2. SETUP

Unpacking and Placement:

1. Carefully remove the oven toaster from its packaging. Retain packaging for future transport or storage.
2. Place the unit on a stable, flat, heat-resistant surface. Ensure adequate clearance (at least 10 cm) from walls and other appliances for proper ventilation.
3. Do not place the unit near water sources or heat-sensitive materials.

Initial Cleaning:

Before first use, wipe the interior and exterior of the unit with a damp cloth. Wash the baking tray and mochi grill net with mild detergent and warm water, then dry thoroughly.

Power Connection:

Plug the power cord into a grounded electrical outlet. Ensure the voltage matches the specifications of the appliance.

Included Accessories:

- Baking Tray
- Mochi Grill Net

4. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your Panasonic Oven Toaster Bistro NT-D700-K.

4.1 Daily Cleaning:

- Always unplug the appliance and allow it to cool completely before cleaning.
- Wipe the interior and exterior surfaces with a soft, damp cloth. For stubborn stains, use a small amount of mild detergent.
- Clean the baking tray and mochi grill net after each use. They can be washed with warm, soapy water

and dried thoroughly.

4.2 Deep Cleaning:

- For accumulated grease or food residue inside the oven, use a non-abrasive oven cleaner designed for toaster ovens, following the product instructions.
- Do not immerse the main unit in water or any other liquid.
- Avoid using abrasive sponges, metal scrubbers, or harsh chemical cleaners, as these can damage the surfaces.

5. TROUBLESHOOTING

If you encounter any issues with your oven toaster, please refer to the following common problems and solutions before contacting customer support.

Problem	Possible Cause	Solution
Unit does not turn on	Power cord not properly plugged in; Power outage; Circuit breaker tripped.	Ensure power cord is securely plugged in; Check household power supply; Reset circuit breaker.
Food not cooking evenly	Food placed too close to heating elements; Uneven food distribution; Grill rack not positioned correctly.	Adjust food position; Ensure food is spread evenly; Verify grill rack is in the correct slot.
Smoke or unusual odor during operation	Food residue on heating elements or interior; First use (normal for initial burn-off).	Unplug and clean the interior thoroughly once cooled; If it's the first use, this should subside after a few minutes. If persistent, contact support.
Display not working	Power issue; Unit malfunction.	Check power connection; Unplug and plug back in after a few minutes. If issue persists, contact support.
