KLMM Daybed with Trundle

KLMM Daybed with Trundle Twin Sofa Bed Frame Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your KLMM Daybed with Trundle. Please read all instructions carefully before assembly and retain this manual for future reference. Ensure all components are present and undamaged before beginning assembly.

SAFETY INFORMATION

- Always assemble the daybed on a soft, clean surface to prevent damage to the product or your floor.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not allow children to play on or around the daybed without supervision.
- Do not exceed the maximum weight capacity of 250 lbs for both the daybed and the trundle.
- Keep small parts out of reach of children during assembly.
- Use only the recommended mattress thickness: 8-10 inches for the daybed and 6 inches for the trundle.

PACKAGE CONTENTS

Before assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Daybed Frame Components (Headboard, Footboard, Side Rails)
- Trundle Bed Frame Components
- Wooden Slats for Daybed
- Wooden Slats for Trundle Bed
- Hardware Pack (Screws, Bolts, Allen Wrench)
- Assembly Instructions Manual

SETUP (ASSEMBLY)

Assembly is required for this product. It is recommended to have two adults for assembly. Please follow the steps below carefully.

Step 1: Unpack and Identify Components

Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided parts list (if included in your package).

Step 2: Assemble the Daybed Frame

Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure but do not fully tighten bolts until the frame is complete.

Step 3: Install Daybed Slats

Place the wooden slats across the daybed frame. Secure them in place according to the instructions in your hardware pack. Ensure even spacing for optimal mattress support.

Step 4: Assemble the Trundle Frame

Assemble the trundle bed frame separately, attaching its side rails and end pieces. Install the trundle slats in the same manner as the daybed slats.

Step 5: Attach Trundle Wheels

Attach the wheels to the bottom of the trundle frame. Ensure they are securely fastened to allow for smooth movement.

Step 6: Final Tightening and Placement

Once both frames are assembled, fully tighten all bolts and screws. Carefully slide the trundle bed under the daybed. Place your mattresses on the daybed and trundle.

OPERATING INSTRUCTIONS

Using the Daybed

The main daybed functions as a standard twin-sized bed or a sofa. Place a twin mattress (8-10 inches thick recommended) on the slats. The sturdy frame provides stable support for sleeping or lounging.

Image of the KLMM Daybed with the trundle bed fully retracted underneath, showing its compact configuration.

Extending the Trundle Bed

To use the trundle bed, gently pull the trundle frame out from underneath the main daybed. The wheels allow for smooth extension. Ensure the trundle is fully extended and stable before use. Place a twin mattress (up to 6 inches thick recommended) on the trundle slats.

SIZE **INCH**

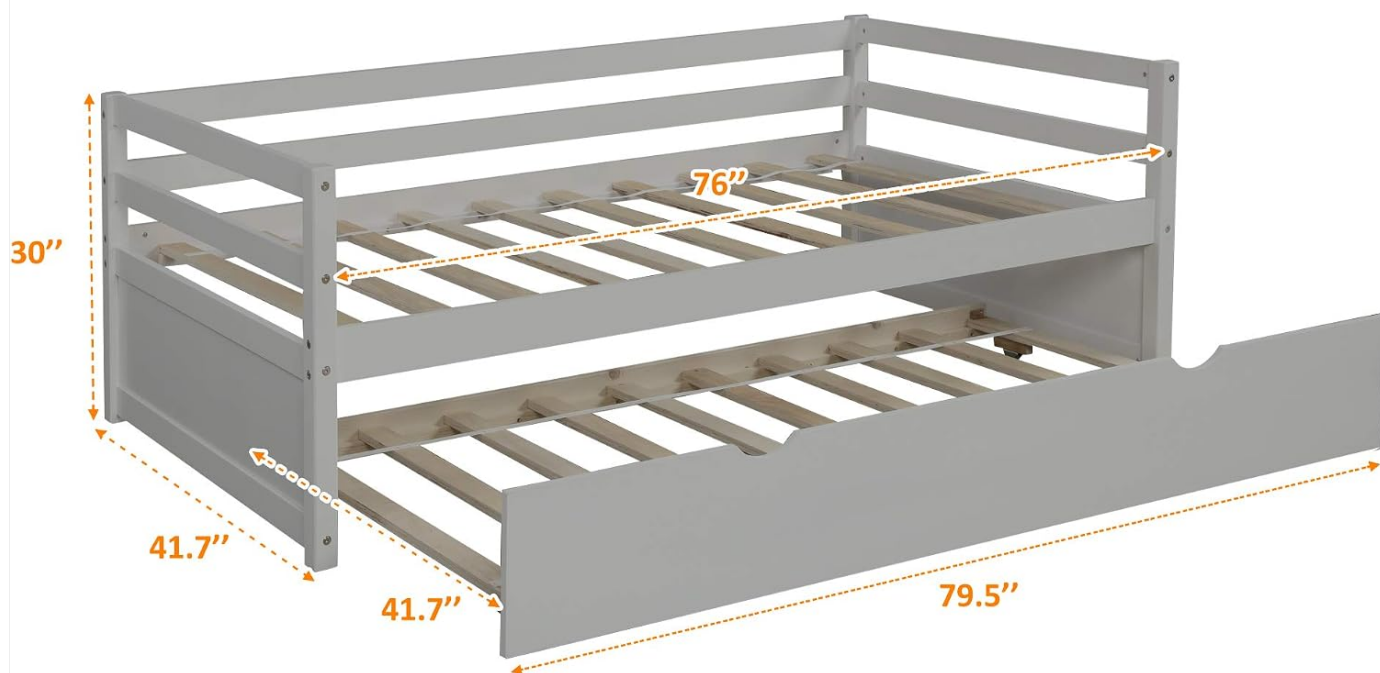

Image of the KLMM Daybed with the trundle bed extended, demonstrating its dual sleeping capacity.

Retracting the Trundle Bed

To store the trundle, remove any bedding that might obstruct its movement. Gently push the trundle frame back underneath the main daybed until it is fully nested. Ensure it is completely pushed in to prevent tripping hazards.

MAINTENANCE

Cleaning

Wipe the daybed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish. For mattresses, follow the manufacturer's cleaning instructions.

Regular Checks

Periodically inspect all bolts, screws, and connections to ensure they remain tight. Re-tighten any loose hardware to maintain the stability and safety of the daybed. Check the trundle wheels for smooth operation and clear any debris that may hinder movement.

TROUBLESHOOTING

- **Squeaking Noises:** Check all bolts and screws for tightness. Re-tighten any loose connections. Ensure slats are

properly seated and not rubbing against the frame.

- **Trundle Not Sliding Smoothly:** Inspect the trundle wheels for any obstructions (e.g., dust, hair). Clean the wheels and the track area. Ensure the trundle frame is not warped or damaged.
- **Wobbly Frame:** This usually indicates loose hardware. Re-check and tighten all bolts and screws on both the daybed and trundle frames. Ensure the daybed is placed on a level surface.
- **Missing or Damaged Parts:** If you discover missing or damaged parts during assembly, do not proceed. Contact KLMM customer support immediately for assistance.

SPECIFICATIONS

Feature	Detail
Brand	KLMM
Model	Daybed with Trundle
Size	Twin
Color	Grey
Product Dimensions (L x W x H)	76" x 41.7" x 30"
