

Weehom 12.7 Inch Twin Size Metal Bed Frame

Weehom 12.7 Inch Twin Size Metal Bed Frame Instruction Manual

Model: 12.7 Inch Twin Size Metal Bed Frame

1. IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Retain this manual for future reference.

- Exercise caution around sharp edges during assembly.
- Do not exceed the maximum weight capacity of 350 lbs (158 kg).
- Always follow assembly instructions precisely to prevent instability or collapse.
- Ensure all bolts and connections are securely tightened before use.
- Keep small parts away from children during assembly.

2. PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact Weehom customer support.

- Headboard
- Footboard
- Side Rails
- Center Support Bar(s)
- Support Legs
- Steel Slats
- Assembly Hardware (bolts, washers, nuts, Allen wrench)

3. SETUP (ASSEMBLY INSTRUCTIONS)

Assembly is designed to be straightforward. All necessary tools are included. It is recommended to assemble the bed frame with two people.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface (like a rug or blanket) to prevent scratches. Identify each part using the included diagram.
2. **Attach Side Rails to Headboard and Footboard:** Connect the side rails to the headboard and footboard using the provided bolts, washers, and nuts. Do not fully tighten bolts until all major components are connected.
3. **Install Center Support Bar(s) and Legs:** Secure the center support bar(s) to the designated points on the side rails. Attach any additional support legs to the center bar(s) or frame as indicated in the diagram.
4. **Place Steel Slats:** Lay the steel slats across the frame, ensuring they are evenly spaced and securely fitted into their designated slots or attached with the provided fasteners.
5. **Final Tightening:** Once all parts are in place and aligned, systematically tighten all bolts and

connections using the Allen wrench. Ensure the frame is stable and does not wobble.

Twin Size Frame Dimension

Enjoy a good life

Professional Manufacturer

4. OPERATING INSTRUCTIONS (USAGE)

This bed frame is designed for use with a twin-size mattress. A box spring is not required due to the integrated steel slat support system.

- **Mattress Placement:** Place your twin-size mattress directly onto the steel slats.
- **Weight Capacity:** The bed frame has a maximum weight capacity of 350 lbs (158 kg). Do not exceed this limit to ensure safety and product longevity.
- **Under-Bed Storage:** The frame provides 12.7 inches of clearance underneath, offering ample space for storage containers or other items.

Image: Example of utilizing the under-bed storage space provided by the frame's height.

5. MAINTENANCE

Regular maintenance will help prolong the life and appearance of your bed frame.

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the powder-coated finish.
- **Bolt Tightness:** Periodically check all assembly bolts and connections to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent squeaking.
- **Inspection:** Regularly inspect the steel slats for any signs of bending or damage. Replace any damaged slats immediately to ensure proper mattress support.

6. TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:** Squeaking is often caused by loose connections. Re-tighten all bolts on the frame, especially where the side rails connect to the headboard and footboard, and where the slats attach.
- **Instability/Wobbling:** Ensure all legs are firmly on the ground and all bolts are fully tightened. Verify

that the frame was assembled correctly according to the instructions.

- **Mattress Sagging/Bent Slats:** Check that the mattress weight does not exceed the 350 lbs capacity. Ensure weight is distributed evenly across the bed. Inspect individual slats for damage or bending; replace if necessary.
- **Missing Parts:** If you find any parts missing upon unboxing, please contact Weehom customer service with your purchase details.

7. SPECIFICATIONS

Detailed specifications for the Weehom 12.7 Inch Twin Size Metal Bed Frame:

Feature	Detail
Size	Twin
Product Dimensions (L x W x H)	77.4" x 36" x 34.8"
