SETUP AND ASSEMBLY

Assembly of the Emily's Flower Shop kit involves several crafting processes, including painting, stitching, folding, and detailed assembly. Follow the step-by-step illustrations provided in your instruction manual.

1. **Preparation:** Unpack all components and organize them according to the numbering in the instruction manual. Identify all wooden pieces using the 1:1 illustration paper.
2. **Building the House Frame:** Begin by assembling the main structural elements of the dollhouse. Ensure all

connections are secure.

3. **Crafting Elements:** Proceed to craft the smaller elements such as flowers, miniature furniture, and decorative items. This may involve cutting, folding, and gluing.
4. **Component Assembly:** Assemble individual components like tables, chairs, and shelves as per the instructions.
5. **Arranging Interior:** Carefully place and secure all crafted and assembled components within the miniature house structure.
6. **Finishing Touches:** Add any remaining decorative details and connect the LED lighting system.

2. Build the house frame.

1. Take out wood pieces according to the 1:1 illustration paper.

3. Craft elements.

4. Make up components.

6. Finished.

5. Arrange every component into the mini house.

MAINTENANCE

To ensure the longevity and appearance of your miniature dollhouse, follow these maintenance guidelines:

- **Cleaning:** Gently dust the model with a soft, dry brush or cloth. Avoid using water or chemical cleaners, as they may damage the materials.
- **Storage:** Store the assembled model in a dry environment, away from direct sunlight and extreme temperatures, to prevent warping or fading of materials.
- **Battery Replacement:** Replace CR2302 batteries when LED lights dim or cease to function. Ensure proper disposal of used batteries.
- **Handling:** Handle the model with care to avoid dislodging small components.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Missing or damaged parts	Manufacturing error or shipping damage.	Contact Rolife customer support with proof of purchase and details of the missing/damaged parts.
LED lights not working	Incorrect battery installation, dead batteries, or loose wiring.	Check battery polarity, replace batteries, and ensure all wiring connections are secure as per the manual.
Components do not fit together	Incorrect orientation, excess glue, or slight manufacturing variance.	Double-check the instruction manual for correct orientation. Gently sand edges if necessary. Ensure previous glue applications are dry.
Finished model appears unstable	Insufficient glue, improper alignment during assembly.	Reinforce joints with additional glue. Ensure all pieces are fully seated and aligned during assembly.
