- Windmill Figurine
- Decorative Pearls
- Flower Powder
- Craft Glue (Safe & Non-toxic)
- LED Light String (with battery compartment)
- Spare LED Light String
- Detailed Instruction Manual (this document)

SETUP AND ASSEMBLY

Follow these step-by-step instructions to assemble your Unicorn Night Light. Adult assistance is recommended for younger children.

Image: A visual guide illustrating the three main steps of assembling the unicorn night light: planting the tree, placing the unicorns and house, and decorating the base.

1. Step 1: Plant the Tree

Carefully attach the artificial tree to the center of the wooden base using the provided craft glue. Ensure it is securely upright. Allow the glue to dry partially before proceeding.

2. Step 2: Place Unicorns and House

Arrange the unicorn figures, the small house, and the windmill on the wooden base around the tree. Use craft glue to secure them in place. You can create your own unique scene.

3. Step 3: Decorate the Floor

Sprinkle the flower powder and decorative pearls around the base to create a magical landscape. You may use a small amount of glue to hold them in position if desired.

4. **Step 4: Install LED Lights**

Uncoil the LED light string. Gently wrap the lights around the tree and other elements on the base. The battery compartment should be positioned so it can be easily accessed from the bottom or side of the wooden base. Insert 2 AA batteries (not included) into the battery compartment, ensuring correct polarity.

5. **Step 5: Place the Lantern Jar**

Carefully place the clear plastic lantern jar over the assembled scene on the wooden base, ensuring it fits snugly. Make sure the light string is not pinched or damaged by the jar.

OPERATING INSTRUCTIONS

Your YOFUN Unicorn Night Light is designed for simple operation.

- **Turning On/Off:** Locate the small switch on the battery compartment. Slide the switch to the "ON" position to illuminate the night light. Slide it to the "OFF" position to turn it off.
- **Battery Replacement:** The LED light string is powered by 2 AA batteries. When the lights dim or stop working, it's time to replace the batteries. Open the battery compartment, remove the old batteries, and insert new ones, observing the correct polarity (+/-).

CARE AND MAINTENANCE

- **Cleaning:** To clean the plastic lantern jar and figurines, gently wipe with a soft, dry cloth. Do not use abrasive cleaners or immerse the unit in water.
- **Storage:** When not in use for extended periods, turn off the light and consider removing the batteries to prevent leakage. Store the night light in a cool, dry place away from direct sunlight.
- **Handling:** Handle the assembled night light with care to prevent figurines from detaching or the plastic jar from cracking.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Lights do not turn on.	Batteries are dead or inserted incorrectly. Switch is in the "OFF" position. LED string is damaged.	Replace batteries with new ones, ensuring correct polarity. Slide the switch to the "ON" position. Use the spare LED light string provided in the kit.
Figurines or decorations detach.	Insufficient glue used during assembly. Unit was dropped or handled roughly.	Re-glue the detached components using the provided craft glue or a similar non-toxic craft adhesive. Handle the night light with care.

SPECIFICATIONS

- **Brand:** Y YOFUN
- **Model Number:** US-UNICORN LIGHT
- **UPC:** 750139958382
- **Age Range:** Kid (Ages 4+)
- **Color:** Multicolor
