Treva AEH0001

Treva Portable Mini Humidifier AEH0001 Instruction Manual

Introduction

This manual provides detailed instructions for the safe and efficient operation of your Treva Portable Mini Humidifier, Model AEH0001. Please read all instructions carefully before use and retain this manual for future reference.

Product Overview

The Treva Portable Mini Humidifier is a compact, cool mist ultrasonic humidifier designed for personal spaces. It features two misting modes and a colored night light, powered conveniently via USB.

Key Features:

- **Portable Design:** Small and lightweight, ideal for travel, bedrooms, home offices, and nurseries.
- **USB Powered:** Operates using the included USB cord for flexible placement.
- **Two Misting Modes:** Choose between continuous mist (up to 5 hours) or intermittent mist (up to 8 hours).
- **150 ml Water Tank:** Easy to fill, with a visible window to monitor water level.
- **Colored Night Light:** Features a soft glow that transitions through 7 different colors.

Setup

1. Unpacking

Carefully remove all components from the packaging. Ensure the USB cable is present; it is typically located inside the humidifier's water tank.

2. Filling the Water Tank

1. Unscrew the top cover of the humidifier.
2. Fill the water tank with clean tap water up to the maximum fill line. The tank holds 150 ml of water.
3. **Important:** Do not add distilled water or essential oils to the humidifier.
4. Securely screw the top cover back onto the humidifier.

3. Connecting Power

Connect the included USB cable to the humidifier's USB port and plug the other end into a compatible USB power source (e.g., a USB wall adapter, computer USB port, or portable power bank). The humidifier requires continuous power to operate; it is not rechargeable.

Operating Instructions

The humidifier is controlled by a single button located on the front.

1. Misting Modes

- **Continuous Mist:** Press the control button once for a continuous stream of mist. This mode operates for up to 5 hours.
- **Intermittent Mist:** Press the control button a second time for intermittent mist. This mode operates for up to 8 hours.
- To turn off the mist, press the button a third time.

2. Colored Night Light

- To turn on the colored night light, press and hold the control button for approximately 3 seconds. The light will cycle

through 7 different colors.

- To turn off the colored night light, press and hold the control button again for approximately 3 seconds.

Maintenance

Regular cleaning and maintenance ensure optimal performance and longevity of your humidifier.

1. Cleaning the Water Tank

1. Unplug the humidifier from its power source.
2. Unscrew the top cover and empty any remaining water from the tank.
3. Wipe the inside of the water tank with a soft, damp cloth. For stubborn mineral deposits, a mild vinegar solution can be used, followed by thorough rinsing.
4. Do not submerge the main unit in water.
5. Allow all parts to air dry completely before reassembling.

2. Filter/Wick Care

The humidifier uses a filter wick that may require periodic replacement or cleaning depending on water quality and usage. If mist output decreases, inspect the wick for discoloration or hardening. Replace the wick if necessary. Refer to the manufacturer's guidelines for specific replacement intervals and compatible wicks.

Troubleshooting

Problem	Possible Cause	Solution
No mist output	Low water level Humidifier not powered Clogged filter wick	Refill water tank Ensure USB cable is securely connected to a working power source Inspect and replace filter wick if necessary
Light not working	Light feature is off	Press and hold the control button for 3 seconds to activate the light.
Humidifier stops working unexpectedly	Water tank empty Power interruption	Refill water tank Check USB connection and power source
Unit is not rechargeable	This model is designed for continuous USB power.	The humidifier must remain plugged into a USB power source to function. It does not contain an internal battery for wireless operation.
