Atomi Smart Color-Changing String Lights Instruction Manual

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your Atomi Smart Color-Changing String Lights.

WHAT'S IN THE BOX

- 12 Shatterproof Bulbs
- Heavy-Duty Weatherproof Cord

SETUP

Before installation, ensure you have a stable 2.4GHz Wi-Fi network available. The Atomi Smart app is required for full functionality.

Installation

The string lights are designed for easy installation with flexible mounting options. You can drape them over structures or use screws through the integrated mounting holes for a more secure fit.

Set the perfect outdoor ambiance
lighting right from your phone

Color Changing & Effects

Choose from over 16 million colors and a tunable white light range (2500K-9000K). Built-in special effects and scene modes provide a dynamic user experience, perfect for holidays, events, or everyday ambiance.

IP65-Rated

Engineered to withstand any weather;
rain, sun, wind, or snow

Figure 7: Explore multiple scene modes for various occasions and moods.

MAINTENANCE

The Atomi Smart String Lights are designed for durability and minimal maintenance. The bulbs are made of shatterproof acrylic, and the heavy-duty cord is weatherproof with an IP65 rating.

Figure 8: The IP65 rating ensures the lights withstand various weather conditions, including rain, sun, wind, and snow.

Regular cleaning with a soft, damp cloth is recommended to maintain optimal light output. Ensure the power is disconnected before cleaning.

TROUBLESHOOTING

- **Lights not connecting to Wi-Fi:** Ensure your Wi-Fi network is 2.4GHz. Move the lights closer to your router or consider a Wi-Fi extender.
- **Lights not responding to app/voice commands:** Check Wi-Fi connection. Ensure the Atomi Smart app is updated. Verify voice assistant integration is correctly set up.
- **Individual bulbs not lighting up:** While bulbs are shatterproof, inspect for any visible damage. Ensure all connections are secure.
- **Inconsistent color display:** Check for strong Wi-Fi signal. Restart the lights by unplugging and plugging them back in.

SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
