Bonrcea Baby Wooden Playpen (Model 001) Instruction Manual

1. PRODUCT OVERVIEW

The Bonrcea Baby Wooden Playpen provides a secure and spacious environment for babies and toddlers to play. Constructed from high-quality New Zealand pine wood, this playpen is designed for durability, safety, and environmental friendliness. Its modular design allows for flexible configuration to suit various room layouts.

Figure 1: The Bonrcea Baby Wooden Playpen provides a safe and spacious play area for children.

2. IMPORTANT SAFETY INFORMATION

- Always supervise children when they are inside the playpen.
- Ensure all connection fittings and screws are securely tightened before each use. Regularly check for any loose components.
- The scientific spacing of 2.8 inches between bars prevents entrapment.
- The fence height of 24 inches is designed to prevent children from climbing out while allowing visibility.
- The material is environmentally friendly, non-toxic, tasteless, and free from paint, ensuring safety even if licked or bitten.
- Use anti-slip stickers on the bottom of the panels for added stability, especially on smooth surfaces.
- Do not leave children unattended with toys that could be used to climb out of the playpen.

3. PACKAGE CONTENTS

Before assembly, verify that all components listed below are present in your package. The number of solid wood panels may vary depending on the specific size of your playpen.

- Solid Wood Panels (quantity varies by model)
- Solid Wood Door Panel (1)
- Highly Rigid Connection Fittings (blue plastic connectors)
- Anti-slip Velcro & Metal Dowels (for securing connections)

Video 1: This video demonstrates the unboxing and identification of components for the Bonrcea Baby Wooden Playpen.

4. SETUP AND ASSEMBLY INSTRUCTIONS

Assembly of the Bonrcea Baby Wooden Playpen is designed to be straightforward and typically takes approximately 5 minutes. Follow these steps:

1. **Unpack Components:** Carefully remove all solid wood panels, the door panel, connection fittings, anti-slip velcro, and metal dowels from the packaging.
2. **Connect Panels:** Use the blue plastic connection fittings to join the solid wood panels. Ensure the fittings are aligned correctly with the pre-drilled holes on the panels.
3. **Secure Connections:** Insert the metal dowels through the holes in the connection fittings and into the panels. Tighten securely with a screwdriver to ensure stability.
4. **Install Door Panel:** Integrate the door panel into your desired playpen configuration, ensuring its hinges and safety lock mechanism are correctly installed and functional.
5. **Apply Anti-slip:** Attach the provided anti-slip velcro pads to the bottom of the playpen panels to prevent sliding and enhance stability on various floor types.
6. **Form Desired Shape:** Arrange the connected panels into your preferred shape (e.g., square, rectangle, L-shape). The polygonal balance design ensures stability.

Figure 2: Panels are connected using rigid fittings and secured with screws for enhanced stability.

Figure 3: The modular design allows for flexible configurations to fit various spaces.

Video 2: This video provides detailed instructions for assembling the Bonrcea Baby Wooden Playpen.

5. OPERATING INSTRUCTIONS

The playpen features a convenient safety gate for easy access.

- **Gate Operation:** The baby enclosure gate can be opened and closed 90 degrees, both inward and outward, for your convenience.
- **Safety Lock:** The gate is equipped with a safety lock device that parents can easily operate to 'walk' into the play area, but it is designed to be difficult for a child to open.

Figure 4: The playpen features a safety gate for easy access by parents, with a child-resistant lock.

Video 3: This video demonstrates the functionality of the Bonrcea Baby Wooden Playpen, including the safety gate.

6. MAINTENANCE

- **Cleaning:** Wipe down the wooden surfaces with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners that could damage the wood.
- **Regular Inspection:** Periodically inspect all panels, connectors, and the gate mechanism for any signs of wear, damage, or loose parts.
- **Tighten Screws:** Ensure all screws and metal dowels are tight. Loose screws can pose a safety hazard.
- **Storage:** For long-term storage, the playpen can be easily disassembled and stored in a dry place.

DIY PLAYPEN SIZE

Figure 5: When not in use, the playpen can be easily disassembled and stored compactly.

7. TROUBLESHOOTING

- **Playpen feels unstable:** Ensure all connection fittings are fully engaged and screws are tightened. Verify that the anti-slip pads are correctly placed on the bottom of the panels.
- **Screws coming loose:** Regularly check and re-tighten all screws. If screws repeatedly come loose, contact customer service for assistance.
- **Gate not closing properly:** Check for any obstructions in the gate's path or damage to the latch mechanism. Ensure the playpen is on a level surface.

8. PRODUCT SPECIFICATIONS

Feature	Detail
Product Dimensions	71 x 59 x 24 inches
Item Model Number	001
Material Type	Pine Wood (100% New Zealand pine wood)

Material Free	BPA Free, Latex Free, Lead Free, Phthalate Free
Item Weight	22.8 pounds
Maximum Weight Recommendation	100 Pounds
Maximum Height Recommendation	24 Inches

9. WARRANTY AND CUSTOMER SUPPORT
