BOLISS LB-2010

BOLISS LB-2010 Ergonomic Mesh Office Chair User Manual

Model: LB-2010 | Brand: BOLISS

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Retain this manual for future reference.

- Always follow assembly instructions precisely.
- Keep fingers and body parts clear of moving components during assembly and adjustment.
- Do not exceed the maximum weight capacity of 400 lbs (181 kg).
- Ensure all bolts and screws are securely tightened after assembly and periodically check for tightness.
- Use the chair on a level surface to prevent tipping.

SETUP AND ASSEMBLY

The BOLISS LB-2010 office chair requires assembly. All necessary parts and tools are included in the packaging. Assembly instructions are typically printed on the shipping carton and provided in a separate booklet.

A much more comfortable version of the drafting chair

This chair is super comfortable! The shape of the seat and the backrest are so much better than my previous chair that had a more flat seat and a backrest that didn't have nearly as much lumbar support as this chair does. It's just all around better designed than my last one, and there's even a foot-ring on the bottom which is really nice when you work at this chair when it's sitting higher up. it makes it so much more comfortable than having your feet just dangle down. Even the arm rests have good placement. They're in a nice spot where they are easy to rest on, but also don't get in the way at all. If you're looking for the traditional style of a drafting chair, but want one that's actually comfortable and not like sitting on a park bench this one is area!

BOLISS 400lbs Mesh Ergonomic Drafting Chair, Tall Office Chair, Standing Desk Chair Height Adjustable Armrest and Flipped Arms, Lumbar Support Swivel Computer Task Chair (LB-2815Ds, Black)

Parent ASIN	B0D45NBV4T
Child ASIN	B0BK9JXP4V
Product's Star Rating	★★★★★ 53
Brand	BOLISS

Image: Assembly instructions are often found printed directly on the product packaging for convenience.

Assembly Steps Overview:

1. **Unpack Components:** Carefully remove all parts from the box and verify against the parts list in the manual.
2. **Attach Casters to Base:** Insert the casters into the holes on the five-star base.
3. **Insert Gas Lift:** Place the gas lift cylinder into the center hole of the five-star base.
4. **Assemble Mechanism:** Secure the control mechanism to the underside of the seat cushion using the provided screws. Ensure the front of the mechanism aligns with the front of the seat.
5. **Attach Armrests:** Fasten the armrests to the seat cushion using the designated screws.
6. **Connect Backrest:** Attach the backrest to the seat assembly.
7. **Place Seat on Gas Lift:** Carefully place the assembled seat onto the gas lift cylinder.
8. **Final Check:** Ensure all connections are secure and the chair functions correctly before use.

An Allen key is typically provided for assembly. For detailed visual guidance, refer to the specific diagrams in your product's instruction booklet.

PRODUCT COMPONENTS

The BOLISS LB-2010 chair is constructed with durable materials for stability and comfort.

Image: Key components of the BOLISS LB-2010 chair, including the nylon base, gas lift cylinder, silent PU casters, and adjustable armrests.

- **Nylon Base:** Provides solid construction and stability.
- **Cylinder Column:** A gas lift cylinder tested for durability, ensuring reliable height adjustment.
- **Casters:** Silent PU wheels designed for smooth, noise-free movement and long-lasting performance.
- **Armrests:** Height-adjustable armrests with soft cushioning for comfort.

OPERATING INSTRUCTIONS AND ADJUSTMENTS

The BOLISS LB-2010 chair offers several adjustments to customize your seating experience for optimal comfort and support.

Ergonomic Design Features:

Best Chair on the Market for Office Chairs

This chair is beyond incredible for the price that it is. It is half the cost of office chairs we used to get at our office and is a million times better. The back support is amazing and feels great as it forces you to sit upright with good posture since the lumbar support is there. I was surprised at the quality of the items when assembling it for the price that it is. Easy 20-minute assembly and directions are super simple to follow. Don't pass on getting this chair. I've gotten it for over half our office already and it will be every new chair I need to get moving forward. BOLISS rocks.

BOLISS 400lbs Mesh Ergonomic Super Soft Wide Cushion Office Computer Desk Chair Adjustable Arms(Black)

Parent ASIN	B08N9HMS6R
Child ASIN	B08NBBTFPG
Product's Star Rating	★★★★★ 1813
Brand	BOLISS

Image: The ergonomic backrest is designed to support the thoracic and lumbar vertebrae, promoting proper posture.

- **Mesh Backrest:** The wider and higher backrest features breathable nylon mesh and an ergonomic waist support design to provide comfort and reduce discomfort during prolonged sitting.
- **Seat Cushion:** The seat cushion is designed to conform to the human body shape, made from high-

resilience molded foam to prevent deformation and maintain comfort over long periods.

Strong, Ergonomic, and Multi-Purpose Chair

This chair is a versatile and multi-purpose piece, perfect for both gaming and for setting at the right height in front of a living room or entertainment TV. It is strong, secure, and very stable, giving you full confidence while seated. The ergonomic design provides excellent comfort, adapting easily to different body types and postures. With high-quality construction and durable materials, this chair combines functionality with style. Whether for long gaming sessions, watching movies, or everyday use, it's an outstanding choice that delivers comfort and reliability.

BOLISS 400lbs High Back Computer Office Drafting Chair Flip up Armrests Lumbar Support Adjustable Big Footrest Ring(Black)

Parent ASIN	B0CS9LS8MT
Child ASIN	B0BW8MRRGZ
Product's Star Rating	★★★★★ 593
Brand	BOLISS

Image: The 3D modeled ergonomic seat cushion features thick, high-resilience foam for sustained comfort and support.

Chair Adjustments:

Image: Visual guide for adjusting seat height and engaging the backrest tilt function.

- **Seat Height Adjustment:** To adjust the seat height, lift the lever located on the right side of the chair while seated. Release the lever at the desired height. To lower, remain seated and lift the lever. To raise, stand up and lift the lever.
- **Armrest Height Adjustment:** Press the button on the side of each armrest to adjust its height. Move the armrest up or down to your preferred position and release the button to lock.
- **Backrest Tilt and Lock:** The backrest can tilt independently. Use the lever on the left side to adjust the tilt angle. Push down the handle to lock the backrest in an upright position or pull it out to allow tilting. An adjustable tilt elasticity knob is located at the front of the mechanism to control the resistance of the tilt.
- **360-Degree Swivel:** The chair features a 360-degree swivel function, allowing for easy rotation without moving the base.

MAINTENANCE

Regular maintenance helps prolong the life and performance of your BOLISS office chair.

- **Cleaning:** Wipe clean with a damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the materials.
- **Fastener Check:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary to maintain stability and safety.
- **Caster Care:** Keep casters free of debris (hair, dust, etc.) to ensure smooth rolling.
- **Armrest Padding:** While durable, armrest cushioning may compress over time with heavy use.

TROUBLESHOOTING

If you encounter issues with your BOLISS LB-2010 chair, refer to the following common solutions:

- **Chair Sinks or Does Not Hold Height:** This typically indicates an issue with the gas lift cylinder. If the chair consistently lowers on its own, the gas lift may need replacement. Contact customer support for assistance.
- **Wobbly Armrests:** A slight wobble in adjustable armrests can be normal. Ensure all armrest attachment screws are securely tightened. If excessive, contact customer support.
- **Chair Does Not Roll Smoothly:** Check casters for trapped debris such as hair or lint. Clean the casters thoroughly. Ensure the chair is used on an appropriate surface.
- **Squeaking Noises:** Check all bolted connections and tighten any loose screws. A small amount of lubricant applied to moving parts (e.g., tilt mechanism) may also help, but avoid applying to the gas lift.

PRODUCT SPECIFICATIONS

Feature	Specification
Brand	BOLISS
Model Name	LB-2010
