## PROMISE Jet Torch Lighter

# PROMISE Jet Torch Lighter User Manual

Model: Jet Torch Lighter

## 1. INTRODUCTION

---

Thank you for choosing the PROMISE Jet Torch Lighter. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your new lighter. Please read this manual thoroughly before operating the device and retain it for future reference.

Image 1.1: The PROMISE Jet Torch Lighter in blue, demonstrating its powerful jet flame.

The PROMISE Jet Torch Lighter is a versatile and portable tool designed for various applications, including lighting candles, grills, BBQs, and for camping use. It features a powerful jet flame, adjustable flame height, and a refillable butane gas tank.

Image 1.2: Examples of the lighter's versatile applications, from outdoor activities to household use.

## 2. SAFETY INFORMATION AND WARNINGS

**WARNING: Failure to follow these safety instructions may result in serious injury, fire, or property damage.**

- Butane fuel is not included in the lighter due to safety regulations. Refill with butane gas before using.
- Keep out of reach of children. This product is not a toy.
- Keep out of high-temperature areas (above 122°F/50°C). Beware of high temperatures inside vehicles. Never leave the lighter inside a car.
- Keep away from face and clothing during use.
- Avoid prolonged exposure to direct sunlight.
- Recommended for each ignition not exceeding 60 seconds to prevent overheating.
- Ensure proper ventilation when refilling or using the lighter.
- Do not puncture or incinerate the lighter.

- Use only high-quality butane fuel for refilling.

### 3. PRODUCT FEATURES

The PROMISE Jet Torch Lighter is engineered with user convenience and performance in mind. Key features include:

- **Power Jet Torch Flames:** Delivers a strong, consistent blue flame.
- **One-Action Ignition:** Simple and quick ignition mechanism.
- **Adjustable Flame Height:** Easily control the flame intensity.
- **Visible Gas Window:** Allows monitoring of butane fuel levels.
- **Refillable Design:** Compatible with standard butane gas.
- **Slim and Portable:** Lightweight zinc alloy construction for easy carrying.

## 4. PACKAGE CONTENTS

---

Upon opening your PROMISE Jet Torch Lighter package, you should find the following items:

- 1 x PROMISE Power Jet Lighter
- 1 x Elegant Gift Box (Note: Butane gas is NOT included)

Image 4.1: The lighter and its accompanying gift box as received in the package.

## 5. SETUP: REFILLING INSTRUCTIONS

---

Your PROMISE Jet Torch Lighter is shipped without butane fuel. Please follow these steps carefully to refill your lighter:

1. **Prepare for Refilling:** Ensure the lighter is cool and away from any ignition sources or open flames. Work in a well-ventilated area.
2. **Drain Remaining Fuel (if any):** Before refilling, it is necessary to drain any remaining fuel from the lighter. Press the refill valve with a small tool (like a pen tip) until all gas is expelled.

3. **Adjust Flame Height:** Set the flame height adjuster (Flame Adjust Ring) to the minimum setting before filling. This helps prevent accidental ignition and ensures proper filling.
4. **Insert Butane Canister:** Hold the lighter upside down. Firmly insert the nozzle of a high-quality butane gas canister vertically into the refill valve at the bottom of the lighter.
5. **Refill:** Press the canister down firmly for about 5-10 seconds. Repeat this press-release-press-release action 3-4 times to ensure a full refill. Do not ignite during filling.
6. **Wait:** After refilling, wait approximately 3-5 minutes before attempting to ignite the lighter. This allows the gas to stabilize and reach room temperature.
7. **Check for Leaks:** After refilling, check for any gas leaks around the refill valve. If a leak is detected, do not use the lighter and consult customer support.

*Butane gas is available in local smoking stores or general merchandise retailers. Always use a reputable brand of butane fuel.*

## 6. OPERATING INSTRUCTIONS

---

### 6.1. Ignition

1. Ensure the lighter is adequately filled with butane gas.
2. Point the lighter away from your face, clothing, and any flammable materials.
3. Press the Flame Ignition Button (refer to Image 3.1) firmly to ignite the jet flame.
4. Release the button to extinguish the flame.

### 6.2. Flame Adjustment

The PROMISE Jet Torch Lighter features an adjustable flame height for various tasks.

1. Locate the Flame Adjust Ring at the bottom of the lighter (refer to Image 3.1).
2. Rotate the ring clockwise (+) to increase the flame height and intensity.
3. Rotate the ring counter-clockwise (-) to decrease the flame height and intensity.
4. Adjust the flame to your desired level before ignition.

## *Adjustable Flame Easy To Control*

*Retractable Adjust Ring  
0.5 - 2 Inches Flame*

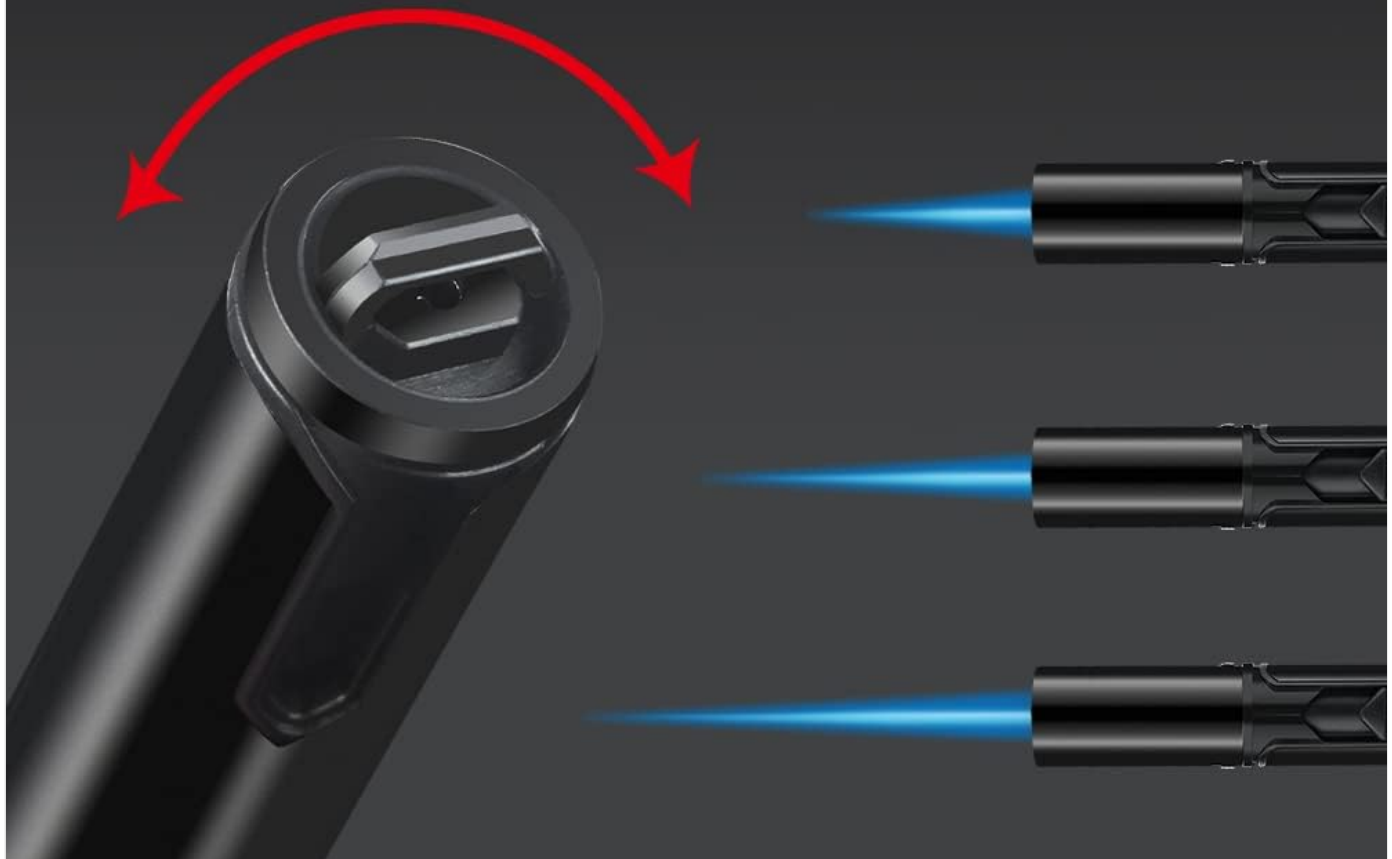

Image 6.1: Illustration of the flame adjustment mechanism, allowing control over flame length.

## **7. MAINTENANCE**

---

To ensure the longevity and optimal performance of your PROMISE Jet Torch Lighter, follow these maintenance guidelines:

- **Cleaning:** Periodically wipe the exterior of the lighter with a soft, dry cloth to remove dust and grime. Do not use abrasive cleaners or solvents.
- **Storage:** Store the lighter in a cool, dry place, away from direct sunlight and high temperatures. Ensure it is out of reach of children.
- **Fuel Quality:** Always use high-quality butane fuel to prevent clogging of the burner nozzle and ensure consistent flame performance.
- **Nozzle Care:** If the flame becomes weak or inconsistent, it may indicate a clogged nozzle. You can try to clear it by gently blowing compressed air through the nozzle (ensure the lighter is empty of fuel first). If issues persist, consult customer support.

## 8. TROUBLESHOOTING

---

If you encounter issues with your PROMISE Jet Torch Lighter, refer to the following common problems and solutions:

- **Lighter does not ignite:**

- Check butane fuel level through the visible gas window. Refill if empty.
- Ensure you waited 3-5 minutes after refilling for the gas to stabilize.
- Adjust the flame height to a higher setting.
- Check for any obstructions in the nozzle.

- **Flame is weak or inconsistent:**

- Butane fuel level may be low. Refill the lighter.
- Adjust the flame height to a higher setting.
- The nozzle might be partially clogged. Refer to Maintenance section for nozzle care.

- **Gas leaks during refilling:**

- Ensure the butane canister nozzle is firmly and vertically inserted into the refill valve.
- The refill valve might be damaged. Discontinue use and contact customer support.

If these troubleshooting steps do not resolve the issue, please contact customer support.
