Assembly Instructions

Assembly typically takes about 30 minutes with two people. All parts are clearly labeled to correspond with the step-by-step instructions provided in the included manual. It is recommended to loosely fit all components before fully tightening screws to ensure proper alignment.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface (like a carpet) to prevent scratches. Identify each part using the labels and the parts list in the included manual.
2. **Assemble the Metal Frame:** Begin by connecting the main metal frame sections. Use the provided screws and the included Allen wrench. Ensure all connections are secure but do not overtighten yet.
3. **Attach Support Brackets:** Secure the V-shaped metal support brackets to the frame. These provide additional stability.
4. **Install Desktop Panels:** Carefully place the L-shaped desktop panels onto the assembled metal frame. Align the pre-drilled holes in the desktop with the holes in the frame. Secure the desktop panels using the appropriate screws.
5. **Assemble Storage Shelves:** Attach the two storage shelf panels to the designated frame section. The middle shelf is adjustable; you can remove it to accommodate larger items like a PC tower.
6. **Attach Adjustable Foot Pads:** Screw the adjustable foot pads into the bottom of each leg. These help protect your floor and allow for minor leveling adjustments on uneven surfaces.
7. **Final Tightening:** Once all components are in place and aligned, go back and fully tighten all screws and bolts. Ensure the desk is stable and does not wobble.

MAINTENANCE

Proper care will extend the life and appearance of your GreenForest L Shaped Computer Desk:

- **Cleaning:** Wipe the desk surfaces with a dry cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth to prevent moisture damage. Avoid harsh chemicals or abrasive cleaners.
- **Regular Checks:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Excessive Moisture:** While the desktop is water-resistant, prolonged exposure to moisture should be avoided. Promptly wipe up any spills.
- **Protect from Heat:** Do not place hot items directly on the desktop. Use coasters or protective pads if necessary.

TROUBLESHOOTING

If you encounter any issues with your desk, refer to the following common problems and solutions:

- **Desk Wobbles:**
 - Ensure all screws are fully tightened.
 - Adjust the foot pads on the bottom of the legs to level the desk on uneven floors.
 - Verify that all frame components are correctly assembled and aligned.
- **Parts Don't Align During Assembly:**

- Do not fully tighten screws until all parts for a section are loosely assembled. This allows for minor adjustments.
 - Double-check the orientation of each part against the assembly diagrams in the manual. Some parts may look similar but have specific orientations.
