Olympia CW251

Olympia CW251 Bar Collection Gin Glasses User Manual

Model: CW251 | Brand: Olympia

Introduction

This manual provides essential information for the proper use, care, and maintenance of your Olympia CW251 Bar Collection Gin Glasses. Designed for elegance and durability, these crystal gin glasses enhance your beverage experience. Each set includes 6 glasses, each with a capacity of 645 ml, a diameter of 108 mm, and a height of 210 mm.

Setup

Unpacking and Initial Inspection

- Carefully remove all glasses from their packaging.
- Inspect each glass for any signs of damage, chips, or cracks that may have occurred during transit. If any damage is found, please contact customer support immediately.
- Retain the original packaging for future storage or if returns are necessary.

First Use Cleaning

Before first use, it is recommended to wash the glasses thoroughly. While these glasses are generally dishwasher safe, hand washing is preferred for crystal to maintain its clarity and prevent potential etching over time.

- **Hand Washing:** Wash with warm soapy water using a soft sponge or cloth. Rinse thoroughly with clean water.
- **Drying:** Dry immediately with a lint-free cloth to prevent water spots and enhance shine. Hold the glass by the bowl, not the stem, when drying to avoid twisting and potential breakage.

Operating Instructions

Serving Beverages

These glasses are specifically designed for gin and tonic, but their generous capacity and elegant design make them suitable for a variety of cocktails and beverages.

- **Gin & Tonic:** Fill the glass with ice, add your preferred gin, top with tonic water, and garnish with citrus slices (lemon, lime, orange) or botanicals like juniper berries, rosemary, or cucumber.
- **Cocktails:** Ideal for large-format cocktails that benefit from ample ice and garnishes, such as spritzes, sangrias, or other mixed drinks.
- **Water/Juice:** Can also be used for serving water, juice, or other non-alcoholic beverages with a touch of sophistication.

Maintenance and Care

Cleaning

- **Dishwasher Use:** If using a dishwasher, place glasses securely in the top rack, ensuring they do not touch other items. Use a gentle cycle and mild detergent. Avoid harsh abrasives.
- **Hand Washing (Recommended):** For best results and to preserve the crystal's brilliance, hand wash using warm water and a non-abrasive dish soap. Use a soft cloth or sponge.
- **Drying:** Immediately after washing, dry with a clean, lint-free microfiber cloth. This prevents water spots and maintains clarity. For best results, polish gently.

Storage

Store glasses in a cabinet or on a shelf where they are protected from accidental knocks or falls. Consider using glass storage boxes or dividers for added protection, especially if stacking is necessary (though not recommended for

stemmed glassware).

Troubleshooting

Common Issues and Solutions

- **Cloudy Glasses:**
  - *Cause:* Hard water deposits or improper drying.
  - *Solution:* Re-wash with warm water and a small amount of white vinegar. Dry immediately with a lint-free cloth. Consider using a water softener if hard water is a persistent issue.
- **Water Spots:**
  - *Cause:* Air drying or insufficient drying.
  - *Solution:* Always dry glasses immediately after washing with a clean, lint-free cloth.
- **Breakage:**
  - *Cause:* Impact, sudden temperature changes, or improper handling.
  - *Solution:* Handle glasses with care. Avoid extreme temperature changes (e.g., pouring very hot liquid into a cold glass). Do not stack glasses if they are not designed for it.
