NETTA 3-in-1 Air Cooler User Manual

Model: 103895

INTRODUCTION

Thank you for purchasing the NETTA 3-in-1 Air Cooler. This appliance is designed to provide cooling, humidification, and air circulation for your indoor environment. Please read this manual carefully before operation to ensure proper use, maintenance, and safety.

Important Safety Instructions

- Always place the unit on a stable, flat surface.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Unplug from the power outlet when not in use, before filling or emptying the water tank, and before cleaning.
- Keep out of reach of children and pets.
- Do not block air inlets or outlets.
- This product is not an air conditioner and will not significantly lower room temperature. It provides a cooling effect through evaporation.

PRODUCT OVERVIEW

The NETTA 3-in-1 Air Cooler combines the functions of a fan, humidifier, and air cooler. It features an LED display, remote control, and a 7-hour timer for convenient operation.

Image: The NETTA 3-in-1 Air Cooler, showing its tall, slim white design, the remote control, and two ice packs. A blue airflow indicates the cooling function.

Key Features:

- **3-in-1 Functionality:** Fan, Humidifier, Air Cooler.
- **3 Fan Speeds:** Low, Medium, High.
- **3 Wind Modes:** Normal, Natural, Sleep.
- **60° Oscillation:** For wide air distribution.
- **7-Hour Timer:** For scheduled operation.
- **Remote Control:** For convenient operation from a distance.
- **5L Water Tank:** Large capacity for extended use.
- **Includes 2 Ice Packs:** For enhanced cooling performance.

3-IN-1 COOLING VERSATILITY

Need a fan? You got it. Is it also a humidifier? You bet. Need the ultimate in cooling? Use the Air Cooler function with 2 ice packs included for maximum cool!

Image: A visual representation of the three functions: Fan (no water), Humidifier (add water), and Air Cooler (add water + ice packs).

SETUP

1. **Unpacking:** Carefully remove the air cooler and all accessories from the packaging. Retain packaging for future storage or transport.
2. **Placement:** Place the air cooler on a firm, level surface, ensuring there is adequate space around the unit for proper airflow. Avoid placing near curtains or objects that could obstruct the air intake or outlet.
3. **Filling the Water Tank:**
 - Pull out the water tank from the bottom rear of the unit.
 - Fill the tank with clean, cool water. Do not exceed the "MAX" fill line.
 - For enhanced cooling, place the provided ice packs in a freezer until frozen. Once frozen, place them directly into the water tank. You may also add ice cubes.
 - Carefully slide the water tank back into the unit until it clicks into place.
4. **Power Connection:** Plug the power cord into a standard electrical outlet (220 Volts).

OPERATING INSTRUCTIONS

The air cooler can be operated using the control panel on top of the unit or the included remote control.

TOTAL COOL CONTROL

Use the handy remote or simply push the top display to keep cool your way.

Image: The NETTA Air Cooler with its remote control, illustrating the three fan speed settings (Low, Medium, High) and the concept of total cool control.

Control Panel and Remote Control Functions:

- **Power Button (⏻):** Press to turn the unit ON or OFF.
- **Speed Button (⏮):** Press repeatedly to cycle through fan speeds: Low, Medium, High.
- **Mode Button (M):** Press repeatedly to select desired wind mode:
 - **Normal:** Constant airflow at selected speed.
 - **Natural:** Simulates natural breeze by varying fan speed.
 - **Sleep:** Gradually decreases fan speed over time for quiet operation during sleep.
- **Oscillation Button (↔):** Press to activate or deactivate the 60° oscillation function, which distributes air across a wider area.

- **Timer Button ():** Press repeatedly to set the operating timer from 1 to 7 hours. The unit will automatically turn off after the set time.
- **Cooling/Humidifier Button (*):** Press to activate the cooling/humidifying function. Ensure the water tank is filled for this function to operate effectively.

EVERYWHERE IS YOUR COMFORT ZONE

Choose from 3 modes to create your comfort zone.
The ultimate in cool versatility for your living space.

● NORMAL

● NATURAL

● SLEEP

MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your air cooler.

Cleaning the Exterior:

- Always unplug the unit before cleaning.
- Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.

Cleaning the Water Tank:

- Empty any remaining water from the tank.
- Rinse the water tank with clean water. For thorough cleaning, use a mild detergent and a soft brush, then rinse thoroughly.
- Allow the tank to air dry completely before reinserting it into the unit or storing.

Cleaning the Air Filter:

- The air filter is located at the rear of the unit. Gently pull it out.
- Rinse the filter under running water to remove dust and debris. For stubborn dirt, use a soft brush.
- Ensure the filter is completely dry before placing it back into the unit.

Storage:

- If storing the unit for an extended period, ensure the water tank is empty and clean, and the unit is dry.
- Store the air cooler in a cool, dry place, preferably in its original packaging.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on.	No power supply; Power button not pressed.	Check if the power cord is securely plugged in. Press the Power button.
No cool air/Weak cooling.	Water tank empty; No ice packs/ice; Filter dirty.	Fill water tank. Add frozen ice packs or ice cubes. Clean the air filter.
Unit is noisy.	Unit not on a level surface; Obstruction in fan.	Ensure unit is on a flat, stable surface. Check for and remove any obstructions.
Water leakage.	Water tank not properly inserted; Tank overfilled; Unit tilted.	Ensure water tank is securely in place. Do not overfill past "MAX" line. Keep unit upright.
Remote control not working.	Batteries dead; Obstruction between remote and unit.	Replace remote control batteries. Ensure clear line of sight to the unit's receiver.

SPECIFICATIONS

Brand	NETTA
Model Number	103895
Dimensions (L x W x H)	25 x 19 x 85 cm
Weight	6.6 Kilograms
Water Tank Capacity	5 Liters
Power	55 Watts
Voltage	220 Volts
Noise Level	50 dB
Number of Speeds	3
Control Type	Remote Control
Special Features	2 ice packs included, LED display, 7-hour timer, Remote control

SILENT BUT POWERFUL

Keep cool day and night our powerful high-torque but extremely quiet motor. With a noise level as low as 50dB, you'll think you're dreaming.

Image: A diagram illustrating the quiet operation of the NETTA Air Cooler at 50dB, comparing it to other common sounds like leaves rustling (25dB), heavy rain (45dB), and loud talking (60dB).

NEW GENERATION COOLING TECHNOLOGY

The wider 45cm vent and New Generation Cooling Technology brings the ultimate in efficient cooling performance.

NETTA NEW GENERATION

 MAX COVERAGE 15m²
 EFFICIENT 6M DISTANCE

TRADITIONAL

 MAX COVERAGE 5m²
 EFFICIENT 3M DISTANCE

Image: A comparison showing the NETTA Air Cooler's new generation cooling technology with a wider 45cm air vent, providing a maximum coverage of 15m² and efficient 6m distance, contrasted with a traditional cooler's narrower 25cm vent, 5m² coverage, and 3m distance.

FEEL THE FLOW

Effective powerful airflow system is designed for maximum efficiency, leaving you refreshed within seconds.

355m³/hour
MAX AIR VOLUME

6.8m/sec
MAX WIND SPEED

2 Ice Packs
INCLUDED

6 METERS
