LKPower Compatible with VANKYO Leisure, Cinemango Q5, 100, 460, 470, 3W & DR. J Professional HI-04 Projectors

LKPower 2-Prong AC Power Cord Cable Instruction Manual

Model Compatibility: VANKYO Leisure, Cinemango Q5, 100, 460, 470, 3W & DR. J Professional HI-04 Portable Movie Mini Projectors

Introduction

This manual provides essential instructions for the safe and effective use of your LKPower 2-Prong AC Power Cord Cable. This cable is designed as a replacement or spare power solution for various portable movie mini projectors, including specific models from VANKYO and DR. J Professional. Please read this manual thoroughly before use and retain it for future reference.

Product Overview

The LKPower 2-Prong AC Power Cord Cable is a high-quality replacement power cable designed to supply AC power to compatible devices. It features a standard 2-prong connector for wall outlets and a compatible connector for your projector's power input. The cable is engineered with safety features to protect your devices.

Image: The LKPower 2-Prong AC Power Cord Cable. This image displays the cable with its two-prong plug on one end, designed for standard wall outlets, and the device-specific connector on the other end, ready for connection to a compatible projector.

Setup

1. **Verify Compatibility:** Ensure your projector model is listed as compatible with this power cord. Refer to your projector's manual for its specific power input requirements.
2. **Inspect the Cable:** Before first use, visually inspect the power cord for any signs of damage, such as cuts, frayed wires, or bent prongs. Do not use a damaged cable.
3. **Connect to Projector:** Insert the device-specific end of the LKPower AC Power Cord Cable firmly into the power input port of your compatible projector.
4. **Connect to Power Outlet:** Plug the 2-prong end of the power cord into a standard AC wall outlet (100-240V, 50/61Hz). Ensure the outlet is easily accessible and not overloaded.
5. **Power On:** Once connected, you may power on your projector according to its own operating instructions.

Operating Instructions

The LKPower 2-Prong AC Power Cord Cable functions as a power supply for your compatible projector. Its operation is straightforward:

- Once properly connected to both the projector and a power outlet, the cable will deliver the necessary electrical power to operate the projector or charge its internal battery, if applicable.
- The cable is designed for worldwide AC input (100-240V, 50/61Hz), making it suitable for international travel with appropriate outlet adapters (not included).
- Always ensure a secure connection at both ends to prevent power interruptions or potential damage.

Maintenance

- **Cleaning:** Disconnect the power cord from the wall outlet and the projector before cleaning. Wipe the cable and connectors with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the power cord in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tightly coiling or bending the cable sharply, as this can damage the internal wires.
- **Inspection:** Periodically inspect the cable for any signs of wear or damage. Replace the cable immediately if any damage is observed.

Troubleshooting

Problem	Possible Cause	Solution
Projector does not power on.	• Cable not fully connected. • Wall outlet not supplying power. • Cable is damaged. • Projector issue.	• Ensure both ends of the power cord are securely plugged in. • Test the wall outlet with another device. • Inspect the cable for damage; replace if necessary. • Consult your projector's manual for troubleshooting power issues.
Intermittent power to projector.	• Loose connection. • Cable damage.	• Ensure connections are tight. • Inspect the cable for damage; replace if necessary.

Specifications

- **Product Type:** 2-Prong AC Power Cord Cable
- **Input:** AC 100-240V, 50/61Hz (Worldwide AC Input)
- **Connector Type:** Male-to-Female (2-prong wall plug to device-specific connector)
- **Safety Features:** Over Voltage Protection, Over Heat Protection
- **UL Listed:** Yes
- **Brand:** LKPower
- **Compatible Models:** VANKYO Leisure, Cinemango Q5, 100, 460, 470, 3W & DR. J Professional HI-04 Portable Movie Mini Projectors
