- Before assembly and use, carefully read and understand all instructions.
- Ensure all components are securely fastened before using the table or stools to prevent instability.
- **Do not exceed the maximum load capacity:**
 - Table: 45 kg (99 lbs)
 - Stool: 150 kg (330 lbs)
- Keep children and pets away from the assembly area. Small parts can be a choking hazard.
- Always place the furniture on a flat, stable, and level surface to prevent tipping.
- Do not stand on the stools or table.

Please check that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

4. ASSEMBLY INSTRUCTIONS

Assembly is required for this product. It is recommended to have two people for assembly to ensure ease and safety.

Tools Required:

- Included Allen key
- Phillips head screwdriver (not included, but may be useful)

Assembly Steps:

1. **Unpack and Identify:** Carefully unpack all components and lay them out on a clean, soft surface (e.g., a blanket or cardboard) to prevent scratches. Verify all parts against the provided parts list in your physical manual.
2. **Assemble the Table Frame:** Begin by attaching the table legs to the tabletop support structure using the provided screws and bolts. Do not fully tighten the fasteners at this stage.
3. **Attach the Tabletop:** Once the table frame is loosely assembled, carefully place the tabletop onto the frame and secure it with the appropriate hardware.
4. **Assemble Each Stool:** For each stool, attach the legs to the seat support, then connect the footrests between the legs. Again, keep fasteners slightly loose.
5. **Final Tightening:** Once the table and all stools are fully assembled but with loose fasteners, place them on a flat surface. Gradually tighten all screws and bolts on both the table and stools. This ensures proper alignment and stability.
6. **Stability Check:** Before use, gently shake the table and each stool to ensure they are stable and all connections are secure.

5. USAGE GUIDELINES

To maximize the lifespan and functionality of your SoBuy OGT22 Bar Table Set:

- The four bar stools are designed to fit neatly under the table when not in use, optimizing space in smaller areas.
- Always ensure the table and stools are placed on a level surface to prevent wobbling and potential accidents.
- Avoid placing excessively hot items directly on the tabletop. Use coasters or placemats to protect the surface.
- Distribute weight evenly on the table and stools to prevent stress on individual components.

6. CARE AND MAINTENANCE

Proper care will help maintain the appearance and durability of your furniture.

- **Cleaning:** Clean the table and stools with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or solvents, as these can damage the PVC finish and metal frame.

- **Spills:** Wipe spills immediately with a dry cloth to prevent staining or moisture damage.
- **Fasteners:** Periodically check all screws and bolts and tighten them if necessary to maintain the structural integrity and stability of the furniture.
- **Environment:** Protect the furniture from prolonged direct sunlight and extreme temperature changes, which can cause fading, warping, or material degradation.

7. TROUBLESHOOTING

Refer to this section for common issues and their solutions.

- **Wobbling Table or Stool:**

Ensure all screws and bolts are fully tightened. Check that the furniture is placed on an even and level surface. If your floor is uneven, consider using furniture pads or shims to stabilize the legs.

- **Difficulty During Assembly:**

Re-read the assembly instructions carefully, paying close attention to diagrams. Ensure you are using the correct hardware for each step. Remember not to fully tighten screws until the entire unit is assembled to allow for minor adjustments.

- **Surface Scratches or Minor Damage:**

For minor scratches on the PVC finish, touch-up pens or furniture markers designed for wood-look surfaces may be used. Always test in an inconspicuous area first.
