OPERATING INSTRUCTIONS

- **Accessing Top Bunk:** Always use the integrated stairway for safe access to the top bunk.
- **Using Storage:** The stairway unit features a cabinet and drawers for storage. Gently pull drawers open and push them closed. The cabinet door opens outwards.
- **Converting Lower Bed:** The lower bed can be converted from twin to full size. To extend, carefully pull the bed frame outwards until it locks into the full-size position. To retract, unlock the mechanism (refer to the assembly manual for specific details) and push the frame inwards.
- **Mattress Placement:** Place the recommended mattress thickness on each bunk. Ensure the top bunk mattress does not exceed 6 inches in thickness to maintain adequate guardrail height.

MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and connections to ensure they remain tight. Retighten as necessary to maintain structural integrity.
- **Wood Care:** Protect the wood finish from extreme temperatures and humidity. Avoid placing hot items directly on the surface.

TROUBLESHOOTING

Problem	Possible Cause	Solution
