SUNVIVI 003

SUNVIVI Heated Throw Electric Blanket Instruction Manual (Model 003)

INTRODUCTION

Thank you for choosing the SUNVIVI Heated Throw Electric Blanket. This manual provides important information for the safe and efficient operation, maintenance, and care of your new heated throw. Please read all instructions carefully before use and retain for future reference.

This heated throw is designed to provide warmth and comfort with its ultra-soft flannel material, multiple heat settings, and automatic shut-off feature for peace of mind.

IMPORTANT SAFETY PRECAUTIONS

To reduce the risk of burns, electric shock, fire, or injury, this product must be used in accordance with the following instructions:

- Do not use the product directly as a bed sheet.
- Do not fold the product tightly during operation. Ensure it is spread out evenly to prevent overheating.
- Always unplug the controller from the wall outlet and detach the cord from the blanket before cleaning.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Do not use with damaged cords or plugs. If the cord or plug is damaged, contact customer support for assistance.
- Do not use with pins or other metallic objects.
- Do not use if wet.
- Do not use for infants, invalids, or persons insensitive to heat.
- Do not use in conjunction with another heating appliance.

Multi-functional Heated Blanket

Keeping you feel warm when you are working, reading or sleeping

SETUP INSTRUCTIONS

1. Ensure the heated throw is spread out flat on a bed, sofa, or other surface. Avoid folding or bunching the blanket during use.
2. Locate the connector on the heated throw.
3. Connect the control unit cord to the connector on the blanket. Ensure it clicks securely into place.
4. Plug the power cord from the control unit into a 120V AC wall outlet.

OPERATING INSTRUCTIONS

Power On/Off

- Press the "Power" button on the control unit to turn the heated throw on or off.

Adjusting Heat Settings

- The heated throw features 6 heat settings, ranging from 86°F to 113°F (30°C to 45°C).
- Press the "Temp +" or "Temp -" buttons to cycle through the available heat levels (Warm, Low, Medium, High).
- The current heat setting will be displayed on the LED indicator.

Setting the Auto-Off Timer

- The heated throw is equipped with a 4-hour automatic shut-off function for safety and energy conservation.
- To adjust the timer, use the "Timer +" or "Timer -" buttons. The timer can be set for up to 12 hours in some models, with increments of 0.5 or 1 hour.
- The set timer duration will be displayed on the control unit.

CARE AND MAINTENANCE

Proper care will ensure the longevity and performance of your heated throw.

Washing Instructions

1. Always detach the control unit and power cord from the blanket before washing.
2. The heated throw is machine washable. Use cold water (below 40°C/104°F) on a gentle cycle.
3. Do not dry clean, bleach, or iron the blanket.
4. Tumble dry on a low temperature setting or air dry. Ensure the blanket is completely dry before reconnecting the control unit and using it again.

Power cord:
6.1feet

Control Line:
2.62feet

Power Input	AC 120V
Certifications	ETL Certified
Care Instructions	Machine Washable (detach controller)
Power Cord Length	6.1 feet
Control Line Length	2.62 feet

TROUBLESHOOTING

If your heated throw is not functioning as expected, please refer to the following common issues and solutions:

- **No Heat or Insufficient Heat:**

- Ensure the power cord is securely plugged into a working 120V AC outlet.
- Verify that the control unit is firmly connected to the blanket.
- Check that the heat setting is selected and the blanket is not folded or bunched, which can prevent even heating.
- Allow a few minutes for the blanket to reach the desired temperature.

- **Control Unit Not Responding:**

- Unplug the power cord from the wall outlet for 5 minutes, then plug it back in. This may reset the control unit.
- Ensure there is no visible damage to the control unit or power cord.

- **Automatic Shut-Off Occurs Too Soon:**

- The blanket has a default 4-hour auto-off feature. Check the timer setting on your control unit to ensure it is set to your desired duration.

If the issue persists after attempting these steps, please contact SUNVIVI customer support.

WARRANTY AND CUSTOMER SUPPORT

The SUNVIVI Heated Throw Electric Blanket comes with a **5-year warranty** for quality-related issues from the date of purchase. For any questions, concerns, or warranty claims, please contact SUNVIVI customer support. We aim to provide a satisfying solution within 24 hours.
