TTY Store WS-775

TTY Store WS-775 Black 5-Tier NSF Certified Wire Shelving Unit Instruction Manual

Brand: TTY Store | **Model:** WS-775

Introduction

Thank you for choosing the TTY Store WS-775 Black 5-Tier NSF Certified Wire Shelving Unit. This manual provides detailed instructions for assembly, usage, maintenance, and troubleshooting to ensure safe and efficient operation of your new shelving unit. This versatile unit is designed for various environments, including kitchens, garages, offices, and more, offering robust storage solutions.

The TTY Store WS-775 Black 5-Tier Wire Shelving Unit, showcasing its capacity for various items.

Product Features

- **Easy Assembly:** Designed for quick and tool-free assembly.
- **Large Storage Capacity:** Total weight limit of 1250 pounds, with each shelf supporting up to 250 pounds.
- **Adjustable Shelves:** Shelf height can be adjusted to accommodate items of various sizes.
- **Durable Construction:** Made from sturdy steel wire with a black paint finish for longevity.
- **NSF Certified:** Meets public health and safety standards.
- **V-shaped Mesh Design:** Enhances load-bearing strength of each shelf.
- **Adjustable Leveling Feet:** Ensures stability on uneven surfaces.

Detail of the NSF certification and friction plate design, highlighting material strength.

Features like V-shaped mesh for strength and adjustable leveling feet for stability.

Package Contents

Please ensure all components are present before beginning assembly:

- 5 x Wire Shelves
- 8 x Pole Sections (4 Top, 4 Bottom)
- 4 x Adjustable Leveling Feet
- 4 x Screw Pole Inserts
- Approximately 40 x Tapered Locks (plastic clips)
- 4 x Pole Connectors
- 4 x Top Caps

Assembly Instructions

Follow these steps for quick and easy assembly. No tools are required.

1. **Prepare Bottom Poles:** Insert the screw pole insert into the bottom of each bottom pole (G), then screw in the feet leveler (D). Repeat for all four bottom poles.
2. **Attach Tapered Locks:** Snap the two halves of a tapered lock (B) around each bottom pole (G) at the desired height for the first shelf. Ensure the tapered locks are installed at the same grooved line on all four bottom poles for an even shelf.
3. **Install First Shelf:** Carefully slide a wire shelf (A) down over the bottom poles until it rests securely on the tapered locks.
4. **Connect Pole Sections:** Screw a top pole section (F) onto each bottom pole section (G). Hand tighten to secure.
5. **Install Remaining Shelves:** Repeat steps 2 and 3 for the remaining shelves, attaching tapered locks at your desired heights and sliding the shelves into place.
6. **Secure Top Caps:** Once all shelves are installed, insert the top caps (H) into the top of the uppermost pole sections.

Official assembly video demonstrating the step-by-step process for setting up the wire shelving unit.

Usage Guidelines

This shelving unit is highly versatile and suitable for various applications:

- **Recommended Locations:** Ideal for kitchens, bedrooms, garages, offices, laundry rooms, and cloakrooms.
- **Storage:** Use for tools, books, household appliances, clothing, shoes, and other items.
- **Weight Distribution:** Distribute weight evenly across shelves to maintain stability and prevent damage. Do not exceed the 250-pound limit per shelf or the 1250-pound total limit.
- **Adjustability:** Take advantage of the adjustable shelf feature to customize the unit to your specific storage needs.

Visual examples of the shelving unit's versatility in different home and work environments.

Care and Maintenance

To ensure the longevity and appearance of your shelving unit, follow these simple care instructions:

- **Cleaning:** Wipe the unit with a dry cloth to remove dust and debris. For tougher spots, use a damp cloth with mild soap and dry immediately to prevent rust.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals, as these can damage the black paint finish.
- **Regular Inspection:** Periodically check all connections and ensure the shelves are securely seated on the tapered locks. Tighten leveling feet if necessary.
- **Environment:** While durable, avoid prolonged exposure to excessive moisture or extreme temperatures to prevent potential damage.

Troubleshooting

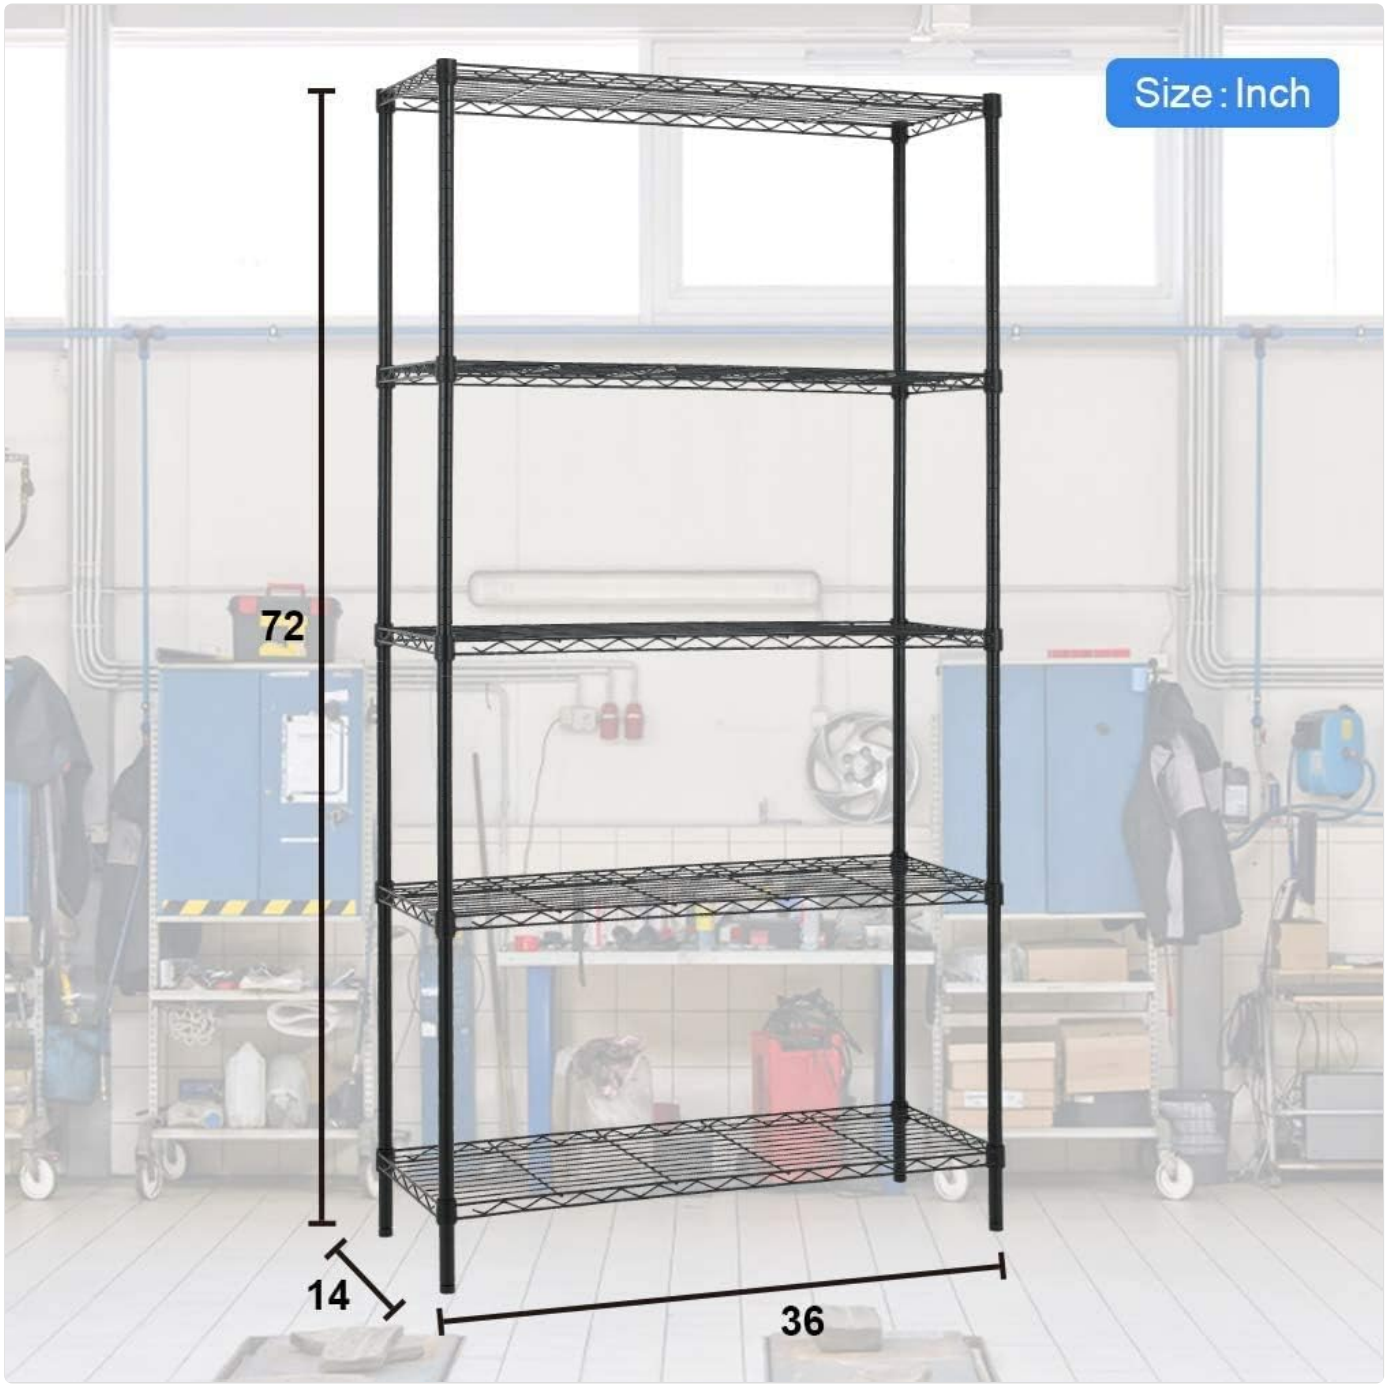

If you encounter any issues with your shelving unit, consider the following common solutions:

- **Unit is Unstable/Wobbly:**
  - Ensure all tapered locks are securely snapped into the pole grooves at the same height.
  - Adjust the leveling feet on the bottom of the poles to stabilize the unit on uneven floors.
  - Verify that all pole sections are tightly screwed together.
- **Shelf Not Sitting Evenly:**
  - Check that the tapered locks for that specific shelf are all at the same height and fully engaged.
  - Ensure the shelf is properly aligned with the poles.
- **Difficulty Assembling:**
  - Refer to the assembly video and instructions carefully.
  - Ensure you are using the correct pole sections (top and bottom) and connectors.
  - Tapered locks should snap firmly into place. If they don't, check for obstructions or ensure they are correctly oriented.

Specifications

Feature	Detail
Model Number	WS-775
Dimensions (D x W x H)	14" x 36" x 72"
Number of Shelves	5
Material	Steel Wire
Finish	Black Painted
Weight Limit (Per Shelf)	250 Pounds
Total Weight Capacity	1250 Pounds
Special Features	Adjustable Shelves, Leveling Feet, NSF Certified

Assembly Required	Yes
