› **OEDRO Running Boards Instruction Manual for 2019-2025 Chevy Silverado/GMC Sierra 1500 & 2020-2025 2500HD 3500HD Crew Cab**

## OEDRO FMQNV7H

# OEDRO Running Boards Instruction Manual

Brand: OEDRO | Model: FMQNV7H

## 1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your OEDRO Armored Pedal Running Boards. Please read this manual thoroughly before installation and use to ensure proper fitment and safe operation. These running boards are designed to provide convenient entry and exit for your vehicle while offering side protection.

## 2. COMPATIBILITY

These running boards are compatible with the following vehicle models:

- 2019-2025 Chevy Silverado 1500 Crew Cab
- 2019-2025 GMC Sierra 1500 Crew Cab
- 2020-2025 Chevy Silverado 2500HD 3500HD Crew Cab
- 2020-2025 GMC Sierra 2500HD 3500HD Crew Cab

**Note:** Excludes 2019 1500 LD/Limited models. Please verify your vehicle's cab size to ensure proper fitment.

## 2019-2025 Silverado/Sierra 1500 Crew Cab; 2020-2025 Silverado/Sierra 2500HD 3500HD Crew Cab

### 3. PACKAGE CONTENTS

Please ensure all components are present before beginning installation:

- 2 x Running Boards
- Complete set of Mounting Brackets
- All necessary Hardware (bolts, washers, nuts)
- DIY Instruction Manual (this document)

Image 3.1: Overview of included running boards, mounting hardware, and instruction manual, along with product dimensions.

## 4. SETUP AND INSTALLATION

Installation is a bolt-on process and typically requires general garage tools. No drilling or cutting is required for most models. For models from 2017 and later, trimming may be needed on the plastic DEF tank cover.

### 4.1 Pre-Installation Steps

1. Unpack all components and verify against the package contents list.
2. Identify the mounting points on your vehicle's frame. These are typically pre-drilled holes covered by plastic plugs. Remove any plastic plugs from the mounting holes.
3. Familiarize yourself with the mounting brackets. Note that brackets are not pre-welded to the step bars.

### 4.2 Bracket Installation

1. Attach the appropriate mounting brackets to the vehicle's frame using the provided hardware. Ensure the bolts are finger-tight only at this stage to allow for adjustment.
2. Repeat for all mounting points on both the driver and passenger sides.

## 4.3 Running Board Attachment

1. Carefully position the running board onto the installed brackets.
2. Secure the running board to the brackets using the remaining hardware. Again, keep bolts finger-tight.

## 4.4 Final Adjustment and Tightening

1. Adjust the running boards to your desired position, ensuring they are level and properly aligned with the vehicle.
2. Once satisfied with the alignment, fully tighten all bolts on the brackets and running boards. Do not overtighten.

## 4.5 Installation Videos

For a visual guide, please refer to the following installation videos:

Video 4.1: Detailed installation guide for OEDRO Running Boards, covering all steps from unpacking to final tightening. (Duration: 22:09)

Video 4.2: Installation overview for OEDRO side steps on 2019-2024 Silverado 1500 Crew Cab. (Duration: 0:56)

Video 4.3: Quick guide for installing oEdRo 6.5" Textured Black Side Steps. (Duration: 0:46)

Video 4.4: Installation process for OEDRO Running Boards with High-Low Step design. (Duration: 1:52)

## 5. OPERATING INSTRUCTIONS

To use the running boards, simply step onto the textured surface when entering or exiting your vehicle. The wide step area and slip-proof design provide a secure footing.

# HOLDS UP TO 550 LBS

Image 5.2: Illustrates the robust 550 lbs weight capacity of the running boards.

## 6. MAINTENANCE

To maintain the appearance and longevity of your OEDRO running boards:

- Regularly clean the running boards with mild soap and water to remove dirt, mud, and road salt.
- Inspect all mounting hardware periodically for tightness. Retighten if necessary.
- The durable powder coating provides protection against rust and corrosion. Avoid using harsh chemicals or abrasive cleaners that could damage the finish.

# Rust Resistance

Unique powder coating provides rust and corrosion resistance

Image 6.2: Cross-section view illustrating the carbon steel base, E-coat layer, and powder coated layer for rust resistance.

## 7. TROUBLESHOOTING

- **Loose Fit:** If the running boards feel loose, check all mounting bolts and ensure they are securely tightened. Over time, vibrations can cause bolts to loosen.
- **Unusual Noise:** Rattling or squeaking noises may indicate loose hardware or improper installation. Re-inspect all connection points and tighten as needed.
- **Surface Wear/Rust:** While designed for rust resistance, extreme conditions or damage to the coating can lead to wear. Clean the affected area and apply a rust-inhibiting paint if necessary.

## 8. SPECIFICATIONS

Feature	Detail
Brand	OEDRO

Feature	Detail
Model Name	FMQNV7H
Material	Alloy Steel
Exterior Finish	Black Powder Coated
Color	Black
Item Weight	67.02 Pounds
Weight Limit	550 Pounds
Item Dimensions (LxWxH)	15.35 x 15.35 x 5.51 inches
Size	7 inches
UPC	840265271650

## 9. WARRANTY
