MARVO M399

MARVO Scorpion Gaming Mouse M399 User Manual

Model: M399 | Brand: MARVO

1. INTRODUCTION

Thank you for choosing the MARVO Scorpion Gaming Mouse M399. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your new gaming mouse. Please read it carefully to ensure optimal performance and longevity of your device.

2. PRODUCT FEATURES

- **Ultra-lightweight Honeycomb Design:** Weighing approximately 76 grams, the mouse features a unique honeycomb shell for reduced weight and enhanced airflow.
- **High-Performance Optical Sensor:** Equipped with a gaming-grade optical sensor, offering up to 6400 DPI for precise tracking.
- **6 Programmable Buttons:** Customize your gaming experience with six buttons that can be assigned various functions.
- **Dynamic RGB Backlighting:** Enjoy 16.8 million colors with 7 different backlight modes to personalize your setup.
- **Ambidextrous Ergonomic Design:** Comfortable design suitable for both left and right-handed users, ideal for extended gaming or office use.

3. PACKAGE CONTENTS

- MARVO Scorpion Gaming Mouse M399
- User Manual

4. SETUP

1. **Connect the Mouse:** Plug the USB connector of the MARVO Scorpion Gaming Mouse M399 into an available USB port on your computer.
2. **Automatic Driver Installation:** Your operating system will typically detect the mouse and install the necessary drivers automatically. This may take a few moments.

3. **Test Functionality:** Once installed, move the mouse and click the buttons to ensure basic functionality.

5. OPERATING INSTRUCTIONS

5.1 Basic Functions

- **Left Click:** Primary action button.
- **Right Click:** Secondary action button, typically for context menus.
- **Scroll Wheel:** Scroll up/down documents or web pages. Can also be clicked for middle-click functionality.

5.2 DPI Adjustment

The mouse features a dedicated DPI button (usually located behind the scroll wheel) to cycle through different sensitivity levels. Press this button to instantly change the DPI setting to match your preference or game requirements. The default DPI settings are typically pre-configured but can be customized via software.

5.3 Programmable Buttons

The MARVO M399 includes 6 programmable buttons. These buttons can be assigned various functions, macros, or key combinations using the dedicated MARVO software. Refer to the customization section for more details.

6. CUSTOMIZATION

To unlock the full potential of your MARVO Scorpion Gaming Mouse M399, including button remapping, macro creation, and advanced RGB lighting effects, you will need to download and install the official MARVO software. This software allows for detailed personalization of your mouse settings.

- **Button Assignment:** Reassign functions to any of the 6 programmable buttons.
- **DPI Settings:** Adjust DPI levels and create custom profiles.
- **RGB Lighting:** Choose from 7 different backlight modes and millions of colors, adjust brightness, speed, and effects.
- **Macro Editor:** Create and assign complex macros to streamline in-game actions.

Note: The software can typically be found on the official MARVO website. Ensure you download the correct version for your M399 model.

7. MAINTENANCE

Proper maintenance ensures the longevity and performance of your gaming mouse.

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, a slightly damp cloth can be used, but ensure no liquid enters the mouse. Use compressed air to clean dust from the honeycomb holes and around buttons.
- **Sensor Care:** Keep the optical sensor on the underside of the mouse clean and free from debris. Avoid touching the sensor directly.
- **Cable Management:** Avoid sharp bends or excessive pulling on the USB cable to prevent damage.
- **Storage:** Store the mouse in a clean, dry environment away from extreme temperatures and direct sunlight when not in use.

8. TROUBLESHOOTING

If you encounter issues with your MARVO Scorpion Gaming Mouse M399, refer to the following common solutions:

Problem	Possible Solution

Problem	Possible Solution
Mouse not responding	- Ensure the USB cable is securely plugged into a working USB port. - Try a different USB port on your computer. - Restart your computer. - Test the mouse on another computer to rule out a system issue.
Cursor movement is erratic or jumpy	- Clean the optical sensor on the underside of the mouse. - Ensure you are using the mouse on a suitable surface (e.g., a mouse pad). Avoid reflective or transparent surfaces. - Check for any debris obstructing the sensor.
RGB lighting not working or stuck	- Ensure the mouse is properly connected. - Check the MARVO software settings for lighting configurations. - Try cycling through lighting modes using the dedicated button (if available) or software.
Programmable buttons not working	- Ensure the MARVO software is installed and running. - Verify that the buttons have been correctly assigned functions within the software. - Save and apply any changes made in the software.
