SETUP INSTRUCTIONS

Your Simmons Hybrid Mattress is conveniently shipped in a box. Follow these steps for proper setup:

1. **Untuck & Roll:** Carefully remove the mattress from its packaging. Place the rolled mattress on your bed frame or foundation.
2. **Snip Snip:** Use the provided tool or a pair of scissors to carefully cut open the plastic wrapping. Avoid cutting the mattress fabric.
3. **It's Grow Time:** Allow the mattress to decompress and expand to its full size. This process can take several hours, but it is generally ready for use within 24-48 hours.

USAGE AND FEEL

The Simmons Hybrid Mattress offers a plush feel, rated approximately 7.5 out of 10 on the firmness scale (with 10 being the firmest). This firmness level provides distinct benefits for various sleeping positions:

- **Back Sleepers:** The firm feel provides good support, helping to keep the spine aligned.
- **Stomach Sleepers:** Offers good support for the hips, preventing them from sinking too far and maintaining spinal alignment.
- **Side Sleepers:** The mattress may be too firm to provide sufficient pressure relief for strict side sleepers. A mattress topper might be considered for additional cushioning.

The hybrid design provides significant bounce and mobility, allowing users to change positions easily without feeling stuck in the mattress layers.

MAINTENANCE

To ensure the longevity and performance of your Simmons Hybrid Mattress, please follow these care instructions:

- **Product Care:** Hand Wash Only. Refer to the care tag on the mattress for specific instructions.
- **Protection:** Use a mattress protector to guard against spills and stains.
- **Rotation:** Periodically rotate your mattress (head to foot) to promote even wear and extend its lifespan.
