## Mr. Coffee 2130346

# Mr. Coffee Pod + 10-Cup Space-Saving Combo Brewer Instruction Manual

Model: 2130346

## INTRODUCTION

This manual provides essential information for the safe and efficient operation of your Mr. Coffee Pod + 10-Cup Space-Saving Combo Brewer. Please read all instructions carefully before first use and retain for future reference.

## IMPORTANT SAFETY INSTRUCTIONS

**WARNING: To reduce the risk of fire, electric shock, or injury, always follow basic safety precautions when using electrical appliances.**

- Read all instructions.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electric shock, do not immerse cord, plugs, or coffee maker in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner. Return appliance to the nearest authorized service facility for examination, repair, or adjustment.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock, or injury to persons.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.

- Do not use appliance for other than intended use.
- Scalding may occur if the lid is removed during the brewing cycle.

## PRODUCT COMPONENTS

---

The Mr. Coffee Pod + 10-Cup Space-Saving Combo Brewer includes the following main components:

- Main Brewer Unit
- 10-Cup Stainless Steel Thermal Carafe
- Removable Water Reservoir
- Pod Holder Attachment (K-Cup compatible)
- Reusable Single-Serve Filter
- Advanced Water Filtration System
- Measuring Scoop (for ground coffee)

## SETUP INSTRUCTIONS

- Unpacking:** Carefully remove all components from the packaging. Remove any stickers or promotional materials from the appliance.
- Initial Cleaning:** Wash the carafe, pod holder, reusable filter, and removable water reservoir in warm, soapy water. Rinse thoroughly and dry. Wipe the exterior of the brewer with a soft, damp cloth.
- Positioning:** Place the coffee maker on a flat, stable surface. Ensure it is away from the edge of the counter and any heat sources.

#### 4. First Brew Cycle (Cleaning):

- Fill the removable water reservoir with fresh, cold water up to the MAX fill line.
- Place the empty thermal carafe on the warming plate.
- For carafe brewing, ensure the filter basket is empty (no coffee grounds or filter paper).
- For single-serve brewing, ensure the pod holder is empty (no pod or reusable filter).
- Press the "Brew Now" button for carafe brewing or select a single-serve size and press "Brew Now" for single-serve. Allow the full water reservoir to cycle through the machine. Discard the water.
- Repeat this process once more to ensure the machine is thoroughly cleaned.

## OPERATING INSTRUCTIONS

### 1. Carafe Brewing (Ground Coffee)

1. **Fill Water Reservoir:** Remove the water reservoir and fill it with fresh, cold water to your desired level (up to 10 cups). Place it back securely.

**Advanced water filtration is included  
for improved coffee flavor**

Image: Filling the removable water reservoir with water.

2. **Add Ground Coffee:** Open the top lid of the brewer. Place a paper filter (not included) into the filter basket, or use the reusable filter. Add your desired amount of ground coffee (approximately 1 tablespoon per cup for medium strength). Close the lid.
3. **Place Carafe:** Ensure the thermal carafe is empty and placed correctly on the warming plate.
4. **Select Brew Strength (Optional):** Press the "Strong Brew Selector" button if you prefer a bolder cup of coffee.

Image: Close-up of the control panel showing the Strong Brew Selector button.

5. **Start Brewing:** Press the "Brew Now" button. The brewing process will begin.
6. **Grab-a-Cup Auto Pause:** If you need a cup of coffee before the brewing cycle is complete, you can temporarily remove the carafe. The brewing will pause and resume once the carafe is returned within 30 seconds.

## 2. Single-Serve Brewing (Pods/K-Cups)

1. **Fill Water Reservoir:** Fill the removable water reservoir with fresh, cold water to your desired single-serve size (6, 8, 10, or 12 ounces). Place it back securely.
2. **Insert Pod:** Open the single-serve lid. Insert a K-Cup pod or your reusable single-serve filter filled with ground coffee into the pod holder. Close the lid firmly.

# CHOOSE how you BREW

Image: Inserting a K-Cup pod into the single-serve side of the brewer.

3. **Place Mug:** Place your coffee mug on the drip tray. The drip tray can be adjusted or removed to accommodate taller travel mugs.

countertop  
space

\*as compared to having both the BVMC-PSTX91RB-NP and the BVMC-HC-CIPS units on the countertop

Image: A hand placing a travel mug under the single-serve dispenser.

4. **Select Size:** Use the "Size" button to select your desired brew size (6, 8, 10, or 12 ounces).
5. **Start Brewing:** Press the "Brew Now" button. The brewing process will begin.

### 3. Brew Later / Programmable Brewing

1. **Prepare Coffee:** Follow steps 1-2 for Carafe Brewing or steps 1-2 for Single-Serve Brewing, ensuring coffee and water are loaded.
2. **Set Time:** Press the "Brew Later" button. Use the "HR" and "MIN" buttons to set your desired brew time.
3. **Confirm:** Press "Brew Later" again to confirm the setting. The indicator light will illuminate, and your coffee will brew at the set time.

## MAINTENANCE

### 1. Daily Cleaning

- After each use, discard any used coffee grounds or pods.
- Wash the carafe, pod holder, reusable filter, and water reservoir in warm, soapy water. Rinse thoroughly. These parts are not dishwasher safe.
- Wipe the exterior of the coffee maker with a soft, damp cloth.

## 2. Descaling (Monthly or as needed)

Mineral deposits from water can build up in your coffee maker and affect its performance. Descale your brewer regularly:

1. **Prepare Solution:** Fill the water reservoir with 1 part white vinegar and 2 parts cold water.
2. **Run Cycle:** Place the empty carafe on the warming plate. Run a full carafe brewing cycle with the vinegar solution.
3. **Rinse Cycles:** After the vinegar solution has brewed, run 2-3 full carafe brewing cycles with fresh, cold water to rinse out any remaining vinegar.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Coffee does not brew.	No water in reservoir; machine not plugged in; brew button not pressed.	Fill reservoir; ensure power cord is securely plugged in; press "Brew Now" or "Brew Later".
Coffee tastes weak.	Insufficient coffee grounds/pod; incorrect brew size selected; machine needs descaling.	Add more coffee; select smaller brew size; descale the machine. Use "Strong Brew Selector".
Water leaks from machine.	Water reservoir not seated correctly; carafe/mug overflowing; internal blockage.	Ensure reservoir is firmly in place; use correct carafe/mug size; descale the machine.
"Add Water" indicator is on, but reservoir is full.	Sensor issue; air bubble in water line.	Remove and re-seat reservoir; run a plain water cycle to clear air bubbles.

## SPECIFICATIONS

- **Brand:** Mr. Coffee
- **Model Name:** Pod and 10 Cup Space Saving Combo Brewer
- **Model Number:** 2130346
- **Color:** Black
- **Product Dimensions:** 7.36"D x 15.16"W x 15.43"H
- **Coffee Maker Type:** Drip Coffee Machine

- **Coffee Input Type:** Both (Pods/Grounds)
- **Carafe Capacity:** 10 Cups
- **Single-Serve Sizes:** 6, 8, 10, 12 oz
- **Special Feature:** Programmable, Strong Brew Selector, Advanced Water Filtration, Grab-a-Cup Auto Pause
- **Power Source:** AC adapter
- **Voltage:** 240V
- **Item Weight:** 1 pounds
- **Is Dishwasher Safe:** No (for main components)
