3. SETUP AND INSTALLATION

3.1 Dimensions and Detachable Panel

The ieGeek K305 is a standard 1 DIN size unit. The detachable front panel provides an anti-theft feature.

Figure 3.1: Product dimensions and detachable panel feature.

3.2 Wiring Diagram

Proper wiring is crucial for the safe and correct operation of your car radio. Refer to the diagram below for speaker and power connections. If you are unsure about the installation process, it is recommended to seek professional assistance.

Figure 3.2: Detailed wiring diagram for the ieGeek K305.

Speaker Connections:

- Rear Left Speaker: Positive (+) and Negative (-)
- Front Left Speaker: Positive (+) and Negative (-)
- Front Right Speaker: Positive (+) and Negative (-)
- Rear Right Speaker: Positive (+) and Negative (-)

Power Connections:

- ACC Key Control Line
- Automatic Antenna Power (ANT)
- Car Battery Positive (+12V)
- Car Battery Negative / Ground Wire

4. OPERATING INSTRUCTIONS

4.1 Power On/Off and Volume Control

- Press the power button (usually the main knob) to turn the unit on or off.
- Rotate the main knob to adjust the volume.

4.2 Bluetooth Operation

The ieGeek K305 features Bluetooth 5.0 for wireless audio streaming and hands-free communication.

AUX-IN

Supporter AUX 3,5 mm / carte SD et la clé USB (jusqu'à 32 Go) et la charge du téléphone portable.

Figure 4.1: Bluetooth 5.0 connectivity for music and calls.

1. **Pairing:** Turn on Bluetooth on your mobile device and search for available devices. Select 'ieGeek K305' (or similar name) from the list to pair.
2. **Hands-Free Calling:** Once paired, you can answer, reject, or redial calls directly from the car radio. The built-in microphone ensures clear communication.
3. **Music Streaming:** Play music from your paired device through the car speakers. Use the car radio controls to play, pause, skip tracks.

4.3 Radio (FM/AM/RDS)

Access and store your favorite radio stations.

Figure 4.2: Enjoy a wide range of radio content with FM/AM/RDS.

1. **Mode Selection:** Press the 'MODE' button to switch to FM or AM radio mode.
2. **Automatic Search:** Press and hold the 'AMS' button to automatically search and store strong stations.
3. **Manual Tuning:** Use the tuning buttons to manually adjust the frequency.
4. **Station Presets:** Use the numbered buttons (1-6) to save and recall your favorite stations.

4.4 USB/SD/AUX Playback

Connect various external devices for audio playback.

- **USB/SD:** Insert a USB drive or Micro SD card into the respective slot. The unit will automatically switch to USB/SD mode and begin playing supported audio files (MP3, WMA, WAV, FLAC).
- **AUX-IN:** Connect your external audio device (e.g., smartphone, MP3 player) to the 3.5mm AUX-IN jack using an audio cable. Select 'AUX' mode on the unit.
- **USB Charging:** One of the USB ports provides 2.1A output for fast charging of your mobile devices.

4.5 Remote Control

The included remote control allows for convenient operation from a distance.

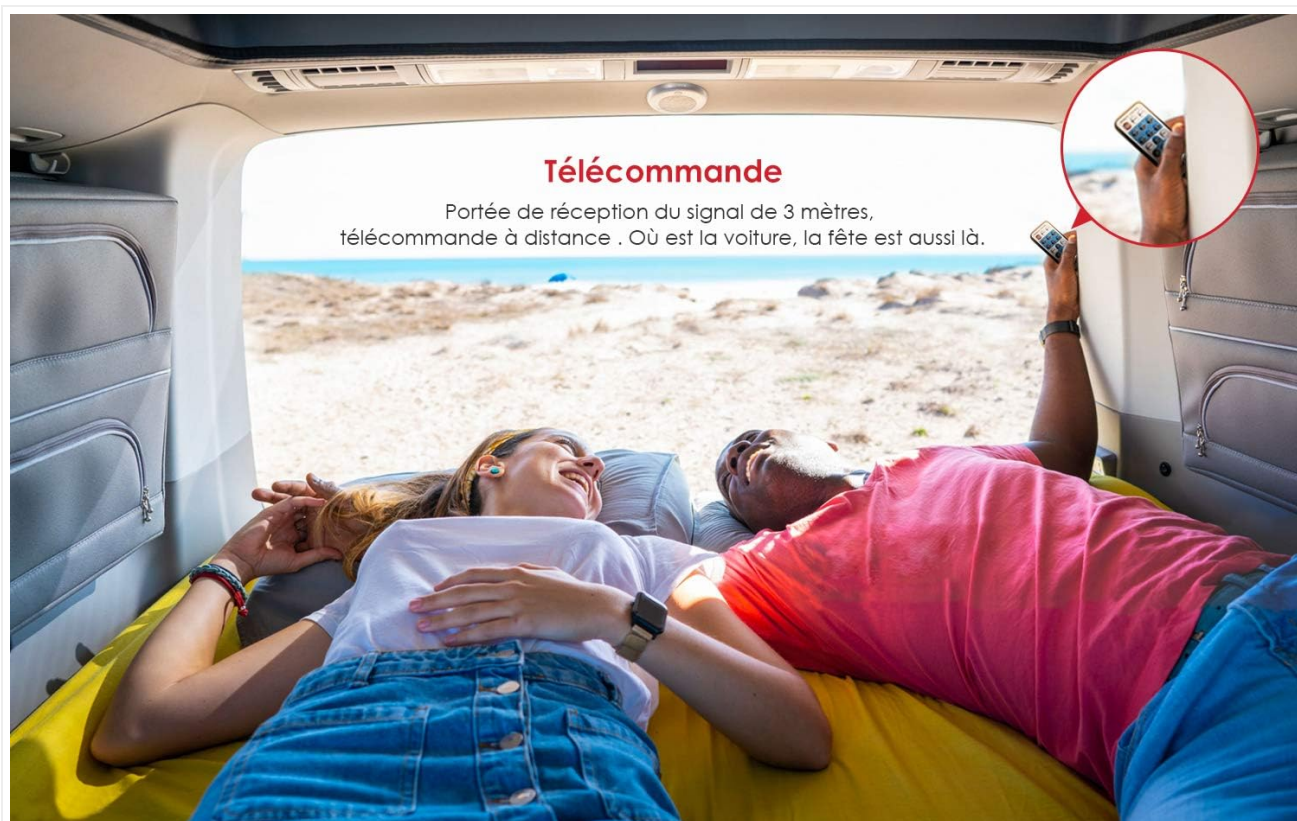

Figure 4.3: The remote control offers a signal reception range of 3 meters.

- Point the remote control towards the car radio's front panel.
- Ensure there are no obstructions between the remote and the unit.
- Replace the battery when the remote's range or responsiveness decreases.

5. MAINTENANCE

To ensure the longevity and optimal performance of your ieGeek K305 car radio, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the front panel. For stubborn dirt, dampen the cloth slightly with water. Avoid using harsh chemicals, solvents, or abrasive cleaners, as they can damage the surface.
- **Detachable Panel:** When removing the detachable panel, handle it carefully to avoid scratching or damaging the connectors. Store it in a protective case when not in use.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or high humidity.
- **Connections:** Periodically check all wiring connections to ensure they are secure and free from corrosion.

6. TROUBLESHOOTING

If you encounter issues with your ieGeek K305, refer to the following common problems and their solutions:

Problem	Possible Cause	Solution
No Power	Incorrect wiring; Blown fuse; Loose power connection.	Check power and ground wires; Inspect vehicle's fuse box and the unit's fuse; Ensure all connections are secure.

Problem	Possible Cause	Solution
No Sound	Incorrect speaker wiring; Volume too low; Mute function activated; Incorrect audio source.	Verify speaker connections; Increase volume; Deactivate mute; Select correct audio source (FM, AM, Bluetooth, USB, AUX).
Bluetooth Not Connecting	Bluetooth not enabled on device; Unit not in pairing mode; Device too far.	Ensure Bluetooth is on and discoverable on your phone; Put the car radio in Bluetooth pairing mode; Bring devices closer.
USB/SD Playback Error	Unsupported file format; Corrupted files; USB/SD card not properly inserted.	Ensure files are MP3, WMA, WAV, or FLAC; Try a different USB/SD card; Reinsert the card/drive.
Poor Radio Reception	Antenna not connected; Weak signal area; Damaged antenna.	Check antenna connection; Move to an area with better signal; Inspect antenna for damage.

If the problem persists after trying these solutions, please contact ieGeek customer support.
