Feit Electric CAM/DOOR/WIFI

Feit Electric Smart Video Doorbell Camera User Manual

Model: CAM/DOOR/WIFI

Always know who is at the door with the Feit Electric CAM/DOOR/WIFI smart doorbell camera.

Introduction

The Feit Electric Smart Video Doorbell Camera provides enhanced home security and convenience. This manual will guide you through the installation, setup, and operation of your new doorbell camera, ensuring you can utilize all its features effectively.

With 1080p HD video, two-way audio, motion detection, and night vision, you can monitor your home's entrance from anywhere using the Feit Electric mobile app.

What's Included

Verify that all components are present in your package:

- Feit Electric Smart Video Doorbell Camera
- Wireless Chime
- Mounting Hardware (screws, anchors, wire extenders, wire terminal block)
- USB Cable
- Reset Tool

Image: All components included with the Feit Electric Smart Video Doorbell Camera.

Setup

1. Pre-Installation Considerations

- **Power Source:** The doorbell camera is hardwired and requires a 12-24V AC power source. Ensure power is turned off at the circuit breaker before beginning installation.
- **Wi-Fi Network:** The camera connects directly to your 2.4 GHz Wi-Fi network. Ensure you have your Wi-Fi network name and password ready.
- **Micro SD Card (Optional):** For local storage and playback of video, a Micro SD card (up to 128GB, not included) can be inserted into the slot on the camera before mounting.

2. Physical Installation

1. **Turn Off Power:** Before any wiring, shut off the power to your existing doorbell at the circuit breaker or fuse box. This is crucial for safety.
2. **Mounting Plate:** Feed your existing doorbell wires through the center of the mounting plate. Align the

mounting plate with the wall and mark the screw positions with a pencil. If installing into drywall, insert the provided mounting anchors.

3. **Secure Mounting Plate:** Use the mounting screws to firmly attach the mounting plate to the wall.
4. **Wire Connection:** Attach your doorbell wires to the external power port on the back of your smart video doorbell. Use the provided wire extenders and wire terminal block if your existing doorbell wires are too short. Tighten the terminal screws with a screwdriver.
5. **Mount Doorbell:** Secure the doorbell camera onto the mounted plate.

Image: Step-by-step illustration of replacing a wired doorbell with the Feit Electric Smart Video Doorbell Camera.

3. App Setup and Pairing

Follow these steps to connect your doorbell camera to the Feit Electric app:

- **Download the App:** Download the free Feit Electric app from the App Store (iOS) or Google Play Store (Android).

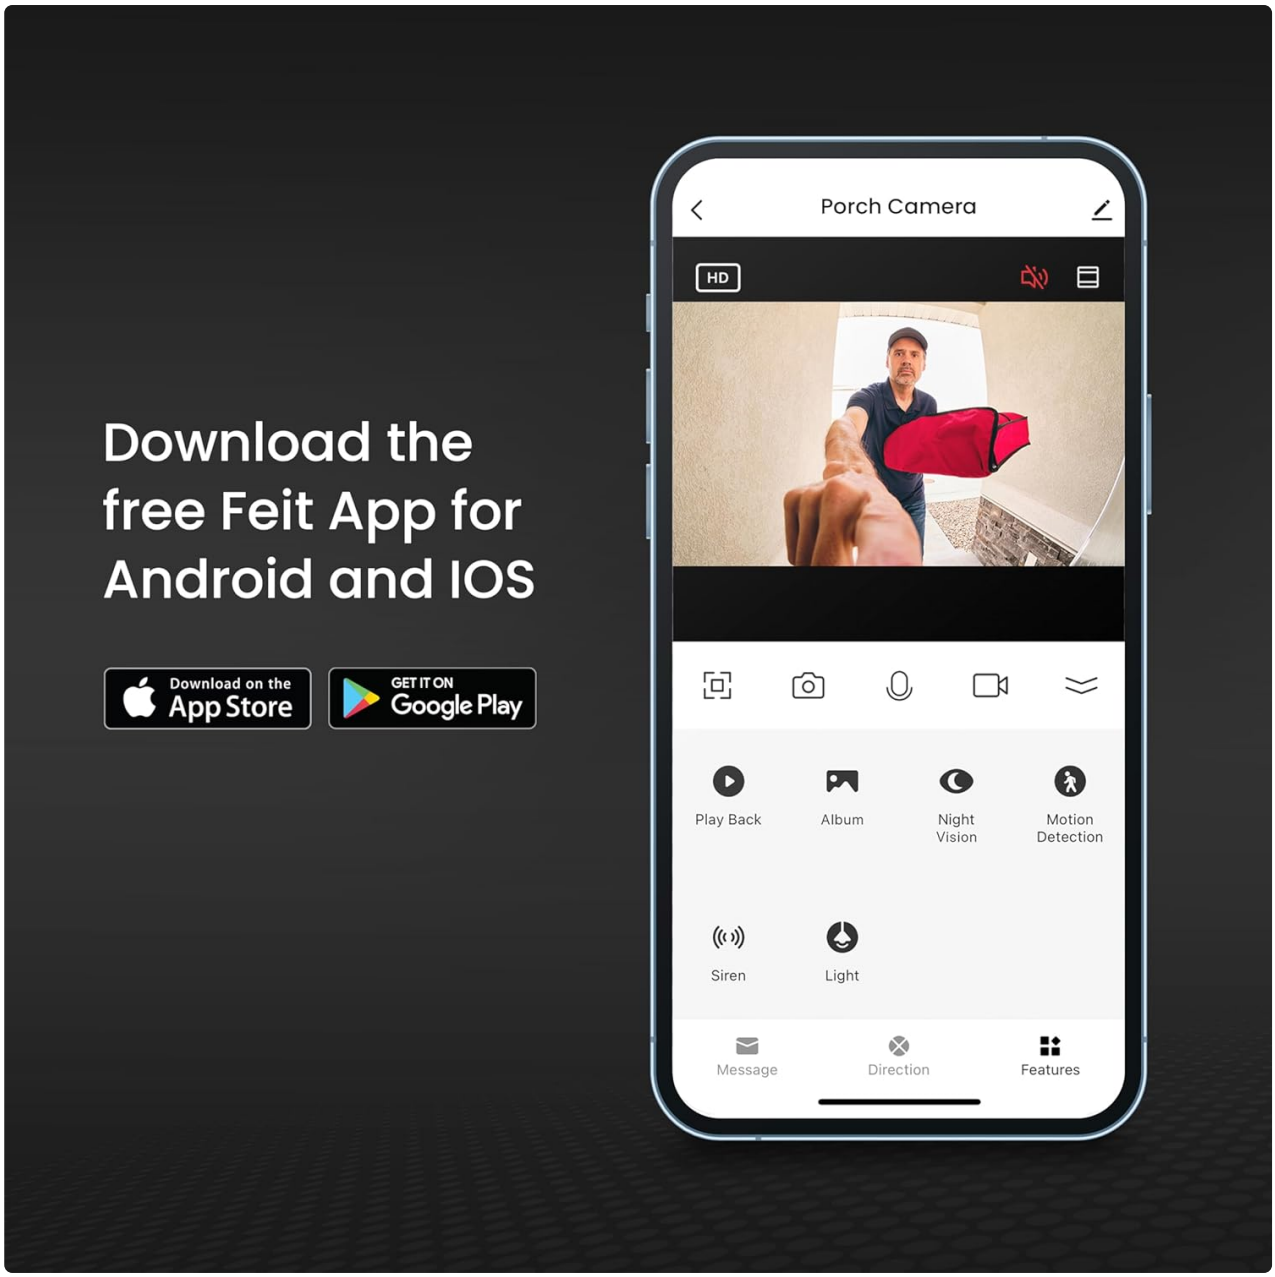

Image: Instructions to download the Feit Electric app for smartphone control.

- **Register/Log In:** Open the app and register for a new account or log in if you already have one.
- **Add Device:** In the app, select your location and tap 'Add Device' or the '+' icon in the upper right corner. Choose 'Security & Cameras' then 'Doorbell'.
- **Reset Device (if needed):** If the LED indicator on your doorbell is not blinking red, use the included reset tool to press and hold the reset button for at least 5 seconds until you hear an audible tone. The LED should then blink red, indicating it's ready for connection.
- **Connect to Wi-Fi:** Confirm your device is blinking red in the app. Ensure your phone is connected to a 2.4 GHz Wi-Fi network.
- **QR Code Pairing:** The app will generate a QR code. Hold your phone approximately 6-12 inches away from the doorbell camera with the QR code clearly visible on the screen. Wait for the connection tone from the doorbell.
- **Confirm Connection:** Once you hear the beep, press 'I heard the beep' in the app. The app will begin pairing the camera. Upon successful connection, you will receive a confirmation screen. Press 'Done'.

Operating Instructions

Once your Feit Electric Smart Video Doorbell Camera is set up, you can access and control its features through the Feit Electric app:

- **Live Video and Motion Alert:** Get instant alerts on your smartphone when motion is detected. Use the app for a live view of your doorstep anytime.

Image: Illustrates the 30-foot motion detection and night vision range of the doorbell camera.

- **Two-Way Audio:** Converse in real-time with visitors using the built-in microphone and speaker.

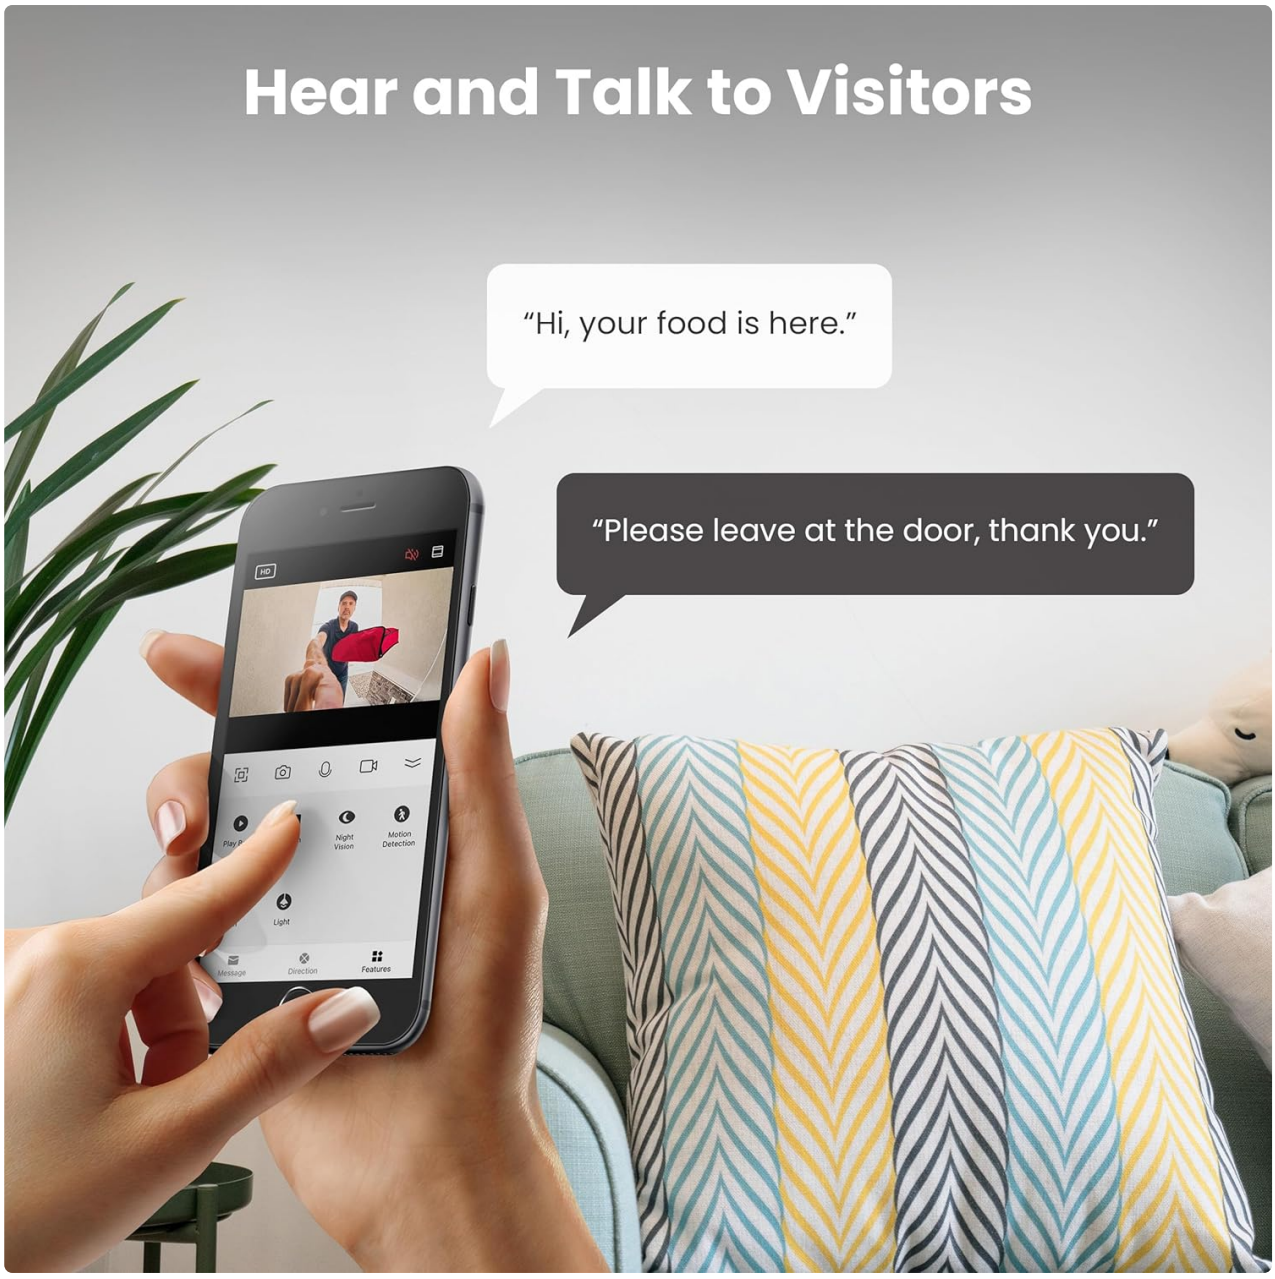

Image: Demonstrates the two-way audio communication feature through the Feit Electric app.

- **1080p HD Video & Night Vision:** Enjoy clear, high-definition video. The integrated IR sensor provides visibility even in low-light conditions or complete darkness.
- **Local Storage:** Recorded events can be stored on an onboard Micro SD card (up to 128GB, sold separately). You can download videos wirelessly through the Feit app. No monthly fees or subscriptions are required for storage.

Image: Shows the 24/7 recording capability of the doorbell camera with a microSD card.

- **Smart Features:** The Feit Electric app allows for remote access, grouping of devices, scheduling, and device sharing.

Image: Overview of key smart camera features like 1080p HD video, two-way audio, and motion detection.

- **Voice Control:** Works with Alexa or Hey Google when connected through your Feit app.

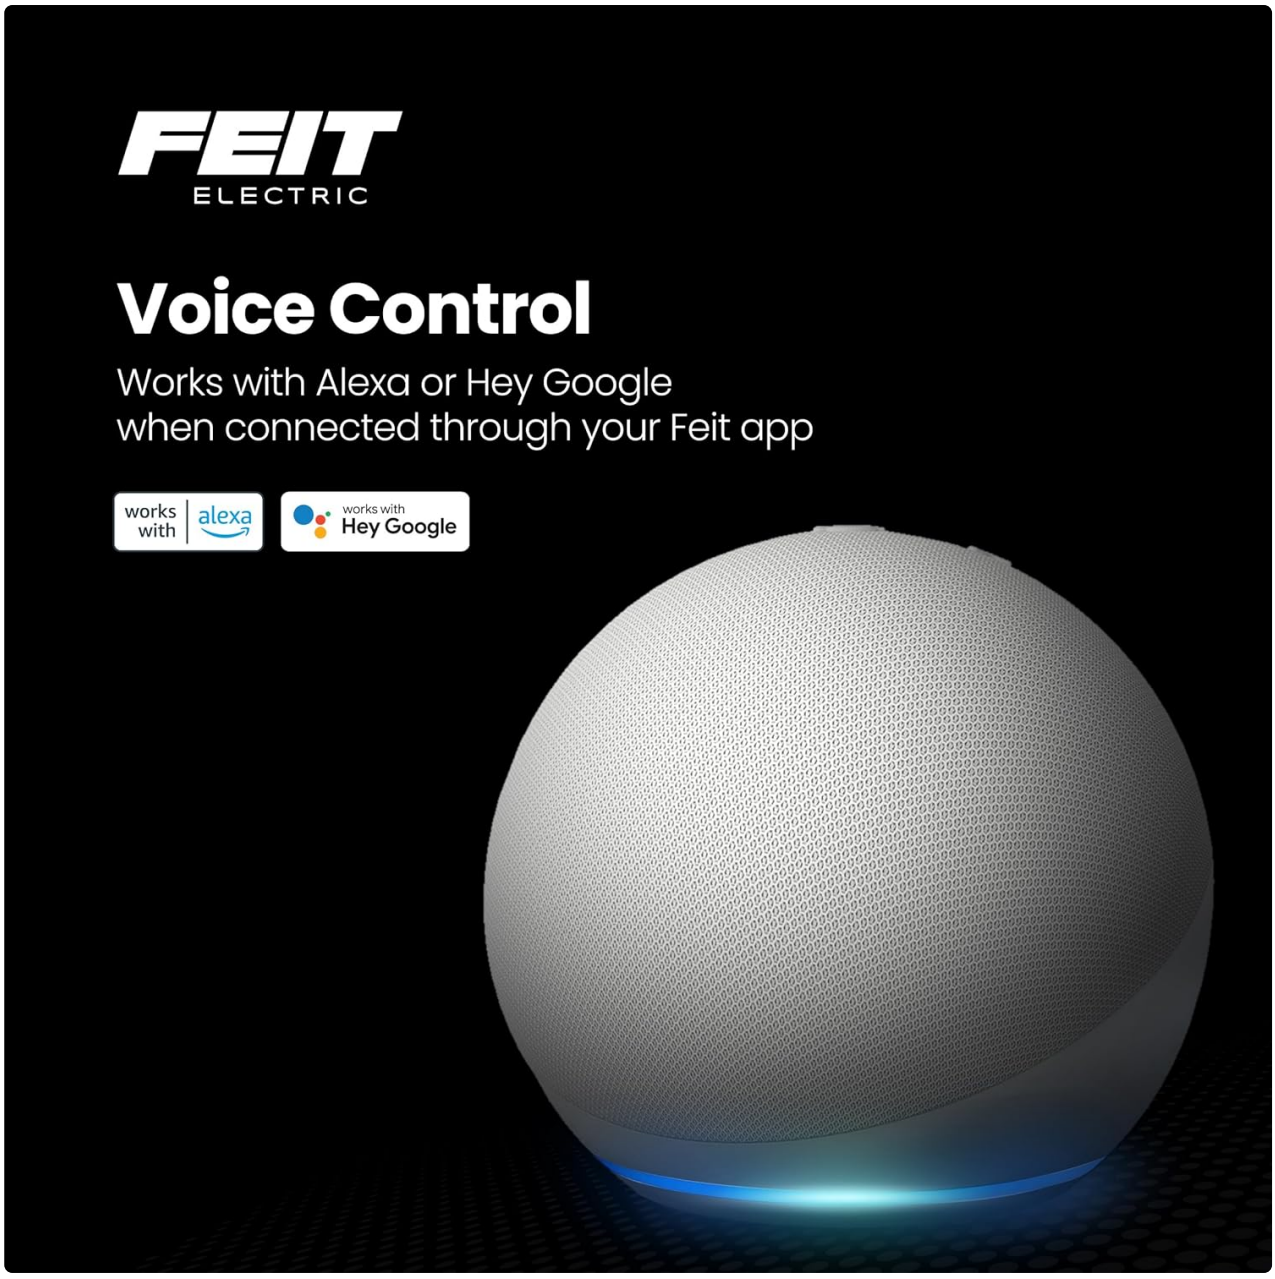

Image: Demonstrates compatibility with voice assistants like Alexa and Google Home.

Maintenance

To ensure optimal performance and longevity of your Feit Electric Smart Video Doorbell Camera, consider the following maintenance tips:

- **Regular Cleaning:** Periodically wipe the camera lens and the doorbell's exterior with a soft, damp cloth to remove dust, dirt, or smudges. Avoid abrasive cleaners.
- **Software Updates:** Keep your Feit Electric app and doorbell firmware updated to the latest versions. Updates often include performance improvements, new features, and security enhancements. Check the app regularly for update notifications.
- **Check Wiring:** Occasionally inspect the wiring connections to ensure they remain secure and free from corrosion or damage.

- **Weather Protection:** While the doorbell is weather-resistant (IP65 rated), extreme weather conditions can impact performance. Ensure it is installed in a location that offers some protection from direct, prolonged exposure to heavy rain or snow if possible.

Troubleshooting

If you encounter issues with your Feit Electric Smart Video Doorbell Camera, try the following troubleshooting steps:

- **No Power/Not Responding:**
  - Ensure the power at the circuit breaker is ON.
  - Verify that the doorbell wires are securely connected to the external power port.
  - Confirm your power source is within the 12-24V AC range.
- **Cannot Connect to Wi-Fi/Offline:**
  - Ensure your Wi-Fi network is 2.4 GHz. The doorbell does not support 5 GHz networks.
  - Check your Wi-Fi signal strength at the doorbell's location. Move your router closer or consider a Wi-Fi extender if the signal is weak.
  - Perform a factory reset on the doorbell (press and hold the reset button for 5 seconds until an audible tone is heard and the LED blinks red), then attempt the app pairing process again.
  - Restart your Wi-Fi router.
- **Motion Detection Issues:**
  - Adjust the motion sensitivity settings within the Feit Electric app.
  - Ensure there are no obstructions blocking the camera's view.
  - Consider the placement of the doorbell to avoid false alerts from passing cars or swaying trees.
- **Two-Way Audio Problems:**
  - Check your phone's volume settings and ensure the microphone is enabled for the Feit Electric app.
  - Ensure a stable internet connection for both your phone and the doorbell.
- **Doorbell Chimes Constantly/Doesn't Chime:**
  - Verify the chime type setting in the Feit Electric app (mechanical or electronic).
  - Ensure proper wiring to your existing chime unit.

Specifications

Feature	Specification
Model Number	CAM/DOOR/WIFI
Video Resolution	1080p HD

Connectivity	2.4 GHz Wi-Fi
Power Source	Hardwired (12-24V AC)
Audio	Two-Way Audio
