3. FEATURES

- **Direct Thermal Printing:** These labels utilize direct thermal printing technology, eliminating the need for ink or toner. This ensures clear, crisp text.
- **Durable Construction:** Designed to be waterproof, oil-proof, and tearproof, providing long-lasting labels that resist wear and tear. They also leave no residue upon removal.
- **Versatile Applications:** Suitable for a wide range of uses including home organization (kitchen jars, storage boxes), small business needs (price tags, product information, QR codes), and school supplies (name tags, cup labels).
- **Automatic Identification:** Equipped with an intelligent identification chip, these label tapes are automatically recognized by compatible NIIMBOT B1/B21/B3S label printers, simplifying the printing process.
- **BPA-Free:** Manufactured without Bisphenol A, ensuring safety for various applications.

4. SETUP

To set up your NIIMBOT D110 Label Maker Tape, follow these steps for installation into a compatible NIIMBOT label printer:

1. **Open the Label Maker Cover:** Locate and open the cover of your NIIMBOT label maker (e.g., D11, D110, D101, B1, B21, B3S).
2. **Insert the Label Roll:** Place the label roll into the designated compartment. Ensure the labels feed out from the bottom of the roll and the leading edge of the label tape extends slightly out of the printer's output slot.
3. **Align the Labels:** Make sure the label tape is properly aligned within the printer mechanism to prevent misprints or jams.
4. **Close the Cover:** Close the label maker cover securely. The printer should automatically detect the label type and size due to the intelligent identification chip.
5. **Check the Sensor Sticker: Important:** Do not tear or damage the sticker on the side of the label roll. This sticker contains the printing sensor chip, and its damage will affect printing performance.

5. OPERATION

Once the label tape is installed, operate your NIIMBOT label maker as follows:

1. **Connect to App:** Ensure your NIIMBOT label maker is connected to its dedicated mobile application via Bluetooth.
2. **Select Template:** In the app, the label type should be automatically recognized. Select or create your desired label design.
3. **Enter Text/Data:** Input the text, numbers, symbols, or other data you wish to print on the label.
4. **Print:** Initiate the print command from the app. The label maker will print the labels.
5. **Apply Label:** Carefully peel the printed label from its backing and apply it to the desired surface. Ensure the surface is clean and dry for optimal adhesion.

6. MAINTENANCE

Proper care of your label tapes ensures optimal performance and longevity:

- **Storage:** Store label rolls in a cool, dry place away from direct sunlight and extreme temperatures to prevent degradation of the thermal material and adhesive.
- **Handling:** Avoid touching the printing surface of the labels directly, as oils from your skin can affect print quality.
- **Printer Cleaning:** Regularly clean the print head of your NIIMBOT label maker according to its specific instructions to maintain clear print quality.

7. TROUBLESHOOTING

If you encounter issues while using your NIIMBOT D110 Label Maker Tape, consider the following:

- **Poor Print Quality:**

- Ensure the label roll is correctly installed and aligned.
- Clean the print head of your label maker.
- Check if the label roll's sensor sticker is intact and not damaged.
- Verify that the label tape is genuine NIIMBOT product.

- **Labels Not Recognized:**

- Confirm the label roll is fully inserted and the cover is closed.
- Check the sensor sticker on the side of the roll for damage.
- Restart your label maker and the mobile application.

- **Labels Not Sticking:**

- Ensure the application surface is clean, dry, and smooth.
- Apply firm, even pressure when adhering the label.
- Avoid applying labels to excessively textured or oily surfaces.

8. WARRANTY & SUPPORT

For warranty information or technical support regarding your NIIMBOT D110 Label Maker Tape, please refer to the documentation provided with your NIIMBOT label maker or visit the official NIIMBOT website. You can also contact NIIMBOT customer service for assistance.
