Northpoint B08PC43PRM

Northpoint Smart LED Floor Lamp B08PC43PRM User Manual

Model: B08PC43PRM

INTRODUCTION

Thank you for choosing the Northpoint Smart LED Floor Lamp. This intelligent LED light column offers dynamic color-changing capabilities, warm white light, and can be controlled via a wireless remote or a Wi-Fi application. This manual provides essential information for safe installation, operation, and maintenance of your new lamp.

SAFETY INSTRUCTIONS

- For indoor use only. Do not expose the lamp to moisture or extreme temperatures.
- Ensure the power supply voltage matches the lamp's requirements (12 Volts).
- Do not attempt to disassemble or modify the lamp beyond what is described in this manual.

- Keep the lamp away from flammable materials.
- Always unplug the lamp from the power outlet before cleaning or performing any maintenance.
- This product contains a light source of energy efficiency class G.

PACKAGE CONTENTS

Please check the package contents upon unboxing:

- 1 x Northpoint Smart LED Floor Lamp
- 1 x Power Supply Unit
- 1 x Wireless Remote Control
- 1 x User Manual (This document)

SETUP

1. **Unpack the Lamp:** Carefully remove all components from the packaging.
2. **Position the Lamp:** Place the floor lamp on a stable, flat surface in your desired indoor location. Ensure it is away from heat sources and direct sunlight.
3. **Connect Power:** Connect the power supply unit to the lamp's power input, then plug the power supply into a standard electrical outlet.
4. **Remote Control Pairing:**
 - Press and hold the **RGB+** button on the remote control.
 - While holding the button, plug the power supply into the wall socket.
 - The lamp will blink once to indicate successful pairing.
 - The remote control is now connected.

Kopplung der Fernbedienung:

- RGB+ Knopf gedrückt halten
- Netzteil in die Steckdose stecken
- Lampe blinkt einmal
- Fernbedienung ist verbunden

5. Wi-Fi / App Control (Optional):

- Download the "Smart Life" or "Tuya" app from your smartphone's app store.
- Follow the in-app instructions to add your Northpoint Smart LED Floor Lamp. (Note: This lamp is not

compatible with Alexa.)

OPERATING INSTRUCTIONS

Your Northpoint Smart LED Floor Lamp offers various lighting modes and control options.

Remote Control Functions:

- **Power Button:** Turns the lamp On/Off.
- **"W" Button:** Activates warm white light.
- **RGB+ / RGB- Buttons:** Adjusts RGB color intensity or cycles through colors.
- **Brightness Adjustment:** Use the sun icon buttons to increase or decrease brightness.
- **Effect Button:** Cycles through various pre-programmed lighting effects.
- **Speed Button:** Adjusts the speed of dynamic lighting effects.
- **Timer Buttons (4H, 6H, 8H, 10H):** Sets the lamp to turn off automatically after the selected duration.
- **Sound Sensor Modes (♪1, ♪2, ♪3):** Activates different sound-reactive lighting modes. The lamp will respond to ambient noise or music.

Wi-Fi / App Control:

Once connected to the Smart Life or Tuya app, you can control the lamp's functions, including color, brightness, and effects, directly from your smartphone.

MAINTENANCE

- **Cleaning:** Disconnect the lamp from the power supply before cleaning. Use a soft, dry cloth to wipe the lamp's surface. Do not use abrasive cleaners or solvents.
- **Light Source:** The LED light source is integrated and not user-replaceable. If the light source fails, the entire luminaire must be replaced.
- **Storage:** If storing the lamp for an extended period, unplug it and store it in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on.	No power supply; loose connection; remote control battery depleted.	Check if the power supply is securely plugged into the lamp and the wall outlet. Ensure the outlet has power. Replace remote control batteries if necessary.
Remote control not working.	Remote not paired; battery depleted; obstruction.	Re-pair the remote control (see Setup section). Replace remote control batteries. Ensure no obstructions between remote and lamp.
Wi-Fi connection issues.	Incorrect Wi-Fi password; lamp too far from router; app not configured correctly.	Verify Wi-Fi password. Move lamp closer to the Wi-Fi router. Follow app instructions carefully for device setup. Ensure your Wi-Fi network is 2.4GHz.
Sound sensor not responding.	Mode not activated; insufficient sound.	Ensure one of the sound sensor modes (♪1, ♪2, ♪3) is selected on the remote. Increase ambient sound volume.

SPECIFICATIONS
