

Langogo Summit

Langogo Summit User Manual

Instant Two-Way Real-Time Pocket Translator

INTRODUCTION

The Langogo Summit is an advanced instant two-way real-time pocket translator designed to facilitate communication across language barriers. It supports 104 languages, offers voice-to-text transcription, photo translation, and cloud storage capabilities. This manual provides essential instructions for setting up, operating, maintaining, and troubleshooting your device.

1. SETUP

1.1 Unboxing and Initial Inspection

Carefully remove all components from the packaging. Verify that the device and any included accessories are present and undamaged. The package typically includes the Langogo Summit device, a charging cable, and a quick start guide.

1.2 Charging the Device

Before first use, fully charge your Langogo Summit. Connect the provided charging cable to the device's charging port and plug the other end into a compatible USB power adapter (not included) or a computer's USB port. The device's screen will indicate charging status. A full charge typically takes approximately 2-3 hours.

1.3 Powering On/Off

To power on, press and hold the power button located on the side of the device until the screen illuminates. To power off, press and hold the power button, then select 'Power Off' from the on-screen options.

1.4 Network Connection

The Langogo Summit requires an internet connection for real-time translation. You can connect via:

- **Wi-Fi:** Navigate to Settings > Wi-Fi, select your network, and enter the password.
- **Built-in Data (eSIM):** The device may come with built-in data capabilities. Follow on-screen prompts to activate or manage your data plan. Note that a separate purchase may be required for translation data plans.

1.5 Initial Language Setup

Upon first power-on or after a factory reset, you will be prompted to select the device's system language and your preferred translation languages. Follow the on-screen instructions to complete this setup.

2. OPERATING THE LANGOGO SUMMIT

2.1 One-Touch Two-Way Translation

The core function of the Langogo Summit is its instant two-way translation. This feature allows for seamless communication between two languages.

1. From the main screen, select the 'Translation' mode.
2. Choose the two languages for translation (e.g., English to French).
3. Press and hold the designated translation button (often a large button on the front or side) and speak clearly into the microphone.
4. Release the button. The device will display and audibly play the translation in the selected target language.
5. For the other person to speak, they will use the same process, or the device may automatically detect the speaker based on the selected language pair.

One Button Two-way AI Translation In a Second

2.2 Simultaneous Interpretation with TWS Earphones

For more private or focused conversations, the Langogo Summit can provide simultaneous interpretation when paired with True Wireless Stereo (TWS) earphones.

1. Ensure your TWS earphones are in pairing mode.
2. On the Langogo Summit, navigate to Settings > Bluetooth and pair with your earphones.
3. Select the 'Simultaneous Interpretation' mode.
4. Choose the desired language pair.
5. Speak into the device, and the translation will be delivered to your earphones with minimal delay. The device screen will also display real-time subtitles.

Note: When speaking without TWS earphones, a suggested distance of 0.5m - 1.5m from the device is recommended for optimal performance.

Simultaneous Interpreter with TWS earphones

Works both with / without TWS earphones

Adaptive to any TWS earphones

* Suggested distance when speaking
without TWS earphones: 0.5m ~ 1.5m

2.3 Photo Translation

The device features an 8-megapixel OCR camera for translating text from images, supporting 46 languages.

1. Select the 'Photo Translation' mode from the main menu.
2. Position the device's camera over the text you wish to translate (e.g., a sign, menu, or document).
3. Tap the screen to focus and capture the image.
4. The device will process the image, extract the text, and display its translation on the screen. You can also listen to the translation.

2.4 Voice-to-Text Transcription and Recording

The Langogo Summit can record audio and transcribe it into text, offering up to 4 hours of continuous recording time and noise-cancelling capabilities.

1. Access the 'Intelligent Recording' or 'Voice Translation' mode.
2. Press the record button to start recording. The device will transcribe spoken words into text in real-time.
3. Press the button again to stop recording.
4. Recordings are saved locally and can be synchronized to cloud storage.

Voice-to-Text Transcription

Synchronized to Cloud Storage

Up to 4-hour
continuous recording time

226hrs Local storage
and 500hrs cloud storage

Online playback & edit
quick review and share

Free Service for 1yr
Extra 120mins/mo after 1yr

2.5 Cloud Storage and Management

The Langogo Summit offers 500 hours of cloud storage for your audio recordings and transcriptions, allowing for easy access, playback, and sharing.

- **Synchronization:** Audio and text files can be quickly synchronized to the cloud from the device.
- **Playback & Editing:** Access your recordings from the cloud for online playback and editing. This allows for quick review and modification of content.
- **Sharing:** Easily share your translated or transcribed content after editing.

3. MAINTENANCE

3.1 Cleaning the Device

To clean your Langogo Summit, use a soft, dry, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water. Avoid using harsh chemicals, abrasive cleaners, or aerosol sprays, as these can damage the screen and finish.

3.2 Storage

Store the device in a cool, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, ensure the battery is charged to approximately 50% to prolong its lifespan.

3.3 Software Updates

Periodically check for software updates in the device's settings. Updates can improve performance, add new features, and enhance security. Connect to a stable Wi-Fi network before initiating any updates.

4. TROUBLESHOOTING

4.1 Device Not Powering On

- Ensure the device is fully charged. Connect it to a power source and wait a few minutes before attempting to power on again.
- Try a different charging cable or adapter to rule out a faulty accessory.

4.2 Translation Inaccuracy or Delay

- Verify a stable internet connection (Wi-Fi or data). Poor connectivity can affect translation speed and accuracy.
- Speak clearly and at a moderate pace. Avoid speaking too quickly or with heavy accents.
- Ensure the correct source and target languages are selected.
- Minimize background noise, especially during voice recording or translation.

4.3 Screen Unresponsive or Frozen

- Perform a force restart: Press and hold the power button for approximately 10-15 seconds until the device restarts.

- If the issue persists, ensure the device is charged.

4.4 Device is Password Locked

- If you have forgotten your password, refer to the device's official support website for instructions on how to perform a factory reset. This typically involves a specific button combination during startup and will erase all user data.

4.5 Battery Drains Quickly

- Reduce screen brightness.
- Close unused applications running in the background.
- Disable Wi-Fi or Bluetooth when not in use.
- Ensure the device is running the latest software version.

5. SPECIFICATIONS

Feature	Detail
Brand	Langogo
Model	Summit
Dimensions (L x W x H)	12 x 6 x 1.3 cm
Weight	310 grams
Battery Capacity	3250 mAh
Continuous Working Time	Up to 5 hours
Supported Languages (Translation)	104 languages
Photo Translation Languages	46 languages
Camera	8-megapixel OCR camera
Cloud Storage	500 hours
Local Storage (Recording)	226 hours (approximate)
Microphone Array	4-mic surround array with AGC Algorithm

6. WARRANTY AND SUPPORT

For warranty information, technical support, or further assistance, please refer to the official Langogo website or contact their customer service. Keep your purchase receipt as proof of purchase for warranty claims.
