nania Myla (004286)

Nania Myla Compact Cane Pram User Manual

Model: Myla (004286)

Introduction

This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your Nania Myla Compact Cane Pram. Please read this manual thoroughly before first use and retain it for future reference.

Product Features

- **Compact Design:** Suitable for children from birth up to 48 months or a maximum weight of 22 kg.
- **Quick and Easy Fold:** Effortless folding mechanism for convenient storage and transport.
- **Lightweight:** Weighs approximately 7.5 kg, designed for easy portability.
- **Trolley Function:** Converts into a rolling trolley when folded for easy transport, similar to a wheeled suitcase.
- **One-Handed Recline:** Seat reclines from lying to sitting position with a single hand.
- **Spacious Storage Basket:** Provides ample space for essentials.
- **Adjustable Canopy:** Features a sunshade, storage pocket, and ventilation window.
- **Removable Wheels:** Notched rubber wheels can be easily removed for maintenance or storage.
- **Adjustable Handrail:** For comfortable pushing.

Package Contents

Upon opening the package, please ensure all components are present and undamaged. The package should contain:

- Nania Myla Compact Cane Pram
- Carry Trolley (integrated)
- Rain Cover
- User Manual (this document)

If any items are missing or damaged, please contact customer support immediately.

Setup and Assembly

The Nania Myla pram is designed for minimal assembly. It arrives largely pre-assembled. Follow these steps to prepare your pram for first use.

1. Unfolding the Pram

To unfold the pram, release the folding latch (if present) and gently pull the handle upwards until the frame locks into place. Ensure all locking mechanisms are securely engaged before placing a child in the pram.

Image: The Nania Myla pram shown both folded for compact storage and fully unfolded, ready for use. Note the compact size when folded.

2. Attaching/Checking Wheels

The rubber wheels are designed to be easily removable. Ensure they are securely attached and click into place before use. Press firmly until you hear a click, then gently pull to confirm they are locked.

3. Adjusting the Canopy

Extend the canopy to provide shade and protection. The canopy features a ventilation window and a storage pocket for small items.

Operating Instructions

1. Securing Your Child

Always use the 5-point harness to secure your child in the pram. Adjust the straps to ensure a snug but comfortable fit. The harness should be adjusted as your child grows.

Image: A top-down view of the pram's seat, highlighting the 5-point safety harness and padded seating area, ensuring child security and comfort.

2. Reclining the Seat

The seat can be reclined to multiple positions, including a lying position suitable for newborns, using a one-handed mechanism. Locate the recline lever/button on the back of the seat and adjust to the desired angle.

Image: Side view of the Nania Myla pram, illustrating the adjustable footrest. The arrow indicates the direction of adjustment for the footrest, allowing for comfortable positioning for the child.

3. Engaging the Brakes

Always engage the parking brake when the pram is stationary to prevent accidental movement. The brake lever is typically located near the rear wheels. Ensure the pram is stable before releasing your grip.

4. Folding the Pram

To fold the pram, ensure the seat is in an upright position and the canopy is retracted. Locate the quick-fold mechanism (often a button or lever on the handle) and activate it while pushing the pram downwards. The pram will collapse into a compact, self-standing unit. It can then be rolled like a suitcase using its integrated trolley function.

Image: The Nania Myla pram displayed in both its open and compactly folded states, with key dimensions (height, width, length) indicated for both configurations. The folded dimensions are approximately H 60cm x W 51.3cm x L 23cm.

5. Using the Rain Cover

To protect your child from rain, drape the rain cover over the pram, ensuring it covers the entire seating area and canopy. Secure it using any provided fasteners or elastic edges.

Maintenance and Care

Regular maintenance ensures the longevity and safety of your Nania Myla pram.

- **Cleaning Fabric:** The fabric components should be hand washed only. Use mild soap and cold water. Do not bleach or tumble dry. Allow to air dry completely before reassembly or storage.
- **Cleaning Frame:** Wipe the aluminium frame with a damp cloth and mild detergent. Dry thoroughly.
- **Wheel Maintenance:** Periodically check the rubber wheels for wear and tear. Remove any debris or hair that may accumulate around the axles. The wheels can be easily removed for cleaning.

- **Storage:** Store the pram in a dry, cool place away from direct sunlight and extreme temperatures.
- **Inspections:** Regularly inspect all moving parts, locking mechanisms, and the harness for proper function and signs of damage.

Troubleshooting

This section addresses common issues you might encounter with your Nania Myla pram.

Problem	Possible Cause	Solution
Pram does not unfold or fold smoothly.	Locking mechanisms are stuck or not fully disengaged/engaged. Debris in joints.	Ensure all latches are released. Check for obstructions in the folding mechanism. Apply a silicone-based lubricant to moving parts if necessary.
Wheels squeak or do not turn freely.	Dirt or debris in wheel axles. Lack of lubrication.	Remove wheels and clean axles thoroughly. Apply a small amount of silicone lubricant to the axle points.
Harness is difficult to adjust or fasten.	Straps are twisted or buckle is misaligned.	Untwist straps and ensure the buckle components are correctly aligned before attempting to fasten. Refer to the harness diagram for correct assembly.
Pram feels unstable or wobbly.	Wheels not fully engaged. Frame not locked properly.	Ensure all wheels are securely clicked into place. Verify that the pram frame is fully unfolded and all locking indicators are green (if applicable).

If you encounter an issue not listed here, or if the suggested solutions do not resolve the problem, please contact Nania customer support.

Specifications

Attribute	Detail
