OPERATING INSTRUCTIONS

Using the Monitor Stand

The integrated monitor stand elevates your screen by 5.7 inches, promoting a healthier posture by allowing you to view your monitor at eye level. This helps reduce neck and back strain during long working sessions. The space beneath the stand can be used for storing books, documents, or other small office items.

This image illustrates the ergonomic benefit of the monitor stand, showing a user maintaining a correct posture with their monitor elevated to eye level, preventing neck and back pain.

Utilizing the Storage Bag

The fabric storage bag provides convenient additional space for organizing your notepad, phone, sticky notes, USB drives, and other small essentials. It can be installed on either the left or right side of the desk to best suit your workflow and space configuration.

Ensuring Stability with Adjustable Feet

The desk is equipped with adjustable feet. After placing the desk in its final position, rotate these feet to fine-tune the height of each leg. This compensates for any unevenness in your floor, ensuring the desk remains perfectly level and stable, preventing wobbling during use.

MAINTENANCE

- **Cleaning:** Wipe the desk surfaces with a soft, damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Spills:** Clean up spills immediately to prevent staining, especially on the particleboard surfaces.
- **Fasteners:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary to maintain structural integrity and stability.
- **Placement:** Avoid placing the desk in direct sunlight or near heat sources, which can cause material degradation or discoloration over time.

TROUBLESHOOTING

Desk Wobbles

- **Check Adjustable Feet:** Ensure all four adjustable feet are making firm contact with the floor. Rotate them to extend or retract until the desk is stable.
- **Tighten Screws:** Verify that all assembly screws, especially those connecting the frame and desktop, are fully tightened. Loose connections can cause instability.
- **Level Surface:** Confirm the desk is placed on a flat, level surface.

- If you discover any missing or damaged parts upon opening the package, please do not proceed with assembly. Contact VASAGLE customer support immediately for replacement parts.
