## 5. SETUP

### 5.1 Placement Options

The sound bar offers two primary placement options:

- **Desktop Placement:** Place the sound bar directly on a TV cabinet or shelf below your television. Ensure it is on a stable, flat surface.
- **Wall Mounting:** Use the provided wall mount brackets, screws, and template to securely attach the sound bar to a wall.

## Multiple Setup Options

All wall mount kit are provided, you can place the soundbar under your TV, on the cabinet or hang it on the wall.

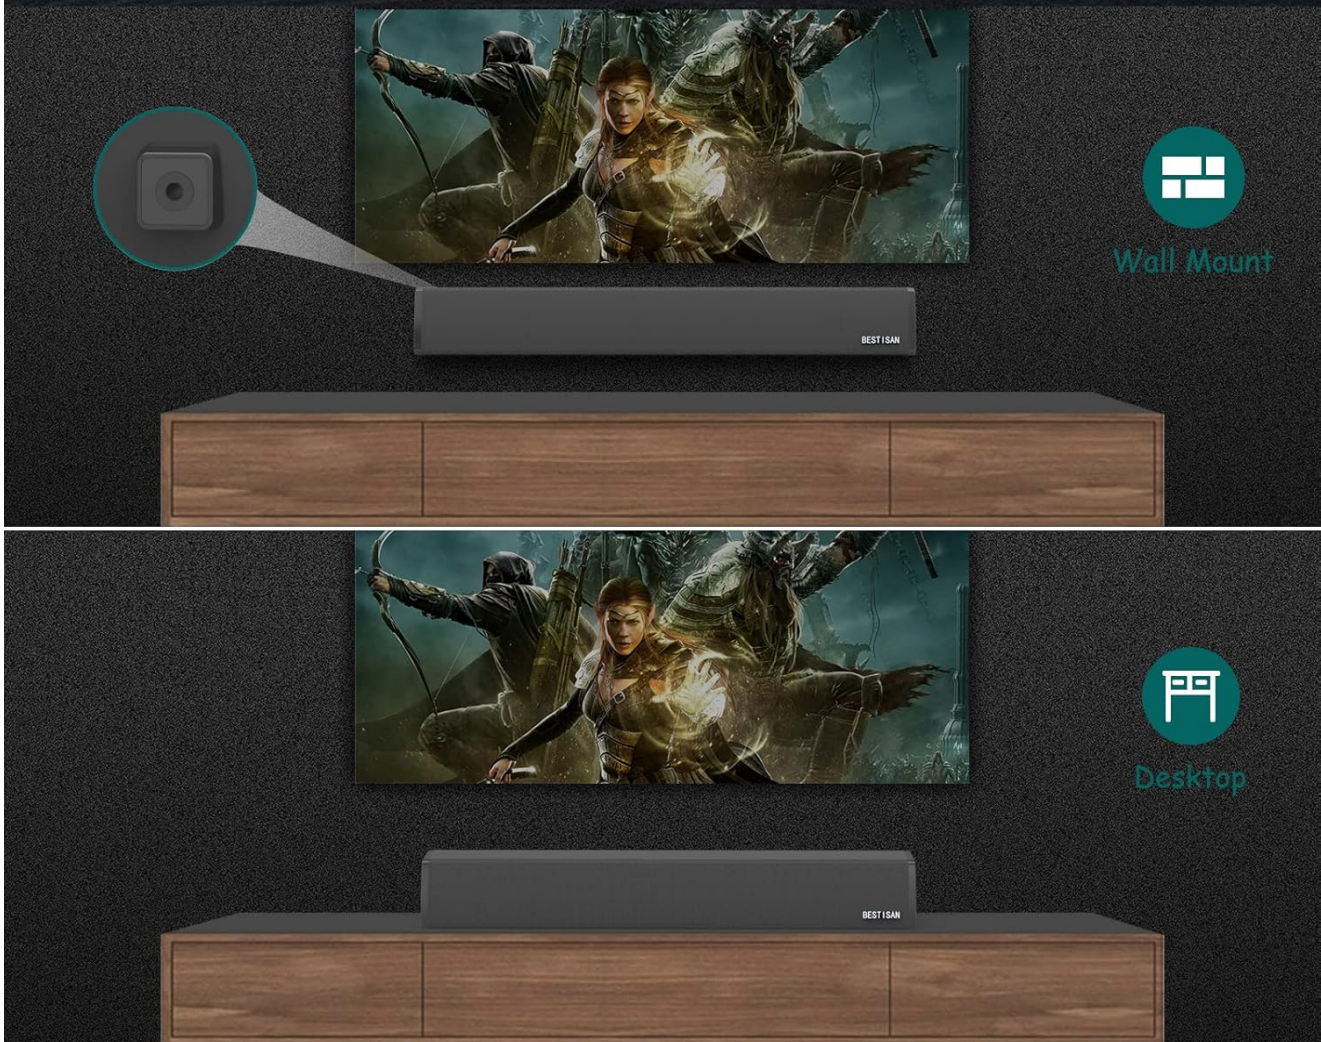

Image: Illustrations demonstrating the two setup options for the soundbar: placed on a desktop or mounted on a wall below a television.

### 5.2 Connecting Your Sound Bar

The sound bar supports various audio input methods. Choose the one that best suits your device:

- **Optical Connection:** For high-quality digital audio. Connect one end of the optical cable to the sound bar's OPTICAL IN port and the other end to your TV's Optical Digital Audio Out port.
- **Coaxial Connection:** For digital audio. Connect a coaxial cable (not included) to the sound bar's COAX IN port and your TV's Coaxial Digital Audio Out port.
- **AUX Connection:** For analog audio. Connect the supplied 3.5mm to 3.5mm audio cable to the sound bar's AUX IN port and your device's audio output.
- **USB Connection:** Insert a USB flash drive into the USB port to play audio files directly.
- **Bluetooth Connection:** For wireless audio streaming.

## Easy to Connect

Easily connect to the soundbar via Bluetooth/USB/AUX/Optical/Coaxial.

Image: Close-up view of the soundbar's rear panel showing DC, USB, AUX IN, OPTICAL, and COAX IN ports, along with an illustration of connecting via Bluetooth 5.0.

### Bluetooth Pairing:

1. Power on the sound bar.
2. Press the 'Mode' button on the sound bar or remote control until the Bluetooth indicator light flashes.
3. On your device (smartphone, tablet, etc.), enable Bluetooth and search for "BESTISAN S7020E".
4. Select the sound bar from the list to pair. Once connected, the Bluetooth indicator light will turn solid.

## 6. OPERATING YOUR SOUND BAR

### 6.1 Controls

The sound bar can be controlled using the side panel buttons or the included remote control.

## Two ways to control the soundbar

Side button control: Adjust the volume or input selection,  
Remote control: Advanced sound setting.

Image: Diagram illustrating the soundbar's side panel buttons (Power, Volume +/-, Mode Selection) and the corresponding functions on the remote control for various input types (Optical, Bluetooth, USB, Coaxial, AUX).

### Side Panel Controls:

- **Power Button:** Press to turn on/off the sound bar.
- **Volume +/-:** Adjust the master volume level.
- **Mode Selection:** Press to cycle through input modes (Bluetooth, Optical, AUX, USB, Coaxial).

### Remote Control Functions:

- **Power:** Turn the sound bar on/off.
- **Mute:** Mute or unmute the sound.
- **VOL +/-:** Adjust the master volume.
- **Previous/Next Track:** (USB/Bluetooth mode only) Skip to the previous or next track.
- **Play/Pause:** (USB/Bluetooth mode only) Play or pause playback.
- **Input Selection Buttons (OPT, BT, USB, AUX, COAX):** Directly select the desired input source.
- **EQ Modes (MOVIE, MUSIC, DIALOG):** Select the appropriate sound mode for your content.
- **TREB +/-:** Adjust treble levels.

- **BASS +/-:** Adjust bass levels.

## 6.2 EQ Modes

Optimize your audio experience by selecting one of the three preset equalizer modes:

- **MOVIE Mode:** Enhances cinematic sound effects and dialogue for an immersive movie-watching experience.
- **MUSIC Mode:** Provides a balanced sound profile suitable for various music genres, emphasizing clarity and bass.
- **DIALOGUE Mode:** Optimizes vocal clarity, making conversations in TV shows and news easier to understand.

## 7. MAINTENANCE

To ensure the longevity and optimal performance of your sound bar, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the surface of the sound bar. Do not use liquid cleaners or abrasive chemicals.
- **Dust Removal:** Regularly dust the speaker grilles to prevent accumulation that could affect sound quality.
- **Storage:** If storing the sound bar for an extended period, disconnect it from power and store it in a cool, dry place.
- **Avoid Obstructions:** Do not place objects on top of the sound bar or block its vents.

## 8. TROUBLESHOOTING

If you encounter issues with your sound bar, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power	Power cable not connected; Power outlet not active.	Ensure the power cable is securely connected. Try a different power outlet.
No sound	Incorrect input mode; Volume too low; Audio cable not connected properly.	Select the correct input mode. Increase the volume. Check all audio cable connections.
Bluetooth connection fails	Sound bar not in pairing mode; Device too far; Interference.	Ensure the sound bar is in Bluetooth pairing mode. Move your device closer to the sound bar. Avoid strong interference sources.
Remote control not working	Batteries are dead; Obstruction between remote and sound bar.	Replace the remote control batteries. Ensure there is a clear line of sight to the sound bar's sensor.
Distorted sound	Volume too high; Poor audio source quality.	Lower the volume. Try a different audio source or adjust its output level.
