› Vasco Translator M3 User Manual - Instant Voice and Photo Translator

Vasco Electronics Vasco M3

Vasco Translator M3 User Manual

MODEL: VASCO M3

Brand: Vasco Electronics

1. INTRODUCTION

The Vasco Translator M3 is an advanced electronic voice and photo translator designed to facilitate communication across language barriers. It offers instant translation in over 70 languages, featuring an integrated SIM card with free, unlimited lifetime internet access in nearly 200 countries, eliminating the need for Wi-Fi or roaming charges. This manual provides detailed instructions for setting up, operating, and maintaining your device to ensure optimal performance.

2. WHAT'S IN THE BOX

Upon unboxing your Vasco Translator M3, please verify that all the following items are included:

- Vasco Translator M3 device
- International SIM card (pre-installed, no contract required, with free unlimited lifetime internet)
- Charger
- USB Type-C cable
- Protective case
- Quick Start Guide

Figure 2: Vasco Translator M3 and its included accessories.

3. INITIAL SETUP

1. **Charge the Device:** Connect the Vasco Translator M3 to the charger using the provided USB Type-C cable. Allow the device to charge fully before first use. The battery indicator on the screen will show charging status.
2. **Power On:** Press and hold the power button (usually located on the side) until the Vasco logo appears on the screen.
3. **Initial Language Selection:** Upon first startup, you will be prompted to select your preferred interface language. Follow the on-screen instructions to complete this step.
4. **Internet Connection:** The device comes with a pre-installed international SIM card providing free, unlimited lifetime internet for translations in nearly 200 countries. No additional setup is required for internet connectivity for translation functions.

4. OPERATING INSTRUCTIONS

4.1. Voice Translation

The Vasco Translator M3 provides fast and accurate voice translation. It translates spoken words in less than 0.5 seconds with up to 96% accuracy.

1. **Select Languages:** On the main screen, select the source language (the language you will speak) and the target language (the language you want to translate to).
2. **Speak:** Press and hold the appropriate button (usually one of the two large buttons on the front) corresponding to your language. Speak clearly into the device's microphone.
3. **Release:** Release the button once you have finished speaking. The device will instantly translate your speech and pronounce it aloud in the target language, also displaying the text on the screen.

4.2. Photo Translation

Translate text from signs, menus, or documents using the device's camera.

1. **Access Photo Translator:** From the main menu, select the 'Photo Translator' option.
2. **Capture Image:** Point the device's camera at the text you wish to translate. Ensure the text is well-lit and clear within the frame. Press the capture button.
3. **Translate:** The device will process the image and display the translated text on the screen.

Figure 4: Using the Photo Translator feature to translate text from a document.

4.3. MultiTalk (Group Conversation)

The MultiTalk feature allows for group conversations with multiple participants speaking different languages.

1. **Initiate MultiTalk:** Select 'MultiTalk' from the main menu.
2. **Create/Join Room:** You can either create a new conversation room or join an existing one using a unique code.
3. **Participate:** Each participant speaks into their own Vasco Translator M3 (or compatible device) in their native language, and the device translates it for all other participants in their chosen languages.

4.4. TranslaCall (Call Translation)

Translate phone calls in real-time with the TranslaCall function.

1. **Activate TranslaCall:** Select 'TranslaCall' from the main menu.
2. **Make/Receive Call:** Follow the on-screen prompts to either make an outgoing call or set up for an incoming call.
3. **Translate:** The device will act as an intermediary, translating both sides of the conversation in real-time.

5. MAINTENANCE

- Cleaning:** Use a soft, dry cloth to clean the device. Avoid using harsh chemicals or abrasive materials.
- Software Updates:** The Vasco Translator M3 receives free software updates directly to the device. Ensure your device is connected to the internet to receive and install the latest updates for improved performance and new features.
- Battery Care:** To prolong battery life, avoid exposing the device to extreme temperatures. Charge the device regularly, but avoid overcharging for extended periods.

6. TROUBLESHOOTING

Issue	Possible Solution
Device does not power on	Ensure the device is fully charged. If not, connect to the charger and wait a few minutes before attempting to power on again.
Translation is inaccurate or slow	Check your internet connection. Ensure you are speaking clearly and directly into the microphone. Verify that the correct source and target languages are selected.
No internet connection	The device uses an integrated SIM card. Ensure you are in a country with coverage (nearly 200 countries). If issues persist, restart the device.
Photo translation not working	Ensure the text is well-lit, clear, and within the camera frame. Hold the device steady while capturing the image.
