## Technical Precision SUNLIGHT DESK LAMP

# Instruction Manual

## REPLACEMENT FOR BELL & HOWELL SUNLIGHT DESK LAMP LIGHT BULB

Model: SUNLIGHT DESK LAMP | Brand: Technical Precision

### Product Overview

---

This document provides essential instructions for the installation, operation, and maintenance of the Technical Precision Replacement Light Bulb for Bell & Howell Sunlight Desk Lamps. This bulb is designed as a direct replacement and is not manufactured by Bell & Howell.

## Setup and Installation

---

Follow these steps carefully to install the replacement light bulb:

1. **Safety First:** Before attempting any installation, ensure the Bell & Howell Sunlight Desk Lamp is unplugged from the power outlet. Allow the old bulb to cool completely if it was recently in use.
2. **Remove Old Bulb:** Gently grasp the old bulb and pull it straight out from the lamp's socket. Avoid twisting if the socket is designed for a straight pull. Dispose of the old bulb responsibly according to local regulations.
3. **Inspect New Bulb:** Carefully unpackage the new Technical Precision replacement bulb. Inspect it for any visible damage such as cracks or bent pins.
4. **Insert New Bulb:** Align the pins on the base of the new bulb with the corresponding slots in the lamp's socket. Gently push the bulb straight into the socket until it is firmly seated. Do not force the bulb.

5. **Secure Connection:** Ensure the bulb is fully inserted and stable in the socket.

6. **Restore Power:** Once the new bulb is securely installed, plug the lamp back into the power outlet.

## Operating Instructions

After successful installation, operate the lamp as you normally would:

- **Power On/Off:** Use the lamp's integrated power switch to turn the light on or off.
- **Brightness:** The bulb provides a consistent brightness. If your lamp has dimming capabilities, ensure the bulb is compatible with dimmers (check lamp specifications). This specific bulb is rated for 27 Watts and 6300 Kelvin color temperature.

## Maintenance

Proper maintenance ensures the longevity and performance of your light bulb:

- **Cleaning:** Before cleaning, always unplug the lamp. Use a soft, dry, lint-free cloth to gently wipe the bulb if dust accumulates. Do not use liquid cleaners directly on the bulb.
- **Handling:** Avoid touching the glass part of the bulb with bare hands, as oils from your skin can reduce bulb life. If touched, wipe with a clean, dry cloth.
- **Storage:** If storing a spare bulb, keep it in its original packaging in a cool, dry place to protect it from damage.

## Troubleshooting

If the light bulb does not function as expected, consider the following:

- **Bulb Not Lighting Up:**
  - Ensure the lamp is securely plugged into a working power outlet.
  - Check if the lamp's power switch is in the "On" position.
  - Verify that the bulb is fully and correctly seated in the lamp's socket. Unplug the lamp, remove the bulb, and reinsert it firmly.
  - Test the lamp with another known working bulb (if available) to determine if the issue is with the lamp or the bulb.
- **Flickering Light:**
  - Ensure the bulb is fully seated in the socket.
  - Check for loose connections in the lamp or power outlet.
  - If the lamp has a dimmer, ensure the bulb is compatible. Incompatible dimmers can cause flickering.
- **Reduced Brightness:**
  - Dust accumulation on the bulb can reduce light output. Clean the bulb as described in the Maintenance section.
  - Ensure the lamp's shade or diffuser is clean and not obstructing light.

## Specifications

<b>Brand</b>	Technical Precision
<b>Model Number</b>	SUNLIGHT DESK LAMP
<b>Part Number</b>	SUNLIGHT DESK LAMP

<b>Item Package Quantity</b>	1
<b>Shape</b>	Tubular
<b>Material</b>	copper
<b>Specific Uses</b>	Lamp
<b>Batteries Included?</b>	No
<b>Batteries Required?</b>	No
<b>Wattage</b>	27 Watts
<b>Color Temperature</b>	6300 Kelvin
<b>Average Life</b>	10000 Hours
<b>Bulb Length</b>	5.75 Inches

## Warranty and Support

This product is sold by Technical Precision. For any issues or support inquiries, please contact the seller directly through the platform where the purchase was made.

**Return Policy:** This product is eligible for returns within 30 days of purchase, subject to the seller's return policy for refund or replacement.

*Note: This bulb is a replacement part and is not manufactured by Bell & Howell.*
