KLMEi Micro Mini Blocks Titanic Cruise Ship Model Kit

Model: 8001 | Pieces: 1872

Instruction Manual

INTRODUCTION

This KLMEi Micro Mini Blocks Titanic Cruise Ship Model Kit offers an engaging and challenging building experience. Designed for enthusiasts aged 14 and up, this kit allows you to construct a detailed replica of the iconic RMS Titanic using micro-sized building blocks. The completed model serves as an impressive display piece for any home or office.

The kit contains 1872 micro blocks, with individual pieces measuring as small as 8mm x 8mm. This intricate design requires patience and focus, making the assembly process a rewarding activity. The blocks are made from durable ABS materials, ensuring good flexibility and resistance to damage, with smooth surfaces and rounded corners for safe handling.

SAFETY INFORMATION

WARNING: CHOKING HAZARD – Small parts. Not for children under 3 years.

- Keep all small parts away from young children and pets.
- Adult supervision is recommended for younger builders, especially due to the small size of the blocks.
- Ensure a clean and organized workspace to prevent loss of small pieces.

SETUP AND UNBOXING

Before beginning assembly, ensure you have a clear, well-lit workspace. Open the product box carefully and verify all components are present according to the parts list provided in the manual. The blocks are typically sorted into bags by color or type. It is recommended to keep them organized to facilitate the building process.

Figure 1: Fully assembled KLMEi Micro Mini Blocks Titanic Model Kit.

The kit includes a detailed instruction booklet. Familiarize yourself with the symbols and step-by-step diagrams before starting. Due to the micro size of the blocks, a pair of tweezers (not included) may be helpful for precise placement.

ASSEMBLY INSTRUCTIONS

Follow the numbered steps in the included instruction manual. Each step will illustrate which blocks are needed and where they should be placed. Pay close attention to the orientation and color of each piece.

1. **Base Assembly:** Begin by connecting the blue base plates to form the ocean foundation for the ship.
2. **Hull Construction:** Assemble the lower sections of the ship's hull, paying attention to the red and black block layers.
3. **Deck and Superstructure:** Gradually build up the decks, cabins, and the main superstructure using the white and gold blocks.
4. **Funnel and Mast Installation:** Attach the four iconic funnels and the masts to the upper deck.
5. **Detailing:** Add smaller details such as lifeboats, windows, and railings as indicated in the manual.
6. **Iceberg Placement:** Construct the iceberg model and place it on the blue base next to the ship.

Take your time with each step. If a piece does not fit easily, double-check the instructions to ensure correct placement and orientation. The small size of the blocks means precision is key.

DISPLAYING YOUR MODEL

Once assembled, your KLMEi Titanic model is ready for display. Its compact size and intricate details make it suitable for various locations.

- Place the model on a stable, flat surface to prevent accidental falls.
- Consider a display case to protect it from dust and damage.
- The model's dimensions are approximately 22 x 3.1 x 4.4 inches, making it a prominent yet manageable display item.

MAINTENANCE

To keep your Titanic model in pristine condition:

- **Cleaning:** Gently dust the model with a soft brush or a microfiber cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** If disassembling or storing, keep blocks in sealed bags to prevent loss and protect them from dust. Store in a cool, dry place away from direct sunlight to prevent material degradation.

TROUBLESHOOTING

- **Missing Pieces:** Carefully check all packaging and your workspace. If pieces are genuinely missing, contact KLMEi customer support with your purchase details.
- **Difficulty Connecting Blocks:** Ensure the blocks are correctly aligned and apply gentle, even pressure. Micro blocks require precise alignment. If a block is particularly stubborn, try wiggling it slightly while applying pressure.
- **Model Instability:** Double-check previous steps to ensure all connections are secure and no pieces

are misplaced. The stability of the model relies on accurate assembly.

SPECIFICATIONS

Feature	Detail
Product Dimensions	22 x 3.1 x 4.4 inches
Item Weight	1.3 pounds
Item Model Number	8001
Manufacturer Recommended Age	14 years and up
Number of Pieces	1872
Material	ABS Plastic
