific remote functions.

Maintenance

Battery Replacement

When the remote's performance degrades or it stops responding, it's time to replace the batteries. Follow the battery installation steps outlined in the Setup section.

Cleaning Your Remote

To maintain the remote's appearance and functionality:

- Use a soft, dry, lint-free cloth to wipe the surface of the remote.
- Avoid using abrasive cleaners, solvents, or strong chemicals, as these can damage the remote's finish or internal components.
- Do not expose the remote to excessive moisture.

Troubleshooting

Common Issues and Solutions

- **Remote Not Responding:**

- Check battery orientation and ensure they are fresh.
- Verify direct line of sight between the remote's IR emitter and the Apple TV's IR receiver.
- Remove any obstructions between the remote and the Apple TV.

- **Volume Control Not Working for TV/Audio Device:**

- Ensure the remote has been correctly programmed for your specific TV/audio device brand. Refer to programming instructions.
- Confirm that the TV/audio device is powered on and within the remote's IR range.
- Ensure direct line of sight to the TV/audio device's IR receiver.

- **Limited Functionality with Smart TV Apps:**

- Note that navigation of Smart TV apps is generally not compatible with this remote. It is primarily designed for Apple TV control and basic TV/audio device functions.

If you continue to experience issues, please refer to the Warranty and Support section for contact information.
