ATUMTEK ATSS065

ATUMTEK 40" Bluetooth Selfie Stick Tripod User Manual

Model: ATSS065

1. PRODUCT OVERVIEW

The ATUMTEK 40" Bluetooth Selfie Stick Tripod is an all-in-one device designed for capturing photos and videos with ease. It combines the functionality of a selfie stick and a stable tripod stand, featuring a premium alloy extendable pole for enhanced stability.

Its upgraded 40-inch length provides a broad field of vision, making it suitable for various photography and videography needs, including parties, travel, and live streaming. The device includes a detachable Bluetooth remote for convenient control from a distance.

Super Lightweight & Convenient to Carry Around

7.7 inch long only owe to the hidden retractable design and weights 150g

4. SETUP

1. **Unfold Tripod Legs:** Gently pull the bottom part of the handle downwards to release and extend the three tripod legs. Ensure they are fully spread for maximum stability.

2. **Extend the Pole:** Pull the extendable pole upwards from the handle to reach your desired height. The pole can extend up to 40 inches.

3. **Adjust Phone Holder Angle:** Loosen the adjustment knob located near the phone holder. Tilt the phone holder to your preferred angle (up to 180°) and then tighten the knob to secure it.

4. **Rotate Phone Holder:** The phone holder can rotate 360°. Simply turn the holder to switch between portrait and landscape orientations.

5. **Insert Smartphone:** Gently pull the spring-loaded clamp of the phone holder open and carefully insert your smartphone. Ensure the phone is securely gripped by the holder. The holder supports devices up to 3.5 inches wide.

6. **Bluetooth Pairing:**

    a. Slide the detachable Bluetooth remote out from its slot on the handle.

    b. Turn on the remote by pressing and holding its power button until the indicator light flashes.

    c. On your smartphone, go to *Settings > Bluetooth* and turn Bluetooth on.

    d. Search for available devices and select "AB Shutter3" (or similar name) to pair. The indicator light on the remote will stop flashing once successfully paired.

Adjustable Angle & Rotatable Phone Holder

The 180° angle and 360° rotatable phone holder design enables you to show the finest

5. OPERATING INSTRUCTIONS

1. **Using the Bluetooth Remote:** Once paired, open your smartphone's camera application. Press the button on the Bluetooth remote to take photos or to start/stop video recording. The remote has a range of up to 33 feet.

2. **Selfie Stick Mode:** Hold the handle firmly and extend the pole to your desired length. Use the remote to capture your shots.

3. **Tripod Stand Mode:** Fully extend the tripod legs and place the device on a flat, stable surface. Adjust the pole height and phone holder angle as needed. Use the remote for hands-free photo or video capture.

6. MAINTENANCE

- Keep the selfie stick tripod clean and dry. Wipe with a soft, damp cloth if necessary.
- Avoid exposing the device to extreme temperatures, direct sunlight, or high humidity.
- Store the device in a cool, dry place when not in use.

- Ensure the Bluetooth remote is charged periodically to maintain optimal performance.

7. TROUBLESHOOTING

- **Remote not pairing:**
    - Ensure the remote is powered on and has sufficient battery charge.
    - Check your smartphone's Bluetooth settings to ensure it's enabled and searching for devices.
    - Try restarting both the remote and your smartphone.

- **Smartphone not fitting in holder:**
    - Verify that your smartphone's width (including its case) does not exceed 3.5 inches.
    - Remove bulky phone cases if they prevent a secure fit.

- **Tripod instability:**
    - Ensure all three tripod legs are fully extended and locked into position.
    - Place the tripod on a flat, level, and stable surface.
    - Avoid over-extending the pole when using it as a tripod, especially on uneven terrain or in windy conditions.
