MOFII Wireless Keyboard and Mouse Combo Instruction Manual

Model: B08N4B8Z1J

INTRODUCTION

This manual provides detailed instructions for setting up, operating, and maintaining your MOFII Wireless Keyboard and Mouse Combo. This retro-styled full-size keyboard and precision mouse offer a reliable 2.4GHz wireless connection, designed for comfort and efficiency.

The MOFII Wireless Keyboard and Mouse Combo, featuring a full-size keyboard with round, colorful keycaps and a matching ergonomic mouse.

SETUP

Package Contents

- MOFII Wireless Keyboard
- MOFII Wireless Mouse
- USB Receiver (often stored inside the mouse)

- User Manual (this document)

Battery Installation

Both the keyboard and mouse require batteries for operation. Please ensure you have the correct battery types (e.g., AA or AAA) as specified in the product packaging.

For the mouse: Locate the battery compartment on the underside of the mouse. Open the cover, insert the required batteries according to the polarity markings, and close the cover. The USB receiver is typically stored within this compartment for convenience.

For the keyboard: Locate the battery compartment on the back of the keyboard. Open the cover, insert the required batteries according to the polarity markings, and close the cover.

Connecting the Devices (Plug and Play)

The MOFII Wireless Keyboard and Mouse Combo utilizes a single USB receiver for both devices, simplifying the connection process.

1. Locate the USB receiver. It is usually stored in the battery compartment of the mouse for safekeeping during transport.
2. Insert the USB receiver into an available USB port on your computer (PC, laptop, Mac).
3. Ensure both the keyboard and mouse have fresh batteries installed and are powered on (if they have an on/off switch).
4. The devices should automatically connect to your computer within a few seconds. No additional drivers are typically required for basic functionality.

This image illustrates the simple plug-and-play setup, where a single USB receiver connects both the keyboard and mouse to your computer, providing a stable 2.4GHz wireless connection up to 35 feet.

OPERATING INSTRUCTIONS

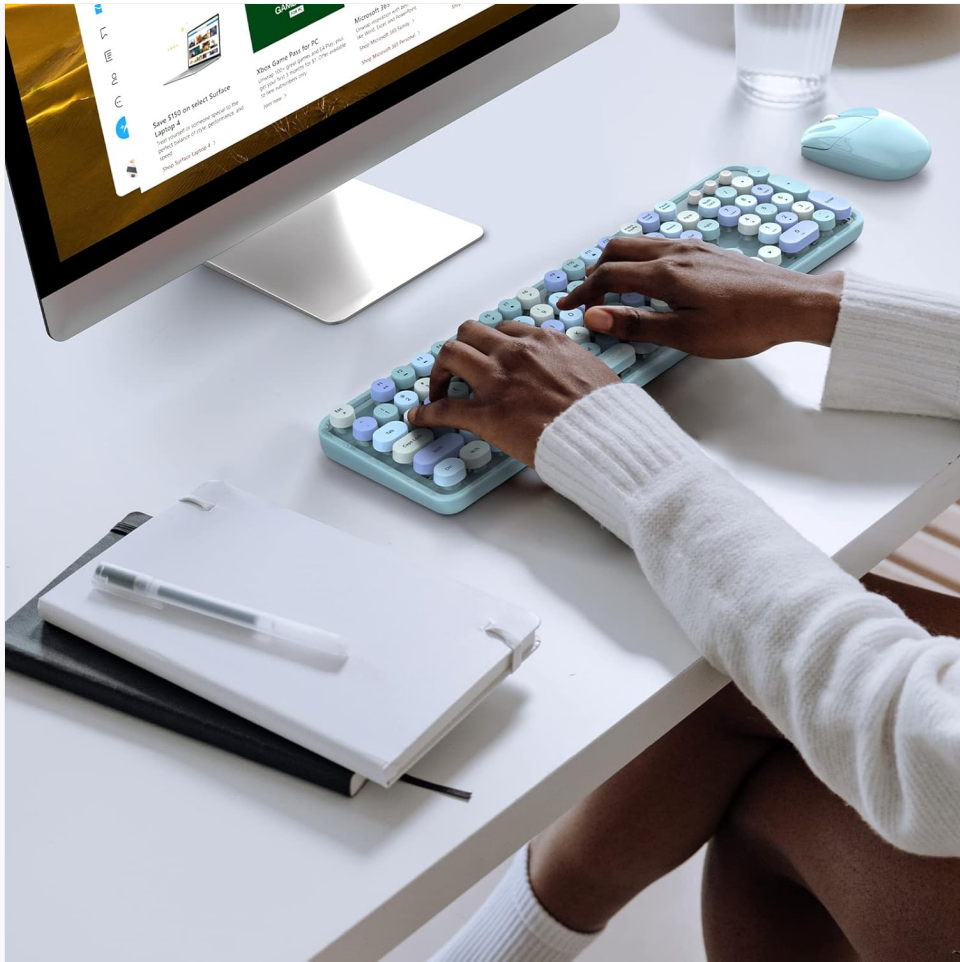

Keyboard Features

The full-size keyboard features 104 round keycaps designed for comfortable and efficient typing. It includes a numeric keypad for fast data entry.

The keyboard is equipped with 13 multimedia hotkeys for instant access to functions like internet browsing, email, media playback controls (play/pause, volume), and more. Refer to the key labels for specific functions.

The keyboard features dedicated multimedia hotkeys (F1-F12) for quick access to common functions, enhancing productivity and entertainment control.

The ergonomic design of the keyboard, with its comfortable round keycaps, allows for extended typing sessions, reducing wrist pressure.

Mouse Features

The accompanying mouse is designed for precision and comfort. It features an intelligent auto-sleep function to conserve battery life.

The mouse will enter sleep mode automatically when not in use and will wake up with a click or movement, ensuring efficient power consumption.

Intelligent Auto-Sleep

Enter sleeping automatically while not using,
save battery life and reduce battery replacement

The intelligent auto-sleep feature automatically puts the keyboard and mouse into sleep mode when idle, significantly extending battery life and reducing the need for frequent battery replacements.

MAINTENANCE

Cleaning

To clean your keyboard, you can detach the keycaps for a thorough cleaning. Use the included brush (if applicable) or a soft, dry cloth to remove dust and debris. For stubborn dirt, a slightly damp cloth can be used, ensuring no liquid enters the keyboard.

The keyboard features detachable keycaps, making it easy to clean dust and debris from underneath the keys with the provided cleaning brush.

Battery Replacement

When the devices stop responding or the connection becomes unstable, it may be time to replace the batteries. Follow the battery installation steps outlined in the "Setup" section.

TROUBLESHOOTING

No Connection / Device Not Responding

- **Check Batteries:** Ensure both the keyboard and mouse have fresh batteries and are correctly installed.
- **USB Receiver:** Verify that the USB receiver is securely plugged into a working USB port on your computer. Try a different USB port.
- **Power Switch:** Make sure the power switch on both the keyboard and mouse (if present) is in the "ON" position.
- **Re-pairing:** In rare cases, you might need to re-pair the devices. Consult the manufacturer's website or support for specific re-pairing instructions if the standard plug-and-play does not work.

Lagging or Intermittent Connection

- **Distance:** Ensure the devices are within the effective wireless range (up to 33ft/10m) of the USB receiver.
- **Interference:** Move the devices away from other wireless devices (e.g., Wi-Fi routers, cordless phones) that might cause interference.
- **Surface:** For the mouse, ensure you are using it on a suitable surface.

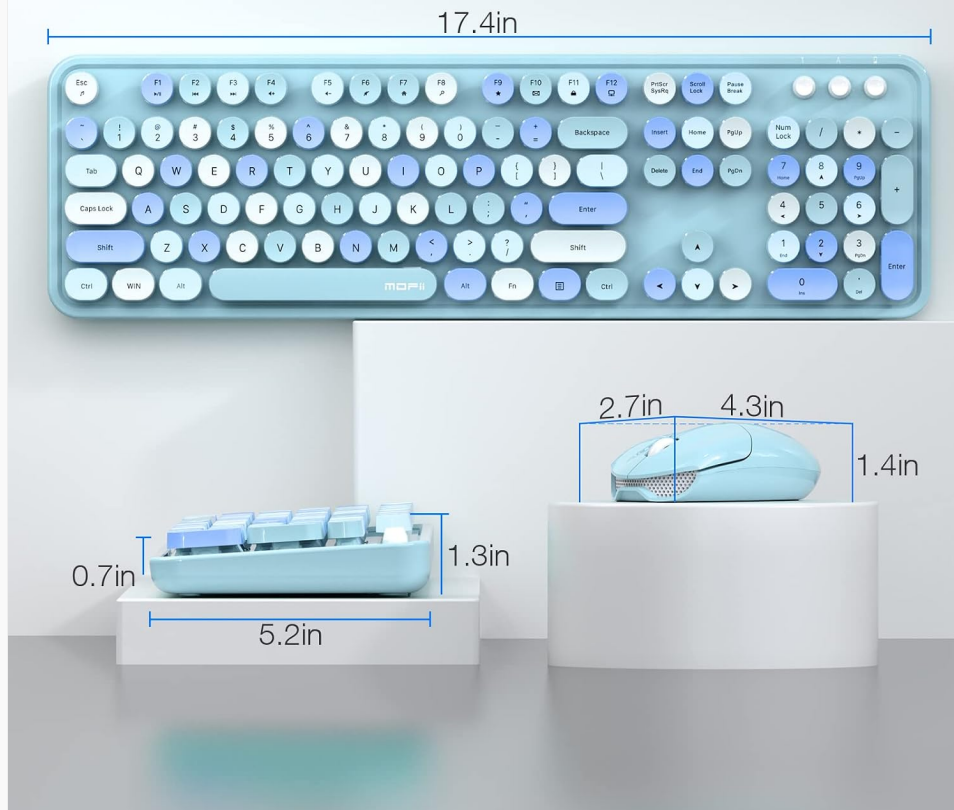

Keys Sticking or Not Registering

- **Cleaning:** Dust or debris under the keycaps can cause sticking. Refer to the "Cleaning" section for instructions on how to clean the keyboard.
- **Physical Damage:** Inspect for any physical damage to the keycaps or keyboard mechanism.

SPECIFICATIONS

Feature	Detail
Brand	MOFI
Model	B08N4B8Z1J
