shernbao SMD-06P

User Manual for shernbao SMD-06P High Velocity Dog Dryer

Model: SMD-06P

Introduction

Thank you for choosing the shernbao SMD-06P High Velocity Dog Dryer. This professional-grade grooming tool is designed for efficient and effective drying of pets, saving time and effort. Please read this manual thoroughly before operation to ensure safe and optimal performance.

Safety Information

Your safety and the safety of your pet are paramount. Adhere to the following safety guidelines:

- Protect your ears from loud noise. Consider using ear protection during operation.
- Keep the device away from heat sources and corrosive chemicals.
- Ensure the power cable is not tangled or positioned where it could cause a tripping hazard.
- Do not use the dryer under a blanket or while sleeping.
- Do not allow water to come into contact with the electrical components.
- Always disconnect the dryer from the power supply before cleaning or maintenance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Product Components

This image displays the shernbao SMD-06P High Velocity Dog Dryer in purple, accompanied by its flexible hose and three distinct nozzles. The main unit features a handle for portability and controls for operation.

A detailed view of the control panel on the shernbao SMD-06P dryer. It shows the Normal Temperature Switch, Heating Switch, and the infinitely variable Wind Volume Switch, allowing precise control over airflow and temperature.

This diagram highlights key features of the shernbao SMD-06P dryer, including the infinite and precise adjusting switch, smooth and glossy body with a portable handle, quick release and lock connector for the hose, and a detachable rear cover for lower noise with double interlayer.

The shernbao SMD-06P includes the following components:

- Blower Unit (1)
- Flexible Hose (1) - extends from 4 ft to 8 ft
- Nozzles (3 different types)

- Wall Mount Kit (1)
- Screws (4)

This image shows the complete contents of the shernbao SMD-06P package, including the main blower unit, flexible hose, three nozzles, a manual, and screws for wall mounting. It also illustrates the retractable nature of the hose.

Setup

1. **Unpacking:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Hose Attachment:** Connect the flexible hose to the air outlet of the dryer unit. Ensure the quick release and lock connector is securely fastened to prevent air leakage.
3. **Nozzle Selection:** Choose the appropriate nozzle for your grooming needs and attach it to the end of the flexible hose. The three included nozzles are designed for various drying tasks.
4. **Power Connection:** Plug the power cord into a suitable electrical outlet. Ensure the voltage matches the dryer's requirements.
5. **Wall Mounting (Optional):** If desired, use the provided wall mount kit and screws to securely install the dryer on a wall. Refer to the "Blower hanging installation drawing" included in the package for detailed instructions.

This image demonstrates the shernbao SMD-06P dryer in use, with the unit wall-mounted, allowing for convenient and hands-free operation while grooming a small white dog. This setup supports efficient pet drying.

Operating Instructions

Follow these steps to operate your shernbao SMD-06P Dog Dryer:

1. **Power On:** Once connected to power, turn on the dryer using the main power switch.
2. **Adjust Speed:** Use the adjustable speed dial (Wind Volume Switch) to set the desired airflow. The speed can be adjusted from 515 FPM to 44000 FPM, allowing for control over noise levels and drying intensity, especially for sensitive pets.
3. **Select Temperature:** Choose between the two temperature settings using the Normal Temperature Switch and Heating Switch. Temperatures range from 55°F (12.8°C) to 118°F (48°C). The stable airflow aids in faster drying with reduced damage to the pet's coat.
4. **Drying Process:** Direct the airflow towards your pet's coat, moving the nozzle consistently to ensure even drying. Start with lower settings for sensitive areas and gradually increase as needed.
5. **Post-Use:** After drying, turn off the dryer and disconnect it from the mains supply.

This image shows a golden retriever being dried with the shernbao SMD-06P dryer, illustrating the effectiveness of the device in grooming larger breeds. The dryer's features like fast drying, stepless adjustable speed, and low noise are highlighted.

Maintenance

Regular maintenance ensures the longevity and optimal performance of your dryer:

- **Cleaning:** Regularly clean the exterior of the dryer with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Filter Cleaning:** The dryer is equipped with air filters. Periodically check and clean these filters to prevent dust and hair buildup, which can impede airflow and reduce efficiency. The detachable rear cover allows easy access to the filter.
- **Nozzle Cleaning:** Clean the nozzles after each use to remove any accumulated hair or debris.
- **Storage:** When not in use, store the dryer in a clean, dry place, away from direct sunlight and extreme temperatures.

Troubleshooting

If you encounter issues with your shernbao SMD-06P dryer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Dryer does not turn on.	No power supply; loose connection; faulty power switch.	Check power outlet and cord connection. Ensure the power switch is in the 'On' position.
Weak airflow.	Clogged air filter; hose obstruction; incorrect speed setting.	Clean the air filter. Check the hose for any blockages. Increase the speed setting using the dial.
No heat or insufficient heat.	Heating switch off; heating element malfunction.	Ensure the Heating Switch is engaged. If the problem persists, contact customer support.
Unusual noise during operation.	Debris inside the unit; motor issue.	Disconnect power and check for any foreign objects. If noise persists, discontinue use and contact support.

For issues not listed here, or if troubleshooting steps do not resolve the problem, please contact shernbao customer support.

Specifications

- **Model:** SMD-06P
- **Brand:** shernbao
- **Power Source:** Corded Electric
- **Wattage:** 2200 watts
- **Material:** Metal
- **Color:** Purple
- **Product Dimensions:** 40 x 27 x 17 cm (15.7 x 10.6 x 6.7 inches)
- **Item Weight:** 2.86 kg (6.3 lbs)
- **Temperature Settings:** 55°F (12.8°C) to 118°F (48°C)
- **Adjustable Speed:** 515 FPM - 44000 FPM
- **Hose Length:** 4 ft to 8 ft (flexible/retractable)
