## De'Longhi ECAM13.123.B

# De'Longhi ECAM13.123.B Automatic Coffee Machine User Manual

Model: ECAM13.123.B

## 1. INTRODUCTION

This manual provides comprehensive instructions for the safe and efficient operation, setup, and maintenance of your De'Longhi ECAM13.123.B Automatic Coffee Machine. This bean-to-cup machine is designed to deliver freshly ground coffee for a perfect taste every time, offering customizable aroma and quantity for various recipes.

Key features include integrated grinding technology with adjustable conical steel grinders, a Thermoblock system for precise temperature control, and a manual milk frother for creamy milk drinks.

Figure 1: Front view of the De'Longhi ECAM13.123.B coffee machine packaging, showing the machine and its primary function as an automatic coffee machine with a manual milk frother.

## 2. COMPONENTS OVERVIEW

Familiarize yourself with the main components of your De'Longhi ECAM13.123.B coffee machine to ensure proper setup and operation.

Figure 2: Diagram illustrating key components of the De'Longhi ECAM13.123.B coffee machine, as depicted on the product packaging.

- 1. Bean Container:** Holds up to 250g of coffee beans. Includes an additional compartment for pre-ground coffee.
- 2. Manual Milk Frother:** Used to prepare creamy milk foam for cappuccino and other milk-based beverages.
- 3. Adjustable Coffee Outlet:** Allows adjustment for various cup sizes, up to 140 mm in height.
- 4. Removable Brewing Unit:** The core component for coffee extraction, designed for easy removal and washing.

## 3. SETUP AND FIRST USE

---

### 3.1 Unpacking

- Carefully remove the machine from its packaging.
- Remove all packing materials and protective films.
- Place the machine on a stable, level surface.

### 3.2 Initial Preparation

1. **Fill the Water Tank:** Remove the water tank, rinse it, and fill it with fresh tap water up to the MAX level. Reinsert the tank securely.
2. **Fill the Bean Container:** Open the lid of the bean container (1) and pour fresh coffee beans into it. Ensure the lid is closed properly.
3. **Plug In and Power On:** Connect the power cord to the machine and a suitable power outlet. Press the ON/OFF button to switch on the machine.
4. **Rinse Cycle:** The machine will perform an automatic rinse cycle. Place a container under the coffee spouts to collect the water.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Making Espresso or Coffee

1. Ensure the water tank is filled and the bean container has sufficient coffee beans.
2. Place one or two cups under the adjustable coffee outlet (3).
3. Press the desired coffee button (e.g., Espresso, Long Coffee). The machine will grind the beans, brew, and dispense the coffee.
4. To customize aroma, press the aroma button before selecting your drink. To adjust quantity, press and hold the coffee button until the desired amount is dispensed, then release.

### 4.2 Using Pre-Ground Coffee

1. Open the lid of the pre-ground coffee compartment (part of 1).
2. Add one level scoop of pre-ground coffee. Do not add more than one scoop.
3. Select your desired coffee beverage. The machine will use the pre-ground coffee.

### 4.3 Manual Milk Frother (Cappuccinatore)

1. Fill a pitcher with cold milk (preferably skimmed or semi-skimmed) to about one-third full.
2. Position the steam wand of the manual milk frother (2) into the milk.
3. Turn the steam dial to activate the frother. Move the pitcher up and down to create creamy foam.
4. Once desired foam is achieved, turn off the steam dial. Clean the frother immediately after use.

## 5. MAINTENANCE AND CLEANING

---

Regular maintenance ensures optimal performance and longevity of your coffee machine.

### 5.1 Drip Tray Cleaning

- The drip tray collects excess water and coffee residue. Empty and clean it regularly.
- For optimal hygiene, the drip tray can be placed in the dishwasher for cleaning.

## 5.2 Brewing Unit Cleaning

- The removable brewing unit (4) should be cleaned monthly or as indicated by the machine.
- Switch off the machine and unplug it.
- Remove the brewing unit by following the instructions in the full manual.
- Rinse the brewing unit under running water. Do not use detergents.
- Allow it to air dry completely before reinserting.

## 5.3 Descaling

- The machine will indicate when descaling is required.
- Use only De'Longhi descaling solution. Follow the instructions provided with the descaling product and in the full manual for the descaling procedure.

## 6. TROUBLESHOOTING

This section addresses common issues you might encounter with your coffee machine.

Problem	Possible Cause	Solution
Coffee is not hot enough	Cups are cold; machine not preheated.	Preheat cups with hot water; run a rinse cycle before brewing.
Coffee is too weak or watery	Grind setting too coarse; insufficient coffee dose.	Adjust grind setting to a finer level; increase coffee aroma intensity.
No coffee is dispensed	Water tank empty; brewing unit blocked.	Fill water tank; clean the brewing unit (refer to Section 5.2).
Milk frother not producing foam	Frother nozzle blocked; milk type unsuitable.	Clean the frother nozzle; use cold skimmed or semi-skimmed milk.

For more detailed troubleshooting, please refer to the complete product manual or contact De'Longhi customer support.

## 7. SPECIFICATIONS

Technical details for the De'Longhi ECAM13.123.B Automatic Coffee Machine.

Feature	Detail
Brand	De'Longhi
Model Number	ECAM13.123.B
Color	Black

Feature	Detail
Dimensions (L x W x H)	34 x 24 x 43 cm
Weight	9 Kilograms
Capacity	700 Milliliters (water tank)
Power	1450 Watts
Voltage	230 Volts (AC)
Special Feature	Thermoblock heating system
Coffee Maker Type	Espresso Machine
Components Included	Carafe, Filter, Milk Frother
